

CAPABILITY STATEMENT

PinnaCal is an ISO 17025 accredited lab. We provide premier calibration services assisting our clients in meeting industry specific quality standards for instrument and equipment maintenance. We employ a consistent process of quality management and review to ensure only the best results for our customers.

We are strongly committed to meeting the needs of our client and provide calibrations which are NIST traceable and meet the quality requirements of ISO 9001 and FAA regulations for certificated Repair Stations.

CORE COMPETENCIES*

NIST Traceable Calibrations Available for the Following Instrumentation:

- ◆ Torque Wrenches
- ◆ Torque Screwdrivers
- ◆ Torque Multipliers
- ◆ Cable Tensionmeters
- ◆ Pressure Gauges
- ◆ Vacuum Gauges
- ◆ Differential Pressure Testers
- ◆ Backflow Preventer Test Kits
- ◆ Push/Pull Scales
- ◆ Fish Scales
- ◆ Platform Scales Up To 600 lbs
- ◆ Calipers
- ◆ Micrometers
- ◆ Depth Micrometers
- ◆ Dial Indicators
- ◆ Protractors
- ◆ Bore Gauges
- ◆ Hand Crimp Tools
- ◆ Hand Held Multimeters
- ◆ Battery Chargers/Testers
- ◆ Clamp Meters
- ◆ Watt Meters

DIFFERENTIATORS

- **Precise Calibration Services**—Including the ability to meet industry specific quality standards.
- **Quality Repair Services**—Our skilled staff, large parts inventory, and extensive supplier network mean your instrument will work properly.
- **Excellent Turnaround**—Efficient service and shorter shipping routes provide for a fast turnaround time.
- **Cost Savings**—Our pricing is set to beat the competition and shipping along shorter routes means less cost for the same time delivery.
