

brand+Co

The focus of our work is developing visual identities, digital solutions and other associated material for small and big clients. Together with our clients we identify and clarify core values to make relevant and tailored solutions.

After the first login the settings are chosen and changed and the service is adapted to the individual corporate design.

Copy Text Source Sans Pro Light

After the first login the settings are chosen and changed and the service is adapted to the individual corporate design. Create pages with multimedia and multilingual content. Existing content can be easily transferred to the xamoom location CMS. Smartphone-readable location identifiers like iBeacons, NFC chips or GPS geofences are written and installed either locally or directly at the object.

How it works

Set it up

After the first login the settings are chosen and changed and the service is adapted to the individual corporate design.
