

Signs in the Heavens: Jubilee Confirmation?

T.W. Tramm (09/21/23)

BIBLICAL MATH suggests that 2023 is a Jubilee.

Could the recent arrival of two aptly name asteroids in the Constellation Virgo be confirmation?

During the month of Elul (August–September), just prior to the Revelation 12 alignment, a pair of asteroids, or “minor planets,” showed up in Virgo, where they will remain for several months.

The pair, which apparently travel together, will not appear again in the Revelation 12 alignment until 2027.

The first asteroid, which happens to be number 50 in order of the roughly 150,000 minor planets that have so far been discovered, is named “50 Virginia.” Asteroid 50 Virginia’s appearance in the Revelation 12 alignment is significant for two reasons:

- 1) Fifty is the number of harvest and Jubilee (Lev. 23:15; 25:8–10).
- 2) The name Virginia means “virgin,” as in the virgins who go out to meet the bridegroom (Jesus) at His coming (Matt. 25:1).

The second pertinent asteroid found in Virgo this month is named “652 Jubilatrix.”

Jubilatrix is a Latin name that means “Jubilee.” The asteroid was named Jubilatrix to honor the Diamond Jubilee of Austrian Emperor Franz Joseph in 1907.

What is striking about Jubilatrix’s 1907 discovery date is that it occurs exactly 50 years, or one Jubilee period, after asteroid 50 Virginia’s discovery in 1857.

It gets more interesting. Asteroid 50 Virginia was discovered on Tishrei 16 (October 4), during the Feast of Tabernacles, while Jubilatrix was discovered on Cheshvan 17 (November 4), the anniversary of Noah’s Flood. Thus, the Jubilee-themed asteroids were discovered one Jubilee period apart, and on the dates associated with the ‘harvest’ and judgment of humanity.

Finally, the Strong’s numbers associated with 652 Jubilatrix bolster the notion that it is a sign from God. Strong’s #652 is the word *apostolos*, which means “messenger,” or “one who is sent.” Moreover, subtracting Virginia’s number “50” from Jubilatrix’s “652,” we get 602. Strong’s Greek #602 is the word *apokalupsis*, which means “disclosure, coming, or revelation,” as in the Book of Revelation.

The biblical concurrences suggest that 50 Virginia and 652 Jubilatrix are indeed messengers of Divine revelation.

SUMMARY AND CONCLUSION

2023 is a calculated Year of Jubilee.

Just days ahead of this year's Revelation 12 alignment, a pair of minor planets with names denotive of the Jubilee arrived in the constellation Virgo.

It defies coincidence that in a calculated Year of Jubilee, during the month in which "liberty" is declared by a trumpet blast, two jubilee-themed asteroids that were discovered 50 years apart appear alongside each other on the shoulders of Virgo.

Scripture says the heavens speak to us:

"The heavens declare the glory of God; the skies proclaim the work of his hands. Day after day they pour forth speech; night after night they reveal knowledge" (Ps. 19:1, 2).

The message being declared in Virgo this month is that the Jubilee—liberation of believers is near.

Exactly how near, only God knows. But judging by the signs, it would appear very near.

. . .

NOTES:

1. Biblical math that suggests 2023 is a Jubilee: <https://storage.googleapis.com/wzukusers/user-35306783/documents/5d9d83c6cb9944c5994d2473b600ad24/THE%20YEAR%20OF%20REDEMPTION%20-%20WHY%20MILLIONS%20WILL%20SOON%20GO%20MISSING%20rev%20b.pdf>

2. Asteroids 50 Virginia and 652 Jubilatrix entered Virgo on August 22 and September 13, respectively. They will exit Virgo on January 16 and January 13, respectively.

3. Minor planets (asteroids) numbered in order of discovery: https://en.wikipedia.org/wiki/Meanings_of_minor-planet_names:1%E2%80%931000

4. More on Comet 50 Virginia: <https://storage.googleapis.com/wzukusers/user-35306783/documents/b2615b10e34a4e488de40e8a67acc882/SIGNS%20IN%20THE%20HEAVENS%20-%20ASTEROID%2050%20VIRGINIA%20rev%20a.pdf>

5. Incidentally, Strong's #50 (Greek) is the word *agnoeo*, which means "to be ignorant," as in Paul's teaching about the Rapture:

"Brothers and sisters, we do not want you to be ignorant [*agnoeo*] about those who sleep in death, so that you do not grieve like the rest of mankind, who have no hope For the Lord himself will come down from heaven, with ... the trumpet call of God, and the dead in Christ will rise first. After that, we who are still alive and are left will be caught up together with them in the clouds to meet the Lord in the air Now, brothers and sisters, about times and dates [of this event] we do not need to write to you, for you know very well that the day of the Lord will come like a thief in the night. While people are saying, 'Peace and safety,' destruction will come on them suddenly, as labor pains on a pregnant woman, and they will not escape. But you, brothers and sisters, are not in darkness so that this day should surprise you like a thief" (Thess. 4: 12, 16, 17; 5:1–4).

Strong's #50 (Hebrew) is the name "Abishua," which means "my father is rescue."

6. The Parable of the Virgins is a picture of two groups who are expecting the Messiah—Bridegroom. One group has "oil," signifying a saving relationship with Jesus, whereas the other group does not have oil, and is thus locked out of the wedding (Matt. 25:10–12). Tragically, many Jews today are expecting the Messiah, but do not recognize that He is Jesus.

7. The biblical standard for determining the truth of a matter is the testimony of "two or three witnesses" (2 Cor. 13:1).

8. About Jubilatix:

https://en.wikipedia.org/wiki/652_Jubilatrix#:~:text=It%20was%20discovered%20on%204,of%20the%20Maria%20dynamic%20family.

9. 652 minus 50 equals 602. Strong's Greek #602 means "disclosure: appearing, coming, manifestation, or revelation." <https://biblehub.com/greek/602.htm>

10. The Jubilee is declared on the Day of Atonement (Lev. 25:9, 10).

11. The Revelation 12 alignment of 2023 is unique, in part, due to the sudden and unexpected appearance of Comet Nishimura in Virgo at this time. Comet Nishimura has a long list of prophetic connotations:

- Elul, the month in which the newly discovered Comet Nishimura first made news, is traditionally called "the month of the bride."

- Comet Nishimura was discovered in the Constellation Gemini, the sign that depicts the “wedding union.”
- Comet Nishimura was not discovered by automated systems as is typical, but by an amateur astronomer named Hideo Nishimura. The name Hideo Nishimura, means “husband” and “to go west.” This is significant, because Jesus is the proverbial “husband” whose return is said to be like lightening from the “east to west” (Prov. 7:19, 20: Matt. 24:27).
- The Gematria value of the name Hideo Nishimura is 153, corresponding to the 153 fish, symbolic of Christians, who are “caught up” and brought to the Lord (John 21).
- Comet Nishimura is classified a “long-orbit” comet, referring to the fact that it takes centuries to return from its lengthy orbit around the Sun. This is significant because the returning Jesus is depicted as the “husband” who has been “gone on a long journey” (Prov. 7:19, 20).
- The last time the Comet Nishimura passed by Earth was 435 years ago. Strong’s #435 Greek is the word “*anér*,” meaning “betrothed or future husband.” Strong’s #435 Hebrew is the word “*Elul*,” referring to the month in which the newly discovered comet started making news.
- With the many prophetic coincidences in view, it seems Hideo Nishimura was chosen to discover the comet that last passed by Earth in 1588. Strong’s #1588 is the Greek word “*eklektos*,” referring to one who is “chosen out by God for the rendering of special service to Him.”
- Since Comet Nishimura last passed by Earth in a Sabbatical year (1588), there are 62 Sabbatical weeks between the comet’s previous visit and the one in 2023. This is significant because in Daniel’s Weeks Prophecy, Messiah appears after “62 weeks” (Dan. 9:25).
- During the seven days preceding the Feast of Trumpets, Comet Nishimura crossed over the first and last stars in the Constellation Leo, which depicts Jesus as the coming Judge. This is Significant because in the last passage of the last chapter of the Bible, Jesus says: “Behold, I am coming soon! My reward is with me, and I will give to everyone according to what he has done. I am the ... First and the Last” (Rev. 22:13, 14).
- Comet Nishimura enters the Constellation Virgo at the Feast of Trumpets, where it stays for seven days (September 16–23). While in Virgo, the comet reaches maximum brightness (perihelion), before exiting the constellation around the last day of summer.
