

Integrated Counseling Connections

Where physical health, mental health, and the future collide...

Our Program

Primary care settings have become the gateway to the behavioral health system and primary care providers need support and resources to screen and treat individuals with behavioral and general healthcare needs. The solution lies in integrated care as a systematic coordination of general and behavioral healthcare. Integrated Counseling Connections has created a program to allow all physicians to take advantage of an integrated care approach, even those in solo and small group practices. Our program is financially beneficial as you pay counselors only for the time they spend in your facility. Our counselors are qualified and credentialed to provide both primary care and family care services, as well as specialty services.

Let's heal together!

Services We Provide

- Connecting medical and behavioral health providers
- Training for behavioral health and medical providers
- Ongoing consultation for program development
- Consultation for billing issues
- Consultation for program evaluations, including:
 - Outcome surveys
 - Patient satisfaction

Providing support for physicians and other healthcare professionals

What is Integrated Care?

A brief look at the future of medicine...

(269) 327-6030

What is Integrated Care?

- Integrated care is a model of healthcare delivery that engages individuals and their caregivers in a wide range of factors necessary for a healthy life, including:
 - Physical
 - Psychological
 - Social
 - Preventative
 - Therapeutic
- Both physicians and mental health professionals work together to provide integrated care.

A New Model for the Future

- Counselors are available regularly, by appointment, or both.
- General and specialty services provided in:
 - Substance Abuse
 - Primary Care
 - Women's Health
 - Men's Health
 - Pediatrics
 - Pain Management
 - Chronic Illness
 - Acute Illness
- Financially feasible.
 - Pay counselors only for the time they spend in your facility
 - Bill for services rendered, pay the counselor a contracted fee, and retain a portion of the billed service for your practice

How Integrated Care Benefits your Patients

- Coordination of care treats the whole person and produces better outcomes.
- Reduce the per capita cost of total healthcare.
- Patients do not have to be diagnosed with a mental illness to get counseling.
- Integrated care reduces stigma of seeking care for mental health issues.
