## About the product

Padded Gate Arm Cover - Add visibility and vehicle protection with our 4.5" diameter X 1" thick foam pad with a custom sewn marine vinyl wrap with three 2-inch-wide reflective bands. Diameter is 4.5" and the length is 67". You can cover the entire barrier arm or just a section or two. 67" section. Makes the arm jumbo sized. A whopping 4.5" in diameter!! Quality sewn marine grade vinyl right here in Tucson by a marine upholstery shop. We support local businesses.

## More about the product

Sewn on tabs with snap. We also provide you the other side of the snap which is self-tapping. You can place it on the aluminum barrier arm and then snap the tab together and your pads will stay in place and never move. This is a great help if you decide to take the pads to a printer to add vinyl graphics to your padded cover. Your words will always stay nice, straight and in line if you are using multiple padded covers for the graphics
