- Depth Gauges
- Dial Indicators
- Bore Gauges
- Hand Crimp Tools
- Protractors
- Repairs
- And MORE!

We've Been Listening...

Electrical Calibrations

We are often asked by customers if we can calibrate electrical instruments and we are very excited that we can now say **YES!** We've been listening to you and understand how critical it is to have a lab that can take care of your multimeters and other electrical equipment while still providing an excellent turnaround time.

We are starting the new year by adding these capabilities to better serve you! New items we can calibrate are listed to the right. If you don't see what you need, feel free to contact us to discuss.

Also, don't forget about our previous capabilities listed to the left.

New Electrical Capabilities:

- Handheld Multi-meters
- Battery Chargers
- Watt Meters
- Battery Analyzers
- Panel Meters
- Clamp Meters
- Battery Testers
- And MORE!

COME SEE US AT THESE UPCOMING CONFERENCES!

2020 Northwest Aviation Conference & Trade Show

Feb. 23 & 24th

Showplex @ WA State Fair Events Center, Puyallup, WA

We are excited to attend this conference for the first time and look forward to meeting some new people and seeing some old friends. If you want to learn more about PinnaCal, find our booth at the tradeshow! There is a rumor we will be presenting as well so check your program for more information!

2020 Montana Aviation Conference & Trade Show

Feb. 27-29th

Heritage Inn, Great Falls, MT

It is hard to believe this will be our 5th year at this great conference! We are looking forward to catching up with everyone. Please, come visit us at our tradeshow booth or join us for our presentation on Friday afternoon to learn more about why calibration is important in the aviation industry. Need tools calibrated? Bring them over to our booth and we'll ship them back to you after completing the certifications!
