

Cloud Angels: Signs of the Looming Tribulation Period?

T.W. Tramm – (08/10/23)

THIS POST goes under the heading, “I know this will sound crazy, but ...”

Those who follow this page may recall that it was around this time, mid-August, in 2015 that I witnessed something which had a profound impact on myself and this ministry: a cloud formation in the precise shape of an angel sounding a trumpet, or shofar.

The second part of the story is that seven years later—to the day—my friend Brian Christopher witnessed and photographed a similar cloud angel, who appears to be holding a little scroll in his hand (see image above).

Read the original account and details of the two cloud angels [here](#).

What I find remarkable, aside from the incredible nature of the cloud formations, and the fact that they appeared exactly seven years apart, is that both occurred in Sabbatical years, which have historically been a time of biblical signs (see examples in the notes section below).

I do not claim to know when God's Judgment is going to begin. Like everyone else, I can only observe the signs and speculate.

What I do know is the following:

- The Lord typically gives a seven-day or seven-year warning before bringing major judgment (Gen. 7; 41; Josh. 6).
- God said He would show signs and wonders in the heavens, before the Day of the Lord begins (Acts 2:17–20).
- In Sabbatical year 2015, I witnessed an astonishing cloud formation, an angel sounding a shofar, the type used to declare the Year of Jubilee. Exactly seven years later, my friend Brian saw and photographed an eerily similar cloud angel, who appears to be holding a little scroll in his hand.

With the above facts in view, it is interesting to note that in the Book of Revelation, God's judgment begins with the first of seven angels sounding a trumpet, and ends with a mighty angel coming down from heaven, with a little scroll in his hand (Rev. 8:1–7; 10:1–7).

Could the two cloud angels be a seven-year warning related to the start and culmination of the Tribulation period? Only the Lord knows, but with all the prophetic convergence pointing to the Sabbatical week 2023–30, it is an awesome possibility to consider.

NOTES:

1. Sabbatical cycle and signs:

Concerning the reckoning of Sabbatical years, it is important to note that there are two accepted chronologies, which differ by a single year. The first chronology, associated with Benedict Zuckermann, has the Sabbatical year 5782 ending in 2022. The second chronology, associated with Ben Zion Wacholder, has the Sabbatical year 5782 ending in 2023. <https://www.pickle-publishing.com/papers/sabbatical-years-table.htm>

Significantly, Wacholder's chronology, reckoned from Nisan, lines up with recent landmark signs and events. Note below how the signs culminate in the seventh month of the seventh year, the appointed time in the year of debt remission, or "Shemitah" (Deut. 31:10):

- Sabbatical 1973–74: Yom Kippur War and energy crisis begin in the seventh month.
- Sabbatical 2001–02: Market crash related to the 9/11 terror attacks occurs in the seventh month.
- Sabbatical 2008–09: Market crash of 777 points related to the Global Financial Crisis occurs in the seventh month.
- Sabbatical 2015–16: Major signs in the heavens (blood moons, solar eclipses, and Bethlehem Star reappearance) culminate in the seventh month.
- Sabbatical year 2022–23: The 77th assembly of the UN is held in the seventh month; the US records 7.7 percent inflation in the seventh month; NASA's asteroid deflecting technology (DART) is deployed on the Feast of Trumpets in the seventh month. Additionally, Sabbatical year 2022–23 saw a war and energy crisis echoing the crisis 49 years earlier, in Sabbatical year 1973–74.
