

Cities For Christ

In Christ there is always Good News
and today we are pleased to share some of it with you!

Colombia

**The CFC Team and
Bootcamp Students
Together on a Mission!**

We took our bootcamp students to Cartagena, Colombia for a ten day mission trip. From 9am to 2am the team ministered to thousands.

- 700 souls prayed to receive Christ
- Multiple prostitutes have turned from their old life and are seeking other employment. One has already found a new job. We are able to follow-up virtually with them.
- 2 men who struggled with homosexuality repented and one of those men said that he wants to be married and have children. He followed us for days wanting to receive all that he could.
- Demons were cast out! We witnessed several people manifest demons and witnessed the power of Christ to bring deliverance and freedom.
- A special princess dinner with love letters for the “ladies of the night.” was hosted to show God's love and compassion.
- Hundreds of children heard the gospel and felt God's love in the San Francisco neighborhood, an area where many orphans live on the streets.
- A crusade was held with the YWAM team in an area with heavy witchcraft. Many received Jesus and were baptized right away. The YWAM base leader said there has been a great spiritual shift since the team ministered at Bocachica Island.
- Hundreds were healed and many were baptized
- Some of the Boot Camp students have decided to become full-time missionaries.

Praise God! In April Colombia enacted travel and curfew restrictions across the nation to every city except Cartagena. Colombia was on lockdown, but Cartagena was not ... until the final day of our trip!

Students Testimonies

The Bootcamp and Cartagena changed my life

I have never experienced a mission like Cartagena. When I saw how the love of God flooded every place we went, I could not stop crying. People were healed, freed from bondage, baptized, and with as they accepted Jesus, they were wrapped in the love of

Christ. I have never seen so much love and so much passion for people as in Cartagena, it was something beautiful to witness!

Our ministry in Bocachica impacted me the most. We were walking around the island inviting the community to the event and suddenly we began to pray for the people and they were healed without anyone touching them. After they were healed they would invite us to other houses to pray for their relatives and neighbors. In one house we prayed for a lady who was unable to get up for 7 days. She was totally healed by the power of Jesus. The woman response was a beautiful mixture of surprise and tears. The joy in her eyes and her smile was one of the greatest rewards.

Itza Avila

Since the bootcamp I feel so confident to talk to all types of people about God and with so many different methods to connect with them. I never imagined that during a pandemic I would learn to evangelize in ways I had never done before to reach the lost.
