

Hello Juniors,

Welcome to the hobby, pastime and fun-filled education of keeping, raising and breeding high class Exhibition Show Pigeons. The whole universe of Show Pigeons is called, The Pigeon Fancy.

Individual breed activities are part of The Pigeon Fancy, but break down to specific breeds. For example, a Pigeon Fancier can also be a Giant Homer Fancier, which shows what breed or breeds they are participating in. Right here, this is the Modena Fancy, or the The Modena for short. If you love pigeons, you'll want to consider keeping a few Modenas. Modenas are fantastic with their round shape and upright station...we call them "The Bird of Curves".

Modenas are bred in two types: Schietti and Gazzi and in hundreds of colors and patterns. Our large Club and big shows are the Grand Central Station of friends and mentors that are tops, to say the least! The Club has shows all over North America every year where you meet up with your best buds and vie for Best Modena. The Modenas is the place to be. Come on and breed some good ones and have the time of your life while you're are at it!

Junior Membership is \$10.00 per year and includes our Bulletins and Annual Yearbook. Contact me if I can be of help and Thank you for your interest in the National Modena Club!

Sincerely,

Lee Steuer, Junior Coordinator

National Modena Club
