As a teacher during these times it is vital to stay informed. For those of you who don’t know, nysut.org has a wealth of information to keep you up to date. It also has a plethora of materials and sites you can navigate.

One great feature will help you with the voting process. You may not believe this but we do have members that are not registered to vote. At this site, you can register to vote. Often teachers who are registered get confused as to what district they are in and wonder who NYSUT is endorsing. You can also find this information here.

Have concerns? NYSUT is fighting for you. Currently, you can help out by sending a letter to legislators about the rising temperatures in our classrooms during the warmer months. You can join the growing voices to express your concern over this unsafe situation.

Remember to vote on November 6, 2018. For more information on who NYSUT endorses, follow this link.

Dear Loyal BTA Members,

We are off to a great start to a new school year. Hopefully we are rested and rejuvenated from a wonderful summer!

Please remember to share good news such as new marriages, births and any other piece of good news. Don’t forget that we love to showcase the great things going on in our district. Our teachers do so much and we’d love to celebrate all these things. Share your good news and the happenings around the district to stephpirozzi@gmail.com so it can be shared through our newsletter. Don’t forget Letters to the Editor are always welcome.

Yours in Unity, Stephanie Pirozzi

Letters to the Editor:

Dear Editor,

As we begin a new year with lots of professional development, I’d like to be able to provide more input as to what kind of development would benefit me. Maybe there could be a survey or we could be allowed to propose our own developments so we could be more specific for us.

Thank you— A Concerned BTA Member
