God In Engineering

Engineering – Definition

a: the application of science and mathematics by which the properties of matter and the sources of energy in nature are made useful to people.

b: The design and manufacture of complex products.
God In Engineering

100 Years of Nobel (65.4%) Christian

Between 1901 and 2000, Christians have won:
72.5% in Chemistry
65.3% in Physics
62% in Medicine
54% in Economics.
God In Engineering

How can we be one of those used by God?

1 – Look for problems to solve

Great Achievements By People Who Knew God

Chuck Missler

(1934 –2018)

Graduating with honors from the Naval Academy. Branch Chief of the Department of Guided Missiles.

Discovered connections of the Bible and Technology. Bible Teacher, Author of many Books relating to Technology in the Bible.
There are two constants known to science:
\[ \pi = 3.1416 \text{ and } e = 2.718281828 \]

Genesis 1:1 *In the beginning God created the heaven and the earth.* In Hebrew: בְּרֵאשִׁית בָּרָא אֱלֹהִים הָאֵרֶץ

If you examine the numerical values of each of the Hebrew letters, and the numerical value of the words (see chart), and apply them to this formula:

The number of letters \( \times \) the product of the letters

The number of words \( \times \) the product of the words

You get \( 3.1416 \times 10^{17} \). The value of \( \pi \) to four decimal places!
God The Engineer

בראשית פרם אלוהים את השמים ואת הארץ

Hebrew Alphanumerics

John 1:1

*In the beginning was the Word, and the Word was with God, and the Word was God.*

In Greek: Ἑν ἀρχῇ ἦν ὁ λόγος, καὶ ὁ λόγος ἦν πρὸς τὸν Θεόν, καὶ Θεὸς ἦν ὁ λόγος

If you take the numerical value of each of the Greek letters (see chart), and the numerical value of the words, and apply them to the formula:

The number of letters × the product of the letters
The number of words × the product of the words

You get $2.7183 \times 10^{40}$, the value of $e$. 
God The Engineer

'Εν άρχη ἦν ὁ λόγος, καὶ ὁ λόγος ἦν πρὸς τὸν Θεόν, καὶ Θεὸς ἦν ὁ λόγος

*Vau (6), Koppa (90), and Samsi (900), later became extinct.
Great Achievements By People Who Knew God

Peter Stoner (1888 - 1980)

Chairman of the Departments of Mathematics and Astronomy at Pasadena City College. Chairman of the science division, Westmont College

Applied the Science of Probability to the Scriptures:

Probability of just 8 Messianic prophecies being fulfilled in the life of Jesus. 1 in \(10^{17}\) or 1 in 100 Quadrillion
Great Achievements By People Who Knew God

RG LeTourneau (1888 –1969)

300 patents relating to earthmoving equipment

Famous for living on 10% of his income and giving 90% to the spread of the Gospel. Reported that his first Invention was received from God while he was in a Church service.
Great Achievements By People Who Knew God

George Washington Carver (1864 –1943): American scientist, botanist, educator, and inventor

Carver believed he could have faith both in God and science and integrated them into his life. Known to go to his lab with a Bible and Yellow pad and emerge with a process ready for production.
Great Achievements By People Who Knew God

Guglielmo Marconi
(1874–1937)

Marconi's law and a radio telegraph system. Nobel Prize in Physics

Quoted as saying: “With the help of God, who places so many mysterious forces of nature at man's disposal, I have been able to prepare this instrument which will give to the faithful of the entire world the joy of listening to the voice of the Pope"
Great Achievements By People Who Knew God

Isaac Newton
(1643–1727)

Newton’s Laws of Thermodynamics

Tried to discern the date of the Rapture from the Bible.
Great Achievements By People Who Knew God

Robert Boyle
(1627–1691): (Boyle’s Law)

Prominent scientist and theologian who argued that the study of science could improve glorification of God. A strong Christian apologist, he is considered one of the most important figures in the history of Chemistry.
Great Achievements By People Who Knew God

Blaise Pascal
(1623–1662): Pascal's Law (Physics)

Pascal's law (physics), Pascal's theorem (math), and
Pascal's Wager (Are you willing to bet an eternity on the thought there is no God?)
Great Achievements By People Who Knew God

Johannes Kepler
(1571–1630)

Kepler's Laws of Planetary Motion.

Believed that God had created the world according to an intelligible plan that is accessible through the natural light of reason.
Ancient Engineers Who Knew God

Yossef Mehandes
(Born 48 BC)
As a child, he wanted to know how things worked.

His father was a road builder, who died when Yossef was 5 years old.
Ancient Engineers Who Knew God

His mother was a believer in the One True God. She died when he was 16. Yossef wondered where the One True God was when it happened.

His sister was a medicine woman, who always tried to encourage him.

His Brother was a warrior, who protected him when he was young.
Ancient Engineers Who Knew God

His grandfather operated a coal mine where Yossef worked when he was young. One of his first invention was a machine to dig coal.

He soon joined the military and served on a ship. The One True God was a distant memory, until death was near when a wave nearly swept him overboard.
Ancient Engineers Who Knew God

Yossef learned of other inventions and then heard of a school that taught engineering, and he was determined to go there.

After he completed his training, he worked on inventions, including water systems, ship equipment and war machines.
Ancient Engineers Who Knew God

He then met a wonderful women that also believed in the One True God. She loved his inventions, which to him were like his kids. They began seeking more knowledge of the One True God.

They were married and lived happily ever after, or until war came and Yossef had to leave home and help make preparations for an invasion. Work was stressful, 16 hours 7 days a week for months, preparing for war.
Ancient Engineers Who Knew God

Then it happened, the stress was too much, and he collapsed. Knowing that death was at the door, he once again call on the name of the One True God.
Ancient Engineers Who Knew God

Then it happened, the stress was too much, and he collapsed. Knowing that death was at the door, he once again call on the name of the One True God.

And Then Then it happened – Suddenly it was 2002!!
Ancient Engineers Who Knew God

Then it happened, the stress was too much, and he collapsed. Knowing that death was at the door, he once again call on the name of the One True God.

And Then Then it happened – Suddenly it was 2002!!

Born 48 BC means born 48 years before I met Christ. I am Yossef Mehandes (Hebrew for Joe Engineer) and I met Jesus that day and my life has never been the same since.
Present Day Engineer

From that day, when I gave Him my life, he took me on a journey I called “The Great Provision”. There were many miracles signs and wonders along the way. I wrote a book about it with the same name. See at www.thegreatprovision.com

The Great Provision
Miraculously Cured of High Blood Pressure
Nancy’s Miraculous Healing
As I said to Noah, so I say to you
Miracle at Mid-Bay Bridge
Dream about meeting the President

Adjacent to Tulsa International Airport
Present Day Engineer

• **Joe Moore: Mechanical Engineer** with over 35-years experience working on projects valued at over $1-Billion. **2 US patents and with God’s help,** a goal to have more patents than Edison, (1093). **Believes the Lord has given him 200+ ideas and knows that the Lord is the source of every good idea or invention.** Recently has seen the Lord provide direct input in solving engineering problems and revealing flaws in designs.
How can we be one of those used by God?

1 – Look for problems to solve
   a – Food Shortages
   b - Water Shortages
   c – Energy Shortages (US $10^{17}$ Quads)
   d – Climate Change?
God In Engineering

How can we be one of those used by God?

2 – Ask God for Guidance
   a – Pray
   b – Praise
   c – Listen
   d – Thank
God In Engineering

How can we be one of those used by God?

3 – Write it Down
   a – Bio-Energy System Technology
   b – Southwest Passage
   c – Zero Emissions Engine
   d – Algae and Combination of a, b & c.
God In Engineering

How can we be one of those used by God?

That is why we are here.
Present Day Engineer Who Knows God

My father did die when I was 5, he was 48. My mother did die when I was 16, she was 48. I almost died at 48. (BP 240/120 – Hypertension) I did work in a coal mine when I was young.

I did join the navy and served on a ship. I did see a lot of inventions in use. I did want to know how things worked.
Present Day Engineer Who Knows God

I did have a near death experience on that ship

I was Standing there
I did have a near death experience on that ship.

Then I was not standing, I was hanging over the side.
Present Day Engineer Who Knows God

I did work around war machines

Southwest Passage North and South Route
God In Engineering

The Southwest Passage

Please consider endorsing the project “The Southwest Passage”,
• Funded by private industry
• Produce up to $1-trillion per year in gross revenues for the US
• Deliver 12-trillion gallons of water per year to the desert southwest,
• Provide additional border security,
• Provide 40-gigawatts of electrical power storage that would eliminate the need for new power plants
• Provide a transportation corridor connecting the west coast to the central US
• Reduce CO2 emissions by 2.5-billion tons per year
• Provide quality food for over 1.5-billion people
• See details at www.southwestpassage.org

Contrasting Viewpoints

Secular scientists believe that the universe was created when nothing collided with nothing in a big bang. The Believer knows that the seen universe was created by an unseen realm when God said “Light Be.”

The atheist say there is no God, even though they possess only 7% of known knowledge. The Believer knows God exists because they have met Him.

Charles Darwin proposed that we evolved from the ape, but went on to say if his theory wasn’t proven in a few years, it should be thrown out. The Believer knows that we were created in the image of God.

One of the smartest people on earth said that you can prove that God exists mathematically.
