Friends for Fun, Safety and Knowledge

Chapter Director's Spiel

Well, we are finally getting into some comfortable riding weather, thank goodness, all that 90+ degree heat has not made riding fun, or at least as fun as it could have been - it is still fun! As those bumper stickers say, "A bad day riding is still better than a good day working!"

We have some rides on our Ride Calendar coming up, and we hope you are looking at them as possible fun things to do with your friends. And there are also many open weekends that we could put some impromptu rides together. If anyone has any ideas, just let us know. Let's take advantage of the cooler temperatures!

In my article below about the September 14-15th ride to the Snake, I detailed what happened with George Maples on the way home, and the bad accident he had. Please keep him and Vida in your thoughts and prayers, he is going to be sore for quite some time with the fractured ribs, plus dealing with PT for his shoulder and ankle.

A reminder to everyone as we start into October, I will start my "nagging" of you to check your odometer readings on any and all your motorcycles. I will be asking each of you to send me an email with a list of your bike(s) (the year, make and model), and the odometer reading as of Oct 31, 2019. For most of you, I have your readings from Nov 01, 2018 to use as your starting mileage, so we can once again calculate how many miles the whole chapter rode during 2019, plus who gets the awards for most miles ridden, that we give out at our chapter Christmas party. If I don't have a starting number for you, if you started with a new bike this year, etc., we can hopefully work together to get at least an estimated number to work with. If we just didn't get a number from you last year, hopefully we can try to figure out a reasonably close number to start with.

I am hoping most of you have at least looked at the "Chapter Member Survey" email I recently sent out. I've already received a few replies, and I am hoping that the vast majority of you will take the time to fill it in and return it back to me. The results will help us endeavor to make this chapter the best it can be ... for YOU!

Just a notification to each of you, Jere Goodman, GWRRA Director, announced that Gold Book updates are needed to National before 10/31/19. Updates can be sent to customer service or completed on line. Email to customerservice@gwrra.org, or online at <https://membership.gwrra.org/>

Be safe out there, and we hope to see you at something in the near future.

Brian & Loretta Richards, TN-M Chapter Directors

Assistant Chapter Director

Hi, hope you're getting ready for fun with your fellow chapter friends.

Don't forget, weather changes quickly this time of year, so if you go on a ride, be prepared with the right clothes, for whatever weather you might encounter.

If you're planning on going for a ride, make sure you, your gear, and especially your ride, are all at their peak performance level and ready to get out there and have fun.

Ride Safe!

James Whitener, TN-M Assistant Chapter Director

Chapter 2019 Couple of the Year

Since the last newsletter, we attended the Wing Ding in Nashville, and wearing our medallions as the TN-M Couple of the Year. To watch what went on, we attended the special "International Couple of the Year" presentations on Tuesday before the official start of Wing Ding. We also attended a special GWRRA University training module "Preparing for COY". This was a module to give couples that are considering going on in the COY program some hints and tips to make things easier for them to prepare. For us, the next step will be the Couple of the Year selection process for the TN District 2020 Couple of the Year at the TN District Spring Fling Rally Apr 30-May 02, 2020.

Our upcoming plans are, besides visiting other chapters as the TN-M 2019 Couple of the Year, we will be attending the MS District rally in Gulfport MS, Oct 17-19, and when we do, besides wearing our COY medallions,

we will visit with their Couple of the Year, and will attend their selection process for their next Couple of the Year, to watch and see what hints and tips we might be able to see.

We will continue to spread the word of the COY program, we feel very strongly about it, it is a wonderful program, a great way to recognize special couples, and help them expand their horizons. And we will keep you informed of our progress.

Chapter M "Out Having FUN!"

Sep 7th joining TN-B on their Dam ride

On Saturday, September 7th, several of us joined TN-B on their scheduled "Dam Ride". If I counted correctly, there were 27 members between the two chapters, and a bunch of bikes. TN-B's Technical Coordinator Chris Harden organized and led the ride, and he did a superb job.

We left the Shoney's on Clinton Highway and our first stop was the overlook over Norris Dam. Then back on the road to our next stop, Melton Hill Dam. After that it was along some more fun roads to the Watts Bar Dam, then finally we rode alongside the Fort Loudon Dam to our stop for dinner at the Calhoun's on the Lake.

It was a really enjoyable day, some good riding, some good friends, lots of laughs, and a just good time, thanks TN-B and Chris, we had fun.

Sep 14-15 ride "The Snake"

Ken did another wonderful job planning a ride. We had 5 members on 4 bikes, would have liked to have a few more members join us for a fun weekend, but we had a great time.

It was fun riding the Snake, it was more enjoyable than the Tail of the Dragon, more smooth flowing curves and less hairpin curves. The one aspect of the ride that was not as enjoyable was the start of the Snake. Our trip was planned to just get to our motel in Bristol, VA on Saturday afternoon and relax, then get up early and start the ride on the Snake before heading back home. When we got up Sunday morning, it was FOGGY! Thankfully, for most of the portions of the Snake that we rode, the fog had mostly lifted, so we could easily see the road. There were sections of the road getting to it, and after finishing it, that we were riding in fairly dense fog and couldn't see very far ahead, so we adjusted our speed accordingly.

While we were staying at the motel for the night, we shared the facility with a large group of Slingshot riders, here from several states, all staying for about a week to ride some of the fun roads in the general area. They were having a great time hitting the curvy roads, Tail of the Dragon, Back of the Dragon, Claw of the Dragon, The Snake, etc. They were planning to hit as many of the challenging roads as they could while they were in the area.

One less exciting aspect of our weekend ride was the tail end of it. We were on 321 heading back and missed a turn, so we decided to jump up onto I-81 for a couple miles till we got to an exit that would allow us to easily get back to 321. While on the interstate, Russ' bike cover, which he had bungee-corded to the back of his seat, blew off in the high wind of our speed. The first image that played in my mind was seeing that cover billow in the air and heading right for George's bike, and I could just see it landing on his windshield ... NOT a good scenario. Thankfully it fell to the ground before he reached it, but he veered left to avoid it and stopped on the left shoulder. Russ and I pulled over into the right shoulder, Ken had been in the process of passing an 18-wheeler and didn't even know anything had happened and kept going. After stopping on the right shoulder I was able to run across the interstate and retrieve the cover and get back to our bike. About that time, a State Trooper pulled in behind George and asked us what the problem was. We indicated about the cover blowing off, and he said "Okay". George pulled out into the left lane, which was partially blocked by the State Trooper's vehicle, and then went to pull into the right lane. Unfortunately, a car was right alongside him, in his blind-spot, and he rode right into the left side of the car, and went down. We were directly behind him and witnessed the entire disaster.

After getting George up and over to the right shoulder, and picking up the bike and rolling it to the right shoulder, with the State Trooper stopping the traffic in the right lane, we were able to pick up all the miscellaneous bike parts on the roadway and get them off. Very quickly EMTs and an ambulance showed up, George at that time wasn't feeling all that bad, we figure from the adrenalin, so he elected not to be taken to the hospital. About ¼ mile up the interstate was a truck weigh-station, so George rode his bike to there, and Russ and Loretta & I joined him there. We discussed several scenarios of what to do, how to get the bike home, etc., and finally decided that Russ would ride his bike with George behind him, back to George's home, and they had planned to get George's truck and trailer and come back for the bike. I rode the bike around the weigh-station parking lot and it seemed to ride okay, despite the damage, so with the permission of the Trooper on duty there, we left the bike off to the side and we all left to get home. By then George's adrenalin had worn off and he was NOT feeling great, but was up to riding home behind Russ. When they got to George's home, they changed the plan, as George was feeling worse. Vida and Russ rode back to the weigh-station, and Russ rode George's bike back to George's home with Vida following. George was taken to Fort Saunders and they did x-rays and determined that he had a

broken collarbone, several fractured ribs, and what they thought was a broken ankle, and transferred him to the trauma unit at UT Medical. UT determined that the ankle wasn't broken, but the tibia next to it was fractured. As of now (Tuesday, 9/24), as I understand it, George had an operation and they inserted a plate in his shoulder to stabilize the collarbone, and a plate in the ankle. He was starting to get physical therapy and they were going to transfer him to an extended care PT facility for additional PT for a period of time. We ask that you keep George and Vida in your thoughts and prayers, thank you.

Sep 21st ride the Foothills Parkway

Ken Gray did another fantastic job, as usual, of setting up and leading a chapter ride on Saturday, September 21st, to ride the Foothills Parkway, end-to-end. We had 9 members, 6 bikes on the ride, which was a good group, and we all had a great time. The sky was clear, it wasn't too hot, traffic was extremely light for most of the ride on the parkway, it just doesn't get any better than that!

Seven of us on 5 bikes left from the Walmart parking lot and rode down 321, and picked up the last bike and couple along the way. Working our way around some secondary roads, we finally got to 129 and rode along it till we took the left onto the start of the old section of the Foothills Parkway. Along the way, we stopped at a couple of lookouts, to enjoy the view, you just don't get any better views of scenery than here in eastern TN. After reaching the end of the old section, a quick jog to the Hillbilly Restaurant for an enjoyable lunch, from what I heard, I think most all of us enjoyed our food, a nice place to stop, with a "homey" atmosphere.

After leaving Hillbilly's, we got onto the new section of the parkway and continued, with more stops at overlooks. As we headed home, members split off at different spots for their best way home. It was a great day, a great ride, wonderful camaraderie and fun and laughs all around. Hope you can join us on our next adventure.

Wonder what is he planning on doing?????

Please, just don't fall!

The Tail-gunner's view, see the 4 bikes ahead?

Sep 24th Dinner ride to Countryside Restaurant

We had a nice turnout for our monthly dinner ride to the Countryside Restaurant in Vonore. We had 15 members get together for some fun, laughs and good food. Thanks to Bill Cummings for setting up this month's dinner ride. Hope you can join us at our next dinner ride and evening of camaraderie.

Are You Hungry?

This is a recipe for Vinegar Pie, thanks to Brenda Neeley for sharing it. It is an interesting taste, try it.

VINEGAR PIE

PREP TIME: 10 MINUTES

COOK TIME: 30-35 MINUTES

MAKES: 8 SERVINGS

- 1 unbaked pie crust
- 4 eggs
- 2 tablespoons cider vinegar
- 1 teaspoon vanilla
- 6 tablespoons butter, melted
- 1 cup brown sugar
- ¼ teaspoon salt

VINEGAR CREAM:

- 1 cup heavy whipping cream, cold
- 2-4 teaspoons cider vinegar
- 2-3 tablespoons sugar

1. Heat oven to 350 degrees. Whisk eggs in a medium-sized bowl. Add in cider vinegar, vanilla, butter, sugar and salt, mixing well. When creamy and smooth, pour into crust.

2. Bake for 20 minutes. Cover top with foil and continue baking for about 15 minutes more, until center is no longer "jiggly" when pan is slightly jostled. Remove from oven and cool completely.

3. To make vinegar cream, whip cream until thickened. Stir in vinegar and sweeten to taste with sugar. It should make you pucker up, but a little goes a long way! Makes about 1 ½ cups vinegar cream.
