

Mission Statement:

It is the mission of this ministry to exalt Jesus Christ as Savior and Lord. Being a minister of the gospel for many years I have had and continue to have the opportunity to go all over the world and share the message of Salvation through faith in Jesus Christ. That continues to be my calling and great privilege.

As a lifelong sportsman I enjoy the fellowship and aspirations of other sportsmen like myself. This involves the challenges both the successes and failures involved in living the outdoor lifestyle. As a wildlife photographer I enjoy the adventure of getting up close and personal on wildlife. Some of them are dangerous but God has always been faithful to protect me and those who sometimes accompany me.

Photography has given me the opportunity to travel much of the United States including such locations as Kodiak, Alaska, New Mexico, Oregon, Utah, California and Wyoming to capture a wide variety of wildlife and landscapes. For six years I photographed monster whitetail deer in Mississippi and teach how to get up close on them. In recent years I photographed in Zimbabwe, Belize and El Salvador. This added a broader dimension to my presentation. It is my prayer that the audience will experience the awesome wonder of God's creation and see the divine design in what He has given us to enjoy.

In my presentation I attempt to teach some photographic skills. I show in video and through photographs the interaction between the birds and animals and how it reflects God's design. The videos are some of the most exciting on the web including mountain lion and huge brown bear up close and personal.

I share in testimony how my life was changed as a boy and how I have lived the abundant life in Jesus Christ. The gospel message is presented so that those in attendance will have the opportunity to know Jesus as their personal Savior and Lord.
