

## Personalized Canes by Jim Kerr on 03/16/20

I just recently received my new Annapolis Walking Cane. I have a good friend who hand-carves canes and hiking sticks using wood from his own tree farm. His name is Archie Trott who lives in Cologne, MN and has been carving most of his life. I gave him a photo of Annapolis, two of my service medals and he carved the ship and medals into the wood. He also included my name, rate and the years I was in the Navy on the cane. This is not the first cane I've received from Archie. He has also carved two other canes and a walking stick for me, all with unique designs on them, and frequently carves canes and hiking sticks for the Wounded Warriors Project. If you are interested in purchasing a personalized walking stick or cane from Archie, please contact him at [celticcarver@embarqmail.com](mailto:celticcarver@embarqmail.com) or give him a call at 952-412-7453. You can also find Archie's handiwork on Facebook at "[Archies Carving and Art](#)"... just ask to join his page. His prices are very reasonable and he will ship canes to anywhere in the U.S.
