Gatorfoam is a unique, strong, laminated panel with a core of extruded polystyrene and a face made of resin impregnated wood fiber veneer commonly known as Luxcell . It is an interior and exterior panel, great for structural and all model usage. It can be cut with a variety of woodworking tools, Xacto or matt knife. It accepts all types of paints and may be glued using construction adhesive, Aileen's Tacky Glue,(best) or any variety of adhesive caulkings. When using outdoors care must be taken to protect the edges against ultraviolet light. The perfect choice for all around modeling and module construction. For more technical info call 802-244-1471

Gatorfoam comes in 4 x 8 sheets as well as the sizes listed above. Custom sizes are available as well as custom cutting. There is no charge for custom cutting basic shapes. Pricing on custom sizes are $3.00 psf on 3/16" and $4.00 psf on ½". Please Note: UPS & USPS can not deliver 4 x 8, or very large sheets. Shipping prices have gotten ridiculous. The smaller the package the better. Purchase larger sizes or a 4 x 8 and we will cut it into smaller sizes at no charge and you'll pay for the GF and shipping only. We do not charge any handling or processing fees. Final Note: We package our GF very well but cannot be responsible for shipper mishandling.
