SURFACES REDEFINED

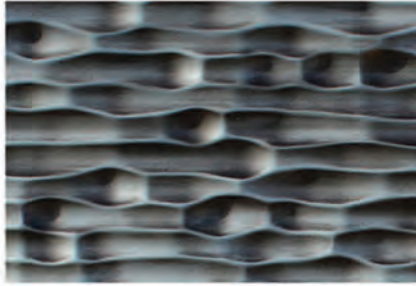

ENHANCEMENT  
FINISHES

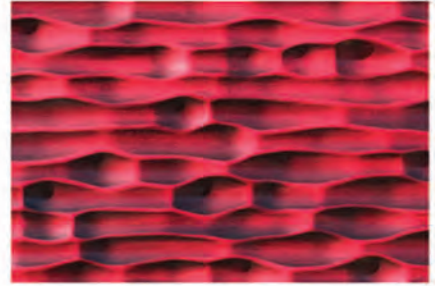

## ANTIQUED

---

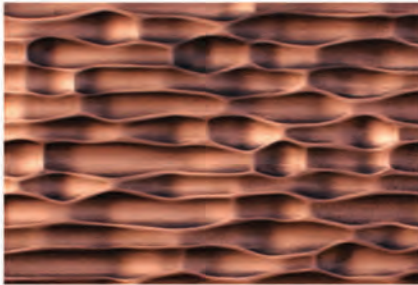

Antiqued finishes require multiple steps that include sanding and priming, lacquering, cleaning. And a round of base coats. Finally, exclusively formulated chemicals are applied prior to a buffing technique that creates an "Antiqued" finish. Eight other colors are on our website.

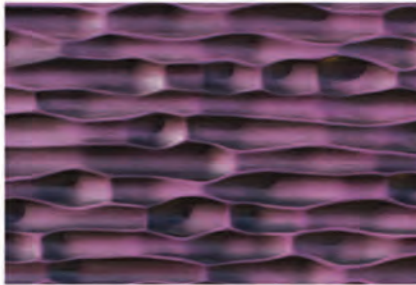

Antiqued  
Barrel Steel

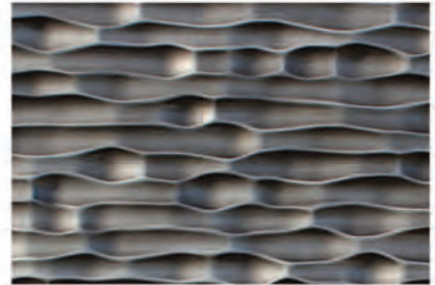

Antiqued  
Black Cherry

Antiqued  
Copper

Antiqued  
Purple

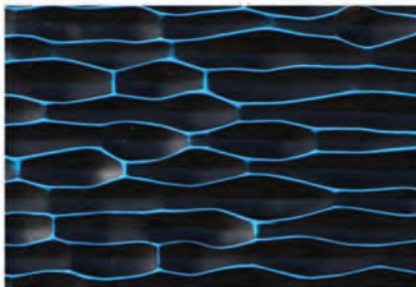

Antiqued  
Tin

## OXY

---

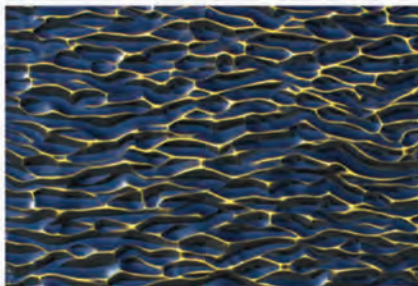

Oxy finishes require multiple steps that include sanding and priming, lacquering, cleaning, and a round of base coats. Finally, exclusively formulated chemicals are applied prior to a buffing technique that exposes the base coat. There are five other colors on our website.

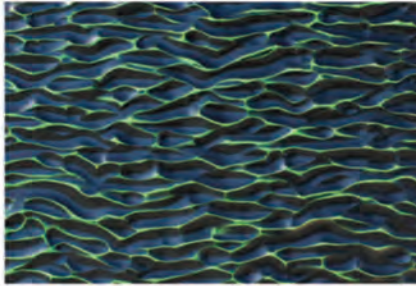

Oxy  
Blue

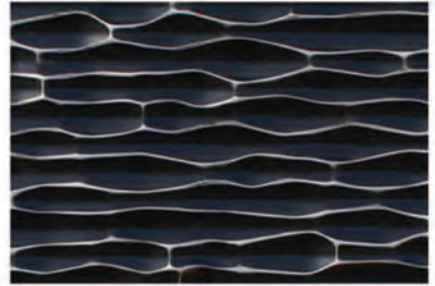

Oxy  
Bronze

Oxy  
Yellow

Oxy  
Lime

Oxy  
Tin

## RAW

---

Interlam also can supply unfinished or Raw panels.

Raw

Raw

\* Please note that not all finishes are available for all products and patterns. Please see the specific pattern page on our website, [www.interlam-design.com](http://www.interlam-design.com), for finish options. Or call Interlam at : 1-800-237-7052. #surfacesredefined.

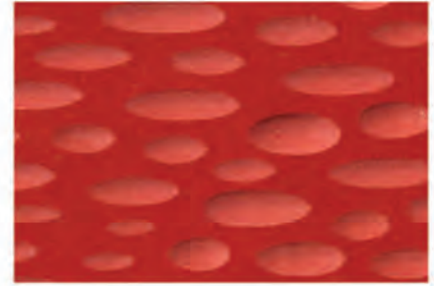

## CLEAR

Clear finishes are available in either Post-carved or Pre-carved. Two tone effects can be achieved on several patterns with a Pre-carved clear finish. The color of the core material is enhanced when a Post-carved clear finish is applied.

Clear  
Post-Carved

Clear  
Pre-Carved

## CUSTOMER SPECIFIED

Looking for a specific RAL or PMS color code? Our labs can match most any color to your specifications. The paints created in our labs are specifically formulated for use on our carved MDF panels however Interlam can also supply panels finished with Benjamin Moore or Sherwin-Williams acrylic/latex paints as well.

Customer Specified  
(Benjamin-Moore paint finish)

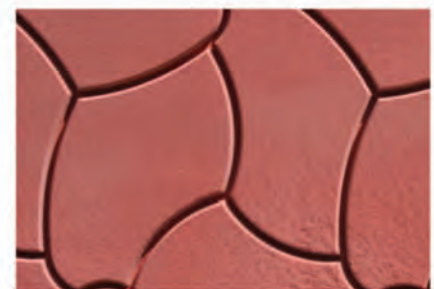

Customer Specified  
(Sherwin-Williams paint finish)

## SANDBLAST

Sandblast finish is available on select cores and patterns. Please see the specific pattern detail on our website to verify that sandblasting is an option.

Sandblast  
Acrylic

Sandblast  
Valchromat

## METAL

Metal finishes require multiple steps. First, the panels go through our sand and prime process using our standard lacquer primer. The surfaces of the carved MDF panels are then inspected and cleaned. The panels are then sanded and primed again with a specially formulated primer. Metal ore is mixed into a liquid form and applied to the panels. After the metal has properly cured, the metal surface is hand-buffed revealing an authentic true metal finish.

Metal  
Bronze

Metal  
Copper

Metal  
Rusty-Steel

Metal  
Tin

\* Please note that not all finishes are available for all products and patterns. Please see the specific pattern page on our website, [www.interlam-design.com](http://www.interlam-design.com), for finish options. Or call Interlam at : 1-800-237-7052. #surfacesredefined.

# NON-GLOSS FOIL

Non-gloss foil finishes can be chosen as an alternative to painted finishes. Various wood grains, patterns, and solid colors are available. After cleaning and inspection the panels move on to our pressing operation which applies the specified foil color to the carved panel surface.

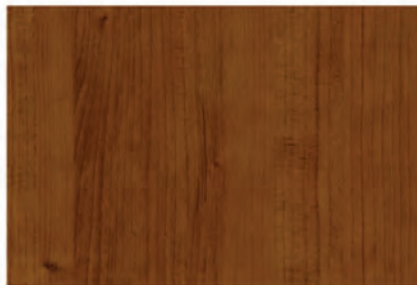

**Non-Gloss Foil**  
(AR) Amati PC

## METALLIC PAINT

Metallic Paint finishes requires our sand and prime process with standard lacquer primer. The panels are then inspected and cleaned. Finally, a finish coat or top coat is applied and then cured before final inspection and packing.

**Metallic Paint**  
Barrel Steel

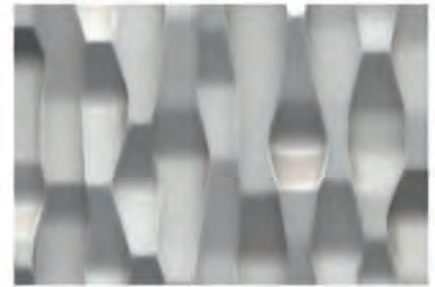

**Metallic Paint**  
Brass

**Metallic Paint**  
Bronze

**Metallic Paint**  
Copper

**Metallic Paint**  
Tin

## OVERLAY

Overlay finishes allow you to select from an assortment of high pressure laminates to be applied to the core material surface prior to carving. The panel is then carved allowing for a diverse range of color combinations.

**Overlay**  
Brushed Aluminum

**Overlay**  
Mirror

**Overlay**  
High Pressure Laminate ((HPL)

**Overlay**  
Brushed Aluminum HPL

## SANDED AND PRIMED

Sanded and Primed panels are available in either a lacquer or water based primer. Unless specified otherwise, all sanded and primed orders will be processed with a lacquer primer.

**Sanded and Primed**

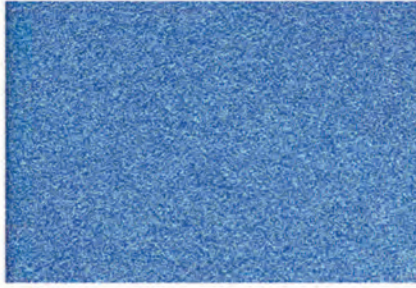

\* Please note that not all finishes are available for all products and patterns. Please see the specific pattern page on our website, [www.interlam-design.com](http://www.interlam-design.com), for finish options. Or call Interlam at : 1-800-237-7052. #surfacesredefined.

## SILTEX

---

SilTex finishes – Studio Silica Finishes. Solid color surface aggregates are combined with polyurethane to create an array of brilliant colors and tones which absorb and reflect light. We have 27 other combos on our website.

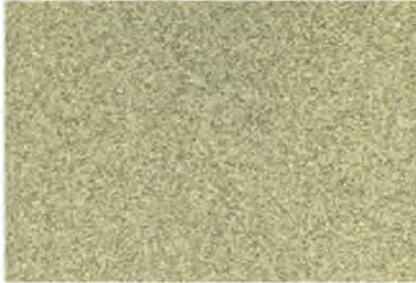

**SilTex**  
Blue Matrix

**SilTex**  
Rose Matrix

**SilTex**  
White WB

**SilTex**  
Natural Matrix

**SilTex**  
Green WB

## TORTOISE SHELL

---

Tortoise Shell finishes require multiple steps that include sanding and priming, lacquering, cleaning, and a round of base coats. Finally, exclusively formulated chemicals are applied to achieve the Tortoise Shell effect. We have 8 other colors on our website.

**Tortoise Shell**  
Orange

**Tortoise Shell**  
White Dove

**Tortoise Shell**  
Brass

**Tortoise Shell**  
Copper

**Tortoise Shell**  
Teal

\* Please note that not all finishes are available for all products and patterns. Please see the specific pattern page on our website, [www.interlam-design.com](http://www.interlam-design.com), for finish options. Or call Interlam at : 1-800-237-7052. #surfacesredefined.
