

STOP THE STEAL GAME!

**A POLITICAL ACTIVISM GAME BY THE MOCO CONS MEETUP GROUP
FREE TO PLAY, 16 PLAYERS REQUIRED**

**SAMPLE
GAME
CARD**

I have identified 11 State Legislators that are in a position to make a decision about whether to have a vote audit, recount or to certify election results. We need to contact them and demand that results not be certified until the votes can be verified to be legal. We can have fun doing it,

1. If you want to play this game you must pledge to contact by web page message, e-mail, phone, fax or snail mail the complete set of Legislators for at least one of the targeted states (PA, AZ, WI, MI and GA).
2. When the player provides a copy of the proof of contact to the Game Admin, the players entry is considered validated for that State.
3. For each validated state the player allocates a military ship game piece at the left within the game board any way they want. The player indicates their game board configuration to the Game Admin. For example, PA, at the left is (2D,3D) and GA is (1A,1B). (Each game piece spans 2 adjacent cells on the game grid.)
4. At the end of the game period, the Game Admin (Chris) will provide the master grid to each player by e-mail along with the game piece layout the player designated.
5. A single point is allocated to the player for each instance where a player's game piece coincides with an marked cell on the master grid.
6. The most points wins a bottle of fine wine from Trump Vineyards or \$50. Second place gets the prize not selected by the first place winner. Ties are broken by a random selection.
