About RS Berkeley

Since 2002, RS Berkeley has been an innovator in musical instrument design, offering a full range of brasswind, woodwind and stringed instruments for all ages and proficiency levels. Our approach to product design and brand creation begins with our high standards, durable and sustainable materials and the latest in precision engineering technology, resulting in performance driven products that offer long lasting value. RS Berkeley exhibits at music educator conferences and industry trade shows throughout the year, interacting with music retailers, musicians, music educators, students and parents. Learn more by visiting our website at www.RSBerkeley.com.

Testimonials

"I play the BAR905 Artist Euphonium because it's responsive, resonant, the valves are smooth and the pitch centers well throughout the entire range. These are my top priorities in an instrument: sound, pitch and keywork. The BAR905 nails each of them."

- **Michael Dease** | Recording Artist; Faculty, Michigan State University

"The VOL905 is a blessing! This flute has quick response, great warm-yet-flexible tone in all registers. It responds beautifully to anything you put into it, including extreme dynamics! It is my #1 metal-flute of choice now... Bravo!!! Indeed, a remarkable instrument!"

- **Pedro Eustache** | Recording Artist

"The RS Berkeley convertible trombone gives me incredibly versatility. It functions as a very open orchestral horn with the trigger off and produces very clear and brilliant pedal notes with the trigger on. I've used it in both live and recording situations with great success."

- **Alan Ferber** | Recording Artist; Faculty, New York University Steinhardt

"I play the Virtuoso Alto Saxophone on Saturday Night Live and this horn is great...great...great! It's AMAZING...!!!"

- **Alex Foster** | Recording Artist, Saturday Night Live Band

"Virtuoso saxophones play smooth and even, and the sound is one that stands up to all of the best. I really enjoy my RS Berkeley saxophone!"

- **George Garzone** | Recording Artist; Faculty, Berklee College of Music

"The LaBeau BEAU408 surpasses all my expectations. I could play this instrument on any professional gig I do. The composite body simulates a wood finish without compromising the sound. This instrument is a perfect choice for a student, marching band musician or a professional needing an instrument that will overcome any temperature issues and worry of cracking. It has all the improvements of the Pro line wood model and delivers a sound that can't be matched."

- **Bob Magnuson** | Broadway Performing Artist

"You know when you are warming up and the musician next to you looks at you and says "sounds good man", that something right is happening. That's exactly what happened the other day at a Jazz at Lincoln Center Orchestra rehearsal. Sherman Irby (who sounds great on all his RS Berkeley horns) made that observation after I played a few notes on the Volaré flute. This is a great instrument. The sound is colorful, balanced and just bright enough to speak above the other horns in the section, but warm enough to solo with. It is easy to play from top to bottom."

- **Ted Nash** | Recording Artist, Jazz at Lincoln Center Orchestra

"When I tried the RS Berkeley Flugelhorn, I was very surprised! It has a very nice and warm sound. The action of the valves are great and it is very easy to play."

- **Charlie Sepúlveda** | Recording Artist

"The RS Berkeley TP612S is a great horn. It is lightweight, has great valves and plays very in tune. It also has a center to the sound with lots of projection. Highly recommended!"

- **Glenn Zottola** | Recording Artist

"I have played vintage instruments my whole career until I met Les Silver president of RS Berkeley instruments. Since then over the last 5 years I have recorded 15 jazz albums of 65 total some of most challenging music of my career using RS Berkeley instruments and legend series mouthpieces exclusively. These instruments exceeded my expectations as far as intonation, action and most important sound gauged against my vintage instruments. Very well done to RS Berkeley for putting out such a quality product."

Glenn Zottola *International Television and Jazz Recording Artist*

"The RS Berkeley flutes sound, look, and feel great. The Volaré model I play (VOL905) has a clear and strong tone, and it responds beautifully, even in the low register. The (VOL805) responds just as well, but has darker overall sound, which some people might prefer.) As a doubler, I find it complements my other instruments very well, so I love playing it!"

Don Braden

Jazz Saxophonist, Flutist, Composer, Arranger and Educator
