CHAPTER 1

GENERAL

AIM

1. The aim of Proficiency Level One is to provide an Air Cadet with the introductory knowledge and practical experience required to participate in squadron activities as a member of a team.

PROGRAM DESIGN

2. The Proficiency Level One Program has been designed:
   a. assuming that the majority of first year cadets are between 12 and 14 years of age;
   b. using age-appropriate learning strategies;
   c. by providing a programming mix consisting of mandatory and complementary training;
   d. to include training which is experiential and skill-based, with a lesser focus on theoretical knowledge; and
   e. assuming that learning will take place through a combination of programmed periods of instruction, unstructured discussions, teachable moments, and coaching / mentoring opportunities.

3. Each proficiency level is composed of performance objectives (POs) subdivided into enabling objectives (EOs).

PERFORMANCE OBJECTIVES

4. PO numbers are usually made up of three digits:
   a. The first digit indicates the proficiency level (eg, ‘X’ represents Proficiency Levels One to Four, ‘1’ represents Proficiency Level One, ‘2’ represents Proficiency Level Two, etc.).
   b. The second and third digits indicate the topic area (eg, ‘00’ represents Positive Social Relations for Youth, ‘01’ represents Citizenship, ‘02’ represents Community Service, etc.).

5. EO numbers are usually made up of six digits (eg, EO M103.01):
   a. The first digit is either an ‘M’, which indicates mandatory training, or a ‘C’, which indicates complementary training.
   b. The second, third and fourth digits indicate the PO as per para 4.
   c. The fifth and sixth digits indicate the specific EO number (eg, EO M103.01 is the first mandatory EO in Proficiency Level One leadership).
   d. Some EOs have a seventh digit, which indicates there is a selection of EOs to choose from (eg, EOs MX01.01A, MX01.01B, MX01.01C, etc. indicates squadrons can choose any one of these EOs to satisfy the requirements of mandatory Citizenship training).

6. Each PO has been developed to contribute directly to the program aim and participant outcomes detailed in CATO 11-03, Cadet Program Mandate. The following are summaries of the POs common to all elements of the CP (allocated POs numbered 100 to X20) and the POs specific to the Proficiency Level One Program (allocated POs numbered 121 to 190):
   a. Positive Social Relations for Youth. PO 100 – Participate in Positive Social Relations for Youth Training. The aim of Positive Social Relations for Youth is to prepare cadets to interact comfortably within the cadet community, interact positively with others, exercise sound judgement, accept
personal responsibility for actions and choices, deal with interpersonal conflict, and seek assistance from available resources when needed.

b. **Citizenship.** PO X01 – Participate in Citizenship Activities. The aim of this PO is to introduce cadets to various aspects of being a good Canadian citizen through a range of fun, interesting and challenging activities.

c. **Community Service.** PO X02 – Perform Community Service. The aim of this PO is to encourage cadets to be active citizens through participation in a community service activity as a member of a team.

d. **Leadership.** PO 103 – Participate as a Member of a Team. The aim of this PO is for cadets to embrace the role of a follower while participating in activities as a member of a team.

e. **Personal Fitness and Healthy Living.** PO X04 – Track Participation in Physical Activities. The aim of this PO is to encourage cadets to live a healthy, active lifestyle by meeting the [Canadian Physical Activity Guidelines](#) and [Canadian Sedentary Behaviour Guidelines](#) for youth.

f. **Physical Activities.** PO X05 – Participate in Physical Activities. The aim of this PO is for cadets to have fun participating in physical activities.

g. **Air Rifle Marksmanship.** PO 106 – Fire the Cadet Air Rifle. The aim of this PO is to familiarize cadets with range operations and the firing of the cadet air rifle.

h. **General Cadet Knowledge.** PO 107 – Serve in an Air Cadet Squadron. The aim of this PO is to provide cadets with information on the opportunities inherent in the Air Cadet Program, and provide them the basic skills to integrate comfortably as members of the squadron.

i. **Drill and Ceremonial.** PO 108 – Perform Drill Movements During an Annual Ceremonial Review (ACR) Parade. The aim of this PO is to provide cadets with the skills required to competently participate in an ACR parade.

j. **Biathlon.** PO 111 – Participate in Recreational Summer Biathlon Activities. The aim of this PO is to provide cadets with an opportunity to enhance individual marksmanship skills and personal fitness through participation in the sport of biathlon.

k. **CAF Familiarization.** PO X20 – Participate in Canadian Armed Forces (CAF) Familiarization Activities. The aim of this PO is to stimulate the interest of cadets in the sea, land and air activities of the CAF.

l. **Canadian Aviation, Aerospace, Aerodrome Operations and Aircraft Manufacturing and Maintenance Community Familiarization.** PO 121 – Participate in Canadian Aviation, Aerospace, Aerodrome Operations and Aircraft Manufacturing and Maintenance Community Familiarization Activities. The aim of this PO is to give cadets an opportunity to participate in activities within the subject communities.

m. **Radio Communication.** PO 129 – Communicate Using the Phonetic Alphabet and Numbers. The aim of this PO is to have cadets communicate effectively while undergoing training in a survival setting and during familiarization flights using the phonetic alphabets and numbers.

n. **Aviation.** PO 130 – Participate in Aviation Activities. The aim of this PO is to introduce cadets to aircraft and their components and aviation history.

o. **Aerospace.** PO 140 – Participate in Aerospace Activities. The aim of this PO is to introduce cadets to the notions of aerospace through a knowledge framework and supporting activities.

p. **Aerodrome Operations.** PO 160 – Participate in Aerodrome Operations Activities. The aim of this PO is to introduce cadets to aerodrome and airside operations.
q. **Aircraft Manufacturing and Maintenance.** PO 170 – Discuss Aircraft Manufacturing and Maintenance. The aim of this PO is to have cadets discuss aspects of aircraft manufacturing and maintenance and tour a local aviation maintenance facility.

r. **Aircrew Survival.** PO 190 – Participate in an Aircrew Survival Exercise. The aim of this PO is for cadets to successfully sleep out-of-doors in a supervised simulated aircrew survival group activity.

**TRAINING PREREQUISITES**

7. To participate in the Proficiency Level One Program, youths must be members of an Air Cadet squadron, as specified in A-CR-CCP-950/PT-001, *Queen’s Regulations and Orders for the Canadian Cadet Organization*, Article 4.01.

**USE OF THE QSP**

8. This QSP shall be used as the primary authority governing the development, implementation, conduct and evaluation of the training and standards to qualify a cadet for Proficiency Level One. This QSP shall also be used by D Cdts & JCR as the primary reference for validation of Proficiency Level One training.

9. Proficiency Level One shall be conducted using this QSP as the training control document in conjunction with A-CR-CCP-801/PF-001, *Royal Canadian Air Cadets Proficiency Level One Instructional Guides*. 
CHAPTER 2
TRAINING MANAGEMENT DETAILS

RESPONSIBLE AGENCY AND TRAINING ESTABLISHMENTS

1. The Managing Authority for the Air Cadet Proficiency Level Program is D Cdts & JCR. The conduct of said program is the responsibility of the Regional Cadet Support Units (RCSUs) through authorized Training Establishments (TEs). These TEs include:
   a. Royal Canadian Air Cadet Squadrons (RCACS); and
   b. Technical TEs, such as:
      (1) Regional Cadet Air Operations (RCAOPS); and
      (2) Other zone, detachment or regional TEs as authorized by the RCSU Commanding Officer (CO).

TRAINING DETAILS

2. In accordance with CATOs 11-04, *Cadet Program Outline* and 51-01, *Air Cadet Program Outline*, the Proficiency Level Program is conducted between 1 September and 30 June of each training year through a combination of 30 training sessions and 10 supported training days as detailed in Annex A.

3. The Proficiency Level Program is divided into two compulsory components that must be completed by all cadets. These components are:
   a. **Mandatory Training.** Mandatory training is a scheme of activities that is requisite for squadrons, and in some instances, specialized TEs, to conduct and for cadets to accomplish in order to complete the Proficiency Level Program; and
   b. **Complementary Training.** Complementary training is a scheme of activities that is requisite for squadrons, and in some instances specialized TEs, to conduct and for cadets to accomplish in order to complete the Proficiency Level Program. These activities complement mandatory activities and form an integral part of the Proficiency Level Program. COs have the discretion to choose activities from a range of possibilities, thus allowing them flexibility to tailor the Proficiency Level Program to match the squadron's interests and resources.

4. **Period Allocation.** Periods are 30 minutes in duration with some periods allocated to be delivered during a mandatory ACS exercise. A detailed period allocation, including details on training days / weekend, is provided at Annex A, and scheduling guidelines are located at Annex B.

5. **Training Capacity.** The training capacity is limited to the ability of the squadron to meet supervision requirements in accordance with CATO 13-12, *Supervision of Cadets*, and in some cases, to established quotas.

6. **Training Staff Requirements.**
   a. Squadron Training Officer (Trg O):

**TRAINING ADMINISTRATION**

9. **Cadet Evaluation.** Details on cadet evaluation are found in Chapter 3.

10. **Reports.** A training file should be maintained on each cadet to record their progress during the training year.    (d) POs 309 and 409 (Instructional Techniques).

4. Schedule any special considerations, such as:
   (a) Schedule EO MX04.02 (Identify Strategies to Improve Participation in Physical Activities and Participate in the Cadet Fitness Assessment) four weeks after EO MX04.01 (Participate in 60 Minutes of Moderate- to Vigorous-Intensity Physical Activity and Track Participation in Physical Activities);
   (b) Schedule EO M190.01 (Pack Personal Equipment for an Aircrew Survival Exercise) prior to the squadron’s Aircrew Survival Exercise;
   (c) Many EOs can be scheduled during training days / weekends (e.g., most of PO X90 should be scheduled during the Aircrew Survival Exercise, many EOs from POs X30, X40, X60 and X70 can be scheduled during the Familiarization Flying and Aviation Day, and Air Cadet Skills Day);
   (d) For the completion of POs 303, 403, and 503 (Leadership), consider leadership assignment opportunities for Proficiency Levels Three, Four and Five cadets; leadership appointment opportunities for Proficiency Levels Four and Five cadets; and leadership project opportunities for Proficiency Level Five cadets; and
   (e) Schedule each Proficiency Level Four cadet into the Proficiency Level One and Two training schedules in order to complete EO M409.05 (Instruct a 30-Minute Lesson).

5. Schedule the remaining mandatory training (details located in the lesson specifications in Chapter 4).

6. Schedule selected complementary training.

7. Other considerations when developing the annual training schedule include:
   (a) the training environment required for each activity:
      (1) some activities will require an outdoor environment which requires consideration for seasonal climate; and
      (2) some activities will require the use of a special facility, such as a gymnasium or sports field; and
   (b) the availability of a technical specialist, if required to conduct the activity;

8. Considerations when implementing the training program:
   (a) Some theory is required for safety purposes and for introducing new material. However, most material can be taught using practical methods.
(b) Training sessions need to be planned in advance to allow instructors adequate time to prepare for the delivery and conduct of training. This includes reviewing lesson specifications and instructional guides, and creating instructional materials as required.

(c) Take adequate time to allow cadets to reflect upon and be debriefed on experiential training activities, to include future applications of the experience.
### ANNEX C

CHAPTER 3
CADET EVALUATION

PURPOSE
1. The purpose of this chapter is to outline the specific evaluation requirements for achievement of Proficiency Level One qualification.

LEARNER EVALUATION
2. A-P9-050-000/PT-Z01, Manual of Individual Training and Education, Volume 1 defines learner evaluation as, "the assessment of progress made by participants during an instructional programme (formative evaluation) and of their achievement at the end of the programme (summative evaluation)."

CADET EVALUATION DESIGN AND DEVELOPMENT
3. Cadet evaluation is designed and developed incorporating contemporary professional practices from the fields of education and youth development as well as considering best practices in use within the Canadian Cadet Organizations (CCO).

4. Cadet evaluation is designed and developed so that all cadets are capable of achieving all POs and associated EOs. To motivate cadets to learn, cadet evaluation builds on success and confidence rather than demotivating cadets with failure and defeat.

CP DEVELOPMENTAL PERIODS (DPS)
5. The CP is designed across adolescent DPs adapted to suit the CP target population. Outlined in each DP are specific philosophies and approaches to learning and assessment that influence design, development and conduct of cadet training and assessment.

6. A DP is a time frame, during a cadet’s progression through the CP, in which the cadet participates in training and is provided opportunities to develop desired knowledge, skills and attitudes that support the aim of the CP and contribute to the achievement of the CP outcomes.

7. Progressive training levels, and associated learning objectives, distinguish each DP; ensuring training is relevant, achievable and age-appropriate for the cadet population. DPs and associated training levels are designed to be completed in a sequential manner and are also fluid, which allows a cadet to progress to the next training level or DP while still working on completion of learning objectives from the previous level or DP.

8. The design and development of cadet training and evaluation is based on the basic overview of the DP characteristics located at Chapter 3, Annex A.

CADET ASSESSMENT OF LEARNING
9. The intent of Proficiency Level One cadet evaluation is to measure the extent of cadet participation in the scheduled mandatory and complementary training and make an assessment by comparing the level of participation to the minimum standard required for qualification.

MONITORING CADET PROGRESS
10. Cadets must meet the standard of behaviour and conduct expected from all cadets. The course officer during cadet interviews and personal counselling should adopt a proactive approach towards difficulties.

11. The course officer is encouraged to meet formally and informally with cadets throughout the training year to discuss the cadet’s progress towards Proficiency Level One qualification and to provide feedback on overall performance. At a minimum, it is expected that the course officer will meet with each cadet at the end of the training year to review the completed Chapter 3, Annex B, Proficiency Level One Qualification Record. Guidelines for conducting cadet interviews are located at Chapter 3, Annex D.
12. Frequent absences from mandatory and complementary training that could result in the cadet not meeting the minimum standard for Proficiency Level One qualification must be addressed in accordance with CATO 15-22, *Conduct and Discipline – Cadets*.

**TRAINING COUNSELLING SESSION**

13. A training counselling session is used when a cadet is having difficulties progressing and an intervention is required to set goals for corrective action and / or remedial instruction. The Trg O is responsible for conducting training counselling sessions, except in the case of cadet rank promotions for which the CO is responsible. Guidelines for conducting training counselling sessions are located at Annex E and the Training Counselling Session Form is located at Annex E, Appendix 1.

**ADDITIONAL ASSESSMENT OF LEARNING ACTIVITIES**

14. All cadets must successfully complete the Cadet Air Rifle Handling Test, located at Annex C to this chapter, prior to participating in familiarization or recreational marksmanship activities.

15. No additional cadet evaluations (eg, theory tests, performance checks, etc.) are to be used to determine Proficiency Level One qualification eligibility. Therefore, these national standards are not to be supplemented with regional / local standards.

**PROFICIENCY LEVEL ONE QUALIFICATION STANDARD**

16. The minimum standard for Proficiency Level One qualification is:
   
   a. Sixty percent attendance in all scheduled mandatory and complementary training once becoming a member of the squadron, as calculated by the cadet squadron.
   b. Successful completion of each PO as outlined in the Proficiency Level One Qualification Record located at Chapter 3, Annex B.

**CADETS NOT MEETING THE QUALIFICATION STANDARD**

17. Cadets who do not meet the minimum qualification standard shall be given a reasonable opportunity to complete the training missed. If, by the end of the training year, the cadet still has not successfully attained any PO, the squadron CO may waive the minimum qualification standard. When waiving any PO requirement, the squadron CO shall consider:

   a. the legitimacy of the cadet's reason for failing to attain the PO;
   b. the cadet's mandatory and complementary training attendance; and
   c. the cadet's overall behaviour and performance.

18. Any cadet for whom a waiver has been issued will not be granted a Proficiency Level One Qualification. However, they will progress to Proficiency Level Two in the second year of their squadron membership. If a CO has decided to not grant a waiver based on attendance and / or behaviour, a cadet may be held back to repeat Proficiency Level One.

19. Cadets who have been granted a waiver of the minimum qualification standard of Proficiency Level One and have progressed to Proficiency Level Two in the second year of their squadron membership are expected to achieve the missing Proficiency Level One Qualification PO requirements. To facilitate this, cadets can concurrently receive credit for activities completed in Proficiency Level Two as part of also achieving Proficiency Level One.
RECORDING AND REPORTING ACHIEVEMENT

20. The progress of each cadet shall be reported using the Proficiency Level One Qualification Record, Annex B, which is also used to determine successful completion of the Proficiency Level One Qualification. The results shall be recorded on, and placed in, the cadet’s DND 2399, Cadet Personnel Record.

PROFICIENCY LEVEL ONE CERTIFICATE OF QUALIFICATION

21. The Cadet Certificate of Qualification, CF 558 (NSN 7530-21-870-7685), shall be awarded to each cadet upon successful completion of the Proficiency Level One Qualification.

**DP Overview**

Learning in the CP is designed around three progressive, DPs. The mental, physical, emotional, and social development of a cadet are considered in these age-appropriate DPs. The cadet develops and ultimately refines higher-level thinking skills (reasoning, reflective thinking, problem solving) as they progress through each DP.

Review the assessment instructions and the Cadet Air Rifle Handling Test Assessment Checklist, and become familiar with the material prior to conducting the assessment.

Photocopy the Cadet Air Rifle Handling Test Assessment Checklist for each cadet.

PRE-ASSESSMENT ASSIGNMENT

Nil.

ASSESSMENT METHOD

Performance assessment was chosen as it allows the assessor to observe the cadet's ability to handle the cadet air rifle.

CONDUCT OF ASSESSMENT

PURPOSE

The purpose of this enabling check is to have the cadets complete the Cadet Air Rifle Handling Test.

RESOURCES

- Cadet air rifle,
- Pellet guide,
- Marksmanship mat,
- Safety glasses / goggles, and
- Cadet Air Rifle Handling Test Assessment Checklist.

ASSESSMENT ACTIVITY LAYOUT

Area where the rifles can be pointed in a safe direction.

ASSESSMENT ACTIVITY INSTRUCTIONS

After observing each action, make a judgement and indicate on the Assessment Checklist whether it was:

- Incomplete. The action was performed incorrectly or in an unsafe manner; or
- Completed. The action was performed correctly and in a safe manner.

Make notes of observations to provide descriptive post-assessment feedback.
This enabling check shall be conducted before cadets may fire the cadet air rifle.

When the cadet receives the cadet air rifle for the loading procedure, the cadet air rifle shall be set with the bolt open, safety catch in the ON position, and the pump lever open (5 to 8 cm). The loading, firing and unloading and preparing for inspection procedures shall be conducted in the prone position in sequence with loading and unloading being simulated (without the use of air rifle pellets).

1. Divide the cadets into relays of no more than four cadets.
2. Conduct the Cadet Air Rifle Handling Test during dry firing with a relay.
3. Repeat Step 2 with each relay until all relays have completed the Cadet Air Rifle Handling Test.
4. Fill out the Assessment Checklist as the cadets complete the Cadet Air Rifle Handling Test.

Ensure safety precautions for operating the rifle are enforced at all times.

POST ASSESSMENT INSTRUCTIONS

RECORDING ASSESSMENT RESULTS

1. Indicate the cadet’s overall performance on the Cadet Air Rifle Handling Test Overall Assessment table as:
   (a) **Incomplete.** The cadet has not achieved the performance standard. One or more actions were incomplete; or

CHAPTER 4

SECTION 1

PERFORMANCE OBJECTIVES (POS) AND TRAINING PLAN

PURPOSE

1. The purpose of this chapter is to outline the specific POs associated with the Proficiency Level One qualification.

PERFORMANCE OBJECTIVES

2. POs are a description of the cadet’s ability after training is complete. They include a description, in performance terms, of what the individual must do, the conditions under which the performance must be completed, and the standard to which the performance must conform. These three elements are respectively defined as:
   a. a performance statement;
   b. a conditions statement; and
   c. a standard.

3. This chapter also details the training plan that is designed to assist cadets to achieve the required POs using EOs and Lesson Specifications (LS) that are the key reference used for development of A-CR-CCP-801/PF-001, Proficiency Level One Instructional Guides.

ENABLING OBJECTIVES

4. EOs are a description of the cadet’s ability after each unit of learning is complete and constitute a major step towards achieving the PO. EOs may correspond to the major components identified in the first round of deconstructing POs or they may result from grouping several related components. They are composed of three essential parts:
   a. a performance statement;
   b. a conditions statement; and
   c. a standard.

LESSON SPECIFICATIONS

5. LSs describe the instructional strategy to be applied to each EO, and include:
   a. supporting teaching points;
   b. references;
   c. learning activities (methods, media and environment);
   d. estimated timings;
   e. assessment directions; and
   f. any remarks that further clarify the design intent.

   (c) tag;
(2) circuit training,
(3) martial arts, and
(4) tabloids.

f. The aim of this lesson is for cadets to have fun participating in physical activities. Choose activities the cadets will enjoy. Survey cadets to determine those physical activities in which they are interested.

g. Several physical activities may be conducted concurrently. Choice is an important factor when it comes to enjoying physical activity. The more varying types of physical activities cadets are exposed to, the more likely they are to find an activity they will be interested in pursuing on a regular basis.

h. Choose activities based on human and material resources accessible to the corps / squadron.

i. Fitness videos (conducted by a certified trainer), certified trainers and Canadian Forces Personnel Support Programs (PSP) staff may be used to conduct this training.

j. Activities chosen for this training are not limited to the lists presented above but must be age appropriate, safe, and in-line with the aim of promoting physical fitness.

k. Physical activity periods may be conducted consecutively to provide the cadets an opportunity to participate in longer, varied physical activities.

Learning in the cadet program is centred on experiential learning. This involves learning knowledge and skills from direct experience. People learn best from their own experiences and can then apply the knowledge and skills in new situations. The four stages of the cycle may be considered and applied to all activities within the Cadet Program, regardless of methodology chosen.

**Stage 1: Concrete Experience:**
Cadets have an experience and take time to identify and define what the experience is. Sample activities: direct observations, simulations, field trips, and reading.

**Stage 2: Reflective Observation:**
Cadets need to reflect on and examine what they saw, felt and thought while they were having the experience. Sample activities: discussion, journals / logs, and graphs.

**Stage 3: Abstract Conceptualization:**
Cadets work to understand and make connections from the experience to new or different situations. Sample activities: interview, discussion, model building, analogies and planning.

**Stage 4: Active Experimentation:**
Cadets look ahead to and plan the application of skills and knowledge acquired to future experience. Sample activities include: simulation, fieldwork.

Note: The cycle is ongoing as each learning experience builds on another.

The instructor-driven methodology combines both lecture and interaction to meet lesson objectives. Lecture portions of the lesson are offset with relevant activities such as videos with discussion, games to confirm and completion of handouts.

This is a formal or semi-formal discourse in which the instructor presents a series of events, facts, principles, explores a problem or explains relationships.

Practical activities encompass a wide variety of activity-based learning opportunities that can be used to reinforce and practice instructional topics or to introduce cadets to new experiences. Practical activities should stimulate interest among cadets and encourage their participation, while maintaining relevance to the performance objectives.
