

# FOR FOREST

THE UNENDING ATTRACTION  
OF NATURE

A TEMPORARY ART INTERVENTION  
BY KLAUS LITTMANN

## STATEMENTS FROM OUR PARTNERS

**RIEDERGARTEN**  
IMMOBILIEN

**Herbert Waldner**  
**Geschäftsführer und Gründer der RIEDERGARTEN**  
**IMMOBILIEN GRUPPE**

"FOR FOREST opens our eyes to our environment and to how we handle nature. Only strong supporters can erect such a project, that is why I have committed myself to this project with all my strength. Our life on this planet is at stake! FOR FOREST is now part of a worldwide movement which is getting stronger every day. I am proud of the fact that we could realise this in Carinthia, my home."

**STRABAG**  
TEAMS WORK.

**Dr. Peter Krammer**  
**Board member of STRABAG SE**

"We have been supporting and encouraging national and international artists through the STRABAG art forum for decades. In particular art projects, which are rooted in Carinthia just like STRABAG. Thanks to FOR FOREST the Carinthian region is placing an extraordinary milestone in the art scene, and we are glad to support it."

**enea** landscape architecture

**Enzo Enea**  
**CEO and Landscape architect Enea GmbH**

"Nature is increasingly being repressed. We use nature but we do not respect it. We take pleasure from it, but we do not protect it. For me as a landscape architect and tree specialist, FOR FOREST is a statement for the conservation of the forest as part of nature in its original form and in all its diversity."

**STW**  
Stadtwerke Klagenfurt

**DI Erwin Smole**  
**Vorstand, Stadtwerke Klagenfurt AG**

"This art project clearly shows that topics such as sustainability, climate change but also technological developments influence everybody's future. The Stadtwerke support this project because services of the future will also be influenced by these conditions. Following the German poet Roswitha Bloch – The breath of the trees gives us life, and the Stadtwerke give life to the trees by watering them. We wish Klaus Littmann and his

whole team a lot of success. Klagenfurt and the region of Carinthia will be seen in a new light. FOR FOREST – a rallying action in times of burning tropical forests!”

## **Ing. Gerd TILLY**

### **Managing partner of TILLY Holzindustrie Gesellschaft m.b.H**

“As a forest owner and a producer of wood panels, we pay particular attention to the protection and preservation of forests. Forests absorb carbon dioxide (CO<sub>2</sub>) and clean groundwater by filtering it. What they do is of inestimable value and we are very aware of this. We see the art project FOR FOREST as a memorial. The climate change cannot be prevented without each and every one of us committing to the issue. If forests die because of climate change, then we will die as well. Because there can be no life without forests – for no one!”

## **Helmuth Micheler**

### **Manager of Tourismus Klagenfurt am Wörthersee**

“Irritating people is the best way to get their attention. FOR FOREST irritates and suddenly brings Klagenfurt in the eyes of the world. For a year before the opening, the project has been opening us doors to tour operators and media on all of our important markets in Europe. This already shows the strength that lies within FOR FOREST. For me, FOR FOREST brings a form of catharsis, especially through the artistic use of the Wörthersee Stadium.”

## **Ing. Gert Unterköfler MAS, MSc**

### **Manager of Sportpark Klagenfurt GmbH**

“I support FOR FOREST because I am strongly convinced that it is time to defy the exploitation of our planet. FOR FOREST does this in a very positive way without soaking up negative energy.”
