Description
This document describes the xMatters Privacy Program in compliance with PIPEDA requirements. These practices are crafted in alignment to the Privacy requirements of ISO 27001:2013 and other Privacy Regulations that are relevant to xMatters business and clients.

xMatters design and implementation of Privacy will be conducted by reviewing and incorporating the privacy laws and regulations from the regions that xMatters operates in. As well using a risk-based approach to determine the requirements of information security and organizational policies, processes and procedures to protect privacy related information. In regard to privacy data and systems that store and process personal information, industry best and accepted practices will be used to provide protection.

Scope
xMatters SaaS platform and services in compliance to the Australian Privacy principles.

Notes
PIPEDA’s 10 fair information principles form the ground rules for the collection, use and disclosure of personal information, as well as for providing access to personal information. They give individuals control over how their personal information is handled in the private sector.

In addition to these principles, PIPEDA states that any collection, use or disclosure of personal information must only be for purposes that a reasonable person would consider appropriate in the circumstances.

The OPC has determined that the following purposes would generally be considered inappropriate by a reasonable person (i.e., no-go zones):

- collecting, using or disclosing personal information in ways that are otherwise unlawful;
- profiling or categorizing individuals in a way that leads to unfair, unethical or discriminatory treatment contrary to human rights law;
- collecting, using or disclosing personal information for purposes that may cause significant harm to someone;
- publishing personal information with the intent of charging people for its removal;
- requiring passwords to social media accounts for the purpose of employee screening; and
- conducting surveillance on an individual using their own device’s audio or video functions.
**PROGRAM SUMMARY**

**PRO-9: PIPEDA PRINCIPLES**

**Overall Progress**
- 100%

**Implementation Status**
- 10 Implemented
- 0 Partially Implemented
- 0 Not Implemented
- 0 Excluded

**Total Controls/Policies**
- 16

**Number of Requirements**
- 10

**Requirements Per Standard**
- PIPEDA Principles: 10
### PIPEDA PRINCIPLES

<table>

<tbody>
<tr>
<td>Data Privacy</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Principle 1</td>
<td>Implemented</td>
<td></td>
<td>Privacy Officer</td>
</tr>
</tbody>
</table>

#### Accountability
An organization is responsible for personal information under its control. It must appoint someone to be accountable for its compliance with these fair information principles.

**Satisfied By**
- **Policy:** Breach response Process
- **Policy:** Data Privacy Impact Assessment Process (DPIA)
- **Policy:** Privacy Code of Practice

**Notes**
xMatters has strict policies and procedures governing how we deal with our clients’ PII. Our employees are trained, and they are all responsible protecting this information. xMatters Privacy Officer oversees privacy governance including policy, dispute resolution, education, communications activities and compliance.

<thead>
<tr>
<th>Principle 2</th>
<th>Implemented</th>
<th>Information Assurance Department</th>
</tr>
</thead>
</table>

#### Identifying Purposes
The purposes for which the personal information is being collected must be identified by the organization before or at the time of collection.

**Satisfied By**
- **Policy:** Privacy Policy
- **Control:** Data Processing agreement

**Notes**
xMatters only collects its clients’ personal information for the purposes outlined on the Privacy Policy and Data Processing Agreement. If a new purpose for using your Personal Information develops, it will be identified in specific documentation.

<table>
<thead>
<tr>
<th>Principle 3</th>
<th>Implemented</th>
<th>Legal Counsel</th>
</tr>
</thead>
</table>

#### Consent
The knowledge and consent of the individual are required for the collection, use, or disclosure of personal information, except where inappropriate.

**Satisfied By**
- **Control:** Service Level Agreements (SLA)
- **Policy:** Privacy Policy

**Notes**
When clients start using our SaaS platform, xMatters obtains their consent to collect, use or disclose their PII. All users can manage their preferences in information directly on xMatters platform.

xMatters has a Subject Access Process in place for any users that might want access to their information at any time and/or withdraw access to that information.

<tr>
<td>xMatters will share clients’ personal information with third parties only in the ways that are described in this privacy statement. xMatters do not sell personal information to third parties.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

xMatters may provide users’ personal information to companies that provide services to help with our business activities such as submitting promotional email communications and emergency alerts to the users on the behalf of xMatters. These companies are assessed at regular intervals and are authorized to use this personal information only as necessary to provide these services to us. Transfers to subsequent third parties are covered by the provisions in this policy regarding notice and choice and the service agreements with xMatters clients.

Data Security

### Principle 7

**Implemented**

Information Assurance Department

**Safeguards**

Personal information must be protected by appropriate security relative to the sensitivity of the information.

**Satisfied By**

- **Control:** TRUSTe/TrustARC certified
- **Control:** Virtual Private Networking (VPN)
- **Control:** Data Loss Protection (DLP)
- **Control:** Firewall rules and audits
- **Control:** Data Map
- **Control:** Bitdefender Endpoint Security (AV)
- **Control:** Cryptographic Controls (A101)
- **Control:** Encryption (At Rest and in Transit)

**Notes**

xMatters uses physical, electronic and procedural safeguards to protect against unauthorized use, access, modification, destruction, disclosure, loss or theft of PII in our custody or control.

### Principle 8

**Implemented**

Information Assurance Department

**Openness**

An organization must make detailed information about its policies and practices relating to the management of personal information publicly and readily available.

**Satisfied By**

- **Policy:** Privacy Code of Practice

### Principle 9

**Implemented**

Information Assurance Department

**Individual Access**

Upon request, an individual must be informed of the existence, use, and disclosure of their personal information and be given access to that information. An individual shall be able to challenge the accuracy and completeness of the information and have it amended as appropriate.

**Satisfied By**

- **Policy:** Subject Access Request (SARS)
