

Pre-Treatment Micro-blading Eyebrows

The correct eyebrow shape can balance and add definition to your face. It can correct non-symmetrical brows, add arches, or recreate brows where little or no hair exists.

Pricing

Full Brow service: \$500.00 (includes consultation, procedure appointment, & touch-up appointment)

- Enhancement Appointment: \$250-450, usually 1-5 years after initial procedure.

Day of appointment :

- Fill in your eyebrows as you normally would or your desired shape.
- Do not work out the day of procedure or sauna. (avoid sweating)
- Avoid caffeine 2-3 hours before appointment (stimulant that may heighten sensitivity)
- Eat 20-30 minutes before procedure
- If you bruise easily, it is recommended you take Arnica before and after the procedure (available at most grocery stores)
- If you need to take antibiotics, please take as prescribed by doctor.
- Female clients on their menstrual cycle may be hypersensitive
- If doctor note required, please bring to appointment

24 hours before appointment:

- Avoid alcohol

One week before procedure

- If you tint your eyebrows, do so before your procedure so we can work with your desired color
- Do not tweeze, perform electrolysis, threading, or waxing for 1 week before procedure
- No aspirin, Ibuprofen or other blood thinners one week prior to appointment (if on prescription blood thinners or mood elevators must consult with doctor before procedure and provide note of instructions and consent) Tylenol is ok

2 weeks before procedure

- Must be off Retinal products for 14 days prior to procedure and continue to avoid the area for 30 days after.

30 days before procedure

- Do not tan 30 days before and after your procedure. If you come to the appointment with a sun tan or burn you will need to reschedule your appointment (your booking fee will be forfeited) due to your skin exfoliating and taking the pigment with it.
- Do not have any type of facial, peels, or exfoliating treatment
- If you plan to go on a vacation, it is recommended to plan your trip a minimum of 30 days before and after your procedure.
- Do not take Vitamin A, Vitamin E, or fish oil for 1 month prior to procedure.
- Fillers and Botox must be done 4 weeks prior and 4 weeks after procedure

1 year prior to procedure

- Must be off Accutane for at least 1 year prior to procedure
