# WaterTreats

## How Aquatic Weed Killer Works:

- Eliminates undesired plants in the water body.
- Gets rid of stubborn weeds.
- Biologically degrades in sediment following treatment.
- This product should be paired with Biostim Accelerator to assist in maintaining the balance and health of the aquatic ecosystem being treated.

**Aquatic Weed Killer**

This registered aquatic herbicide removes floating, standing and submerged weeds and can be used as both a spot treatment or a full body dosage.
