

Obituary for Larry A. "Ace" Miller provided by Donald "Duck" Davis on May 25, 2019

Greetings! I am sorry to report that Larry A. Miller, "Ace", ETN2 passed away very suddenly in his Tulsa, OK home on Jun 18, 2018; cause was either a heart attack or a stroke. He was born on August 19th, 1945, in Springfield, Missouri; he attended school in both Springfield & Tulsa. During college Larry served in the US Navy Reserve and attained a Bachelor's degree in electronics. He served as an ETN2 on the USS Annapolis circa 1968-1969. He loved the ship and planned to construct a very large, detailed model of it utilizing much documentation he acquired, including a large blueprint and many photographs. Larry was a great person and my best friend for over 56 years; I miss him daily.

Incidentally, was also an ETN2 during the Vietnam War era. I served on the USS Mt. McKinley AGC-7 and the USS Princeton LPH-5, 1967-1968. I apologize for not thinking to communicate this information to you sooner; unbelievably, it has been nearly a year since Ace's death.

Thank you.

Donald H. "Duck" Davis
