To Whom It May Concern:

I am happy to offer the highest recommendation for Allison Bibicoff. I have worked with her many times, and she was always an absolute delight to have in the room. Allison's positive energy and enthusiasm permeated the cast. Whether she was called upon to rehearse actors, for her opinion on how something was working, or asked to take notes for me, she undertook each task with equal zest. Actors felt comfortable approaching her with questions and for help. Allison is a hard-worker who works beautifully with people

She assisted me many time, and now has grown into an extremely creative and clever director, choreographer and intimacy choreographer of her own. I look forward to working with Allison again, and believe you would be lucky to have her work on your production.

Sincerely,

Jules Aaron
