

Welcome to Snake River Skydiving

Some important things to know:

- 1) Bring a photo ID
- 2) If you are on prescription medication or under a physician's care, you must provide a signed statement from your physician stating you are cleared to skydive.
- 3) Bring a sweat shirt and sweat pants to make your skydive in. You must wear tennis shoes - no sandals or boots.
- 4) Bring the signed waiver with you. If you forget to bring it, you can fill out another one on site.
- 5) All tandem skydives are paid in advance and non-refundable unless there is some reason we cannot fulfill the skydive, ie weather issues. You don't have to make the skydive and you may find someone who meets the qualifications to take your place but you will not receive a refund.
- 6) Be prepared to spend several hours with us – there will be a brief training before the skydive and if we have any weather issues, your time slot may be postponed.
- 7) No alcohol or drugs before you make your skydive.
- 8) There is a height to weight ratio. Take your height in inches and multiple by 3. If your weight exceeds that number, you will not be allowed to make a tandem skydive. Maximum weight regardless of height is 225 pounds. (And yes, that is with your clothes and shoes on!)

If you have any questions, please email Carol at carold17918@msn.com or call 307-413-6216

Thanks and get ready for some fun!!
