

# LGS

## LAMINATED GLASS SYSTEMS

ARCHITECTURAL PANEL COLLECTION

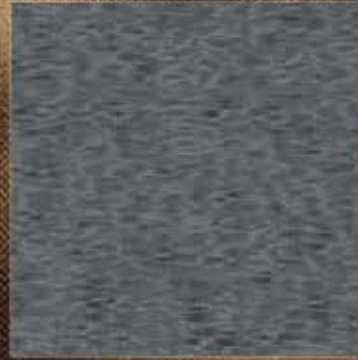

The sleek look of these LGS panels can bring an added dimension of beauty and inspired design to any room, and they lend themselves easily to a number of different uses: as wall panels, room dividers, shower walls, countertops and so much more. These eye-catching and easy to clean panels are created from specially patterned paper that has been laminated between two sheets of glass, bonding the three pieces into a solid panel. The pattern of the paper appears with clarity and richness, while the glass gives it a sense of depth and shine.
