Hello Everyone,
Finally the sun is out! Let’s enjoy.
Hopefully you have registered for Wings.
If you are planning on going, you need to make your motel reservations; they are filling up quickly. September will be here before we know it.

A HUGE THANK YOU goes to Dwain Strader. His planned trip to the Marine Museum in Virginia was a great trip. The ride up was beautiful and his route through the countryside was fantastic. The weather was good with a little shower that cooled us off. Cloudy and cool on Sunday. Thank goodness we all took some winter gear. The guys were fine but the ladies were cool. We had sixteen members to go on this trip. Dwain, we are awaiting your next adventure.

Thanks to Janice, Bill, Henry & Ms. Libby for capturing the Central Travelers Plaque at Durham’s gathering.

We had a great time at Chapter G’s “Wings” event. There were plenty of wings to eat. Mr. Ron won third place in the contest. You will never believe who the judges were…Roy Bryant, District Director, Tom Tipton, CD-Smithfield, and our own Tom FitzGerald. When you see Tom ask him how many wings he ate. I’ll never tell.

August will be here soon. Our annual picnic will be at Hagan Stone Park on Saturday, August 12th. If you plan on camping, please let me know so I can make reservations.

Most important…Father’s Day is Sunday, June 18th. Let’s let him know how much we appreciate him, pamper him, let him rest, put his feet up, make his favorite meal, anything else you can think of.

Be Safe in your travels. We Care,
Alice & Ron Myers
Chapter Directors
NC-A
As I write this, we are still in May, which is Motorcycle Safety Awareness month, according to National Safety Council. This week, I received an email from Matt Danielson, with the Motorcycle Law Group, with 5 Motorcycle Safety Tips, provided below. Good advice for all of us! I appreciate receiving this and am glad to be able to share it with you.

5 Motorcycle Safety Tips

May is Motorcycle Safety Awareness month, according to National Safety Council. Being safe is being prepared, alert and cautious while on and off the road. To recognize Motorcycle Safety Awareness Month here are five tips to keep you and others safe on the road.

1. **Know your tires.** Some motorcycle tires are tubeless and some are not, so it’s important to become familiar with the type of tires you have on your bike. You should know your tires and whether or not you can give them a quick fix if you get a flat tire to get to a motorcycle shop for repair or replacement. One of our partners carries a CO2 cartridge and a tool that allows her to give her tires a quick blast of air should she need it.

2. **Check your tire pressure.** Be sure you know what the optimal tire pressure is for your bike’s tires and check it every time you ride. Riding when your bike’s tire pressure is too low can damage the tire. Pressure which is too high reduces the contact patch with the road, affecting your traction, and tends to make your ride feel rougher; it can also cause the tires to heat more quickly.

3. **Assume that you are invisible.** Just because the person behind the wheel of that SUV at the stop sign is looking at you does not mean that they are seeing you. Assume that the vehicles around you do not see you. As you approach intersections think about what you would do if the car stopped at the light suddenly pulled out. Be prepared to execute a panic stop, and identify possible escape routes. Just because you see them does not mean that they see you.

4. **Leave an Escape Route.** Speaking of escape routes, when you come to a stop watch your rearview mirrors for approaching vehicles who may not see that there is a motorcycle ahead. Flash your brake lights to help make them aware of your presence. Leave enough distance between you and the vehicle in front of you so that if that happens you can get out of the way. Don’t wait at a light or stop sign with your bike in neutral. Have your bike in gear so that if you do have to quickly get out of the way of a car that does not see you stopped you are ready at a moment’s notice.

5. **Practice – Practice – Practice.** Nothing hones your skills like actually riding. Find an area with curvy roads and practice negotiating curves. Find an empty parking lot and practice panic stops and slow speed maneuvers. Consider taking a refresher course to rid yourself of the bad habits that we all acquire over time. Riding skills diminish if they’re not used. Keep yours polished.

From the accounts I’ve heard, and the pictures on Facebook, the ride to Quantico, VA was everything expected and more. Looking forward to a wonderful riding season, and fun with our friends.

The 26th Annual International Motorcycle and Scooter Ride to Work Day is scheduled for June 19 this year. The ride is always the third Monday in June and is intended to combine the fun of riding with the practical application of two-wheeled transportation, but I believe they might need to change that to two- or three-wheeled with the changes in motorcycling.

Commuting to work or just out for a ride, when you ride wearing your protective gear (ATGATT – All The Gear All The Time) you give everyone the example of a safe, responsible rider who is proud to ride and enjoys riding. Let’s extend Motorcycle Safety Awareness to the entire year.

We make safety a priority and truly we are friends for fun, safety and knowledge! Paula Hines, NC-A Chapter Educator
We had fun in May attending Central Region Chapter Gatherings, as well as attending the “Gold Wings” event hosted by Chapter G-High Point and the Freedom Memorial Wall Service.

Bill and Henry have been attending Wednesday Breakfast and enjoying time with NC-W Eden Chapter members.

Bill, along with other Chapter A members, participated in the VA-J Patrick Boys and Girls Home Ride. The two of us, along with Henry (and Libby Jennings standing in as our 4th member) were able to capture the Central Travelers Plaque at NC-H2 Gathering this month. We have continued to chase the Central Couples Plaque frequently, capturing 3 out of 5 times for May, for total of 12 times for the year.

Looking forward to the month of June. We will definitely watch for other fun events to have a chance to be with our Gold Wing Friends.

Be safe in your travels and as always, hope we can see you at some of the other NC Chapter Gatherings, as well as our monthly Gathering.

Bill and Janice Buckner

June 24, 2017
North Carolina District Director
Roy and Cindy Bryant

WOW.....things are really moving fast. I am looking for the “slow down” button. District rallies inside our Region are upon us and the Tennessee District rally has just past. It was a huge success. Thanks to Gary, Pattie and their District Team members for a great weekend. North Carolina was well represented. If you have not had the opportunity to be a part of this fun....there is always next year. There are still many more District rallies in our Region that are planning for your fun. Go join them and remember, that’s what GWRRA is all about, Friends for Fun, Safety and Knowledge.

Not only are there District rallies everywhere, there are also many chapter events across North Carolina that are having “funraisers”. Let’s get out and support them. If you are reading this District Newsletter, you have found the website with all the information you need. The “event calendar” lists events across the District and the Region. These are your neighbors, be a part of their event, have some fun and perhaps catch a tip that you can share with your chapter. It’s all about fun.

Of course, we can’t talk about rallies without a mention of W.O.T.S. Preparations are on target with a lot of fun planned with you in mind. The District Team is working hard to make this a great rally. Pie eating contest, fashion show, street dance, NC Precision Drill Team and so much more is in store. If you see a group of your District Team members at a gathering or event, and they are whispering, that means someone else just came up with another great idea to share with you in Waynesville, NC.

OK, now, I need some help. Not only are focusing on W.O.T.S., but, Wing Ding is on our agenda. North Carolina, as in the past, has a responsibility in Grapevine, TX and we need volunteers that will be attending this event. It appears we will be “greeters” this year. Smile a lot, hug a lot and direct people to the general area they are seeking. We know North Carolina is full of smilers and huggers. If you are one of those, please let us know if you will be able to assist. I have not yet gotten a schedule as to when we will be needed but will share it as soon as I get details.

Friends, how many do you have? Can you count on them? Yes you can. Already this year, North Carolina has suffered from members’ sickness and yes, we have lost some loved ones. Cards are sent and members knock on members’ doors just wanting to help with a capable hand or shoulder to lean on. Some of these people you may not remember by name but please know they are your true friends. You met them somewhere along the way in your GWRRA life and they care about you. Remember your neighbors and friends in their time of need. Someday, you may need them.

MEMBERS ARE NUMBER ONE!!!!
Roy & Cindy Bryant
NC District Directors
RIDER EDUCATION

Is Two Second Enough?

There is a constant conversation going on that covers this subject. Let's discuss the subject of using the Two Second Rule or not. There are those that ride their bikes so close they will not have enough time to react to any hazard or situation. You see them on the road riding in packs and they're about a second off of each other. They don't even use the two second rule, which is not enough. Studies show that it takes one point five seconds to recognize a hazard and one point five seconds to react to a hazard, that's three seconds. Therefore, you have one second to make a vital decision, which will not be enough time.

I propose this; you use a four second or five second rule. When a bike passes a fixed object, you start counting 1,000 and one until you reach 1,000 and five that way you've used the one point five seconds to recognize the hazard and the one point five seconds to react to the hazard and you have a two second cushion. This is a slight modification of the two, four, and 12 rules that we use. It works for me and as I get older, I've come to realize that my reaction time is not the same as it was 10 years ago. Not only is my reaction time slower, my time of recognizing a hazard is also diminished. So, therefore give it some thought and maybe you'll see the light, but for sure riding within one second or two seconds at high rates of speed will not do you any good when it comes to stopping.

So, ride with caution and always think about riding with more cushion.

"One Team, One Unit!"

Kyle & Mitzela Craig
Region "N" Educators

In GOD We Still Trust...Here in America!

The front line of safety begins with you, the motorcyclist and “Safety Is For Life!”
The Personal Touch

Let’s face it. Motorcyclists are physical people. We like to feel the wind blowing through our hair, the sun in our faces, and the thrill of a powerful machine. We hug each other when we meet. We meet face to face at gatherings and conventions, and we schedule other times to meet throughout the weeks or months so that we can enjoy the wind and sun, hug each other, and feel the thrill of the ride.

Does it follow that it is particularly important for riders who find themselves in positions of guidance to meet other riders face to face? I think so – as a matter of fact I think it is essential.

As Motorist Awareness professionals, MAP officers and enthusiasts meet and greet the public as part of our commitment to the safety of all riders. We do it because we like to. Thank goodness, most of us are pretty good at it. Face to face communication is where the MAP shines.

So what is my point? Why don’t those of us in positions of guidance make the effort to return to a simpler time? Let’s make or take opportunities to get back to the “Face to Face”.

I have a phrase that I use - “Touch the Chapter”. I mean that literally. There are times when a personal visit can do so much more than a phone call or Zoom meeting.

I realize that sometimes the logistics are against us, but I urge all of us to keep on trying. Chapter members are proud of their accomplishments, and each chapter has its own personality. What better way to clarify issues and explain procedures. What better way for us to gauge our problems and successes! I hope that all of the GWRRA officers, make the effort to “Touch the Chapter”. Let’s get personal!

Mike & Barri
