

Health & Safety Operations Update

[January 1, 2024]

Israel Manor Inc. (IMI) and New Life Israel (NLI) are committed to providing a safe and healthy learning, working, and community activity environment. As the world has adapted amidst the controlled, yet ongoing presence of COVID-19 and other serious viruses, you may be assured that IMI will continue to follow all safety protocols to protect our students, seniors, staff, partners, and the families and residents in the communities we serve. The IMI/NLI Board of Directors and staff leadership continue to monitor communications provided by the D.C. Mayor's office and health authorities, including the Centers for Disease Control and Prevention (CDC) and the D.C. Department of Health (DOH) to ensure we're acting on the latest guidance and information about public health and safety.

The Child Development Center at Israel Baptist Church and the Capital City Hall of Distinction at the Rev. Dr. Morris L. Shearin, Sr. Community Life Center have been and continue to remain open for business under standard operating hours and policies! Please visit us at <http://www.israelmanorinc.org> to learn more.

We are scheduling in-person appointments and encourage all interested parties to send reservation and booking inquiries for the *Capital City Hall of Distinction* via email at imi.cchod1251@gmail.com or via our website at <http://www.israelmanorinc.org/CCHOD-.html>. We also have a limited number of immediate openings in our Child Development Center @ Israel Baptist Church. Please send inquiries regarding infant, toddler, and Pre-K enrollment to imi.icdcadm@gmail.com.

You may be assured that IMI/NLI will continue to practice and reinforce to others basic health and safety protocols to ensure the safety of all with whom we engage:

- Require guest and visitor sign-in upon entry to the event facility
- Provide masks for optional use by visitors, guests, personnel, and contractors on the premises.
- Practice frequent hand washing with soap and warm water for at least 20 seconds on both sides and between fingers.
- Provide alcohol-based hand sanitizer with at least 60 percent alcohol for open use.
- Request staff to avoid people who are ill and insist that persons who have symptoms of illness stay home.
- Disinfect and sanitize all facilities and high-contact surfaces, such as doorknobs and tables, shelving, desktops, office equipment, etc. on a continuous basis.
- Place signage in designated areas to remind staff and visitors of health and safety precautions.

We remain committed to our mission to serve and prayerfully invite you to consider and support IMI/NLI programs as we look toward growth and greater things to come!
