In addition, Natalie Kraeher Gochez also has Bachelors in business management from Webster University that was recently obtained in March 2016 that gives her the passion and confidence to want to start this business.

---

The first time I taught a class, I was in tears.

"I thought "How can people make a living out of giving parents precious time like this with their children... it must be the best job in the world".

I have been a mother for almost 8 years. And I love every part of parenting especially their development and that's why this pre-school implements all that.

The company became very close to become bankrupt- But My amazing family and friends came to the rescue, and we scraped together what we could to open My Jumping Gym on scraps of borrowed 'love money'.

My Jumping Gym really is a labour of love. We poured our hearts and souls into re-opening the gym. It was a family adventure - with my Three children still considered babies. We have managed to save the company and re-open our doors.

Many of our Old children have crawled, run, cartwheeled, laughed and high-fived around in our gym.

We care deeply for our members - both parents and children. We want parents to come and have a wonderful time with their children, relax in warm and positive surroundings, and look forward to coming to our gym just as much as the children do.

Life is so busy - we want to give parents back that precious one-on-one time with their children.

And we know the children have a great time - some parents tell us they can't even drive past our Gym without their children begging to come in.

That feedback really makes our day. Our whole mission is the develop children while making them feel great about themselves. We want every single one of our children that come to My Jumping Gym each week leave feeling loved, important, and with a big grin on their face!

Sincerely,  
Natalie Kräher Gochez- My Jumping Gym Team
