

Ravensdale Mini-3-Gun Match Report Summary

Match Date: 1/26/2020

Location: Cascade Shooting Facility "E" Range #2

Competitors: 16

Spectators: 10

Weather: Mid to Upper 40's and Cloudy with Light Rain

The January monthly match was the club's official match for Cascade Shooting Facilities. Due to the expected rain in the forecast, stage write-ups were designed to keep up under cover. While stage movement was somewhat confined, the ever decreasing target size and slight change in direction keep the competitors on their feet. We also alternated from Comstock and Virginia Count rules of engagement between every stage. Good concentration practice!

The next match will be on February 23rd but will be dependent on the weather holding out. Stay tuned for upcoming messages.
