

THEO'S AUTOMOTIVE  
123 Huddleston Road  
Peachtree City, GA 30269

January 7, 2010

Dear Theo,

Once again, you've saved us thousands! As former residents of Peachtree City, Theo's Automotive has been a part of our car maintenance family. We now reside in the Brookhaven community of Atlanta and with the recent frigid temperatures in the area, our daughter's 2003 Nissan Altima would not start with the cold temperatures.

After an engine diagnostic at the nearby Century City Nissan we were told the head gasket needed replacing at the cost of \$3000.00. I'm not a rocket scientist but I do know that a head gasket has nothing to do with starting a car in cold weather. So, I called a trusted family friend...Theo's Automotive and after driving 37 miles to Peachtree City...

**Nissan Dealership.....\$3,000.00**

**THEO'S AUTOMOTIVE....\$179.89. (He simply cleaned the ignition throttle, which was clogged)**

**THEO'S Integrity.....PRICELESS**

Need we say more...

Our sincere THANKS,

Don & Jackie Beason
