

SILKPEEL® **DERMALINFUSION®**

BODY

**THE ONLY ADVANCED RESURFACING TREATMENT WITH
PRECISION-TIMED SERUM INFUSION THAT PROVIDES A
COMPLETE HEAD-TO-TOE EXPERIENCE**

NON-INVASIVE • NO DOWNTIME • ALL SKINTONES

SILKPEEL® DERMALINFUSION®

EXPAND RESULTS WITH FULL BODY REJUVENATION

The Dermalinfusion technology trusted for facial rejuvenation is also available for the entire body. Dermalinfusion Body is a non-invasive, patented 3-in-1 dermatological treatment that simultaneously exfoliates, extracts, and infuses skin with condition-specific serums. It is the only critically-timed, closed-loop extraction and recessed exfoliation technology with optimal-depth serum delivery for immediate and long-lasting results on multiple body concerns.

EXFOLIATES

Distinctive recessed diamond tip exfoliation removes dry and damaged cells for unparalleled resurfacing and rejuvenation.

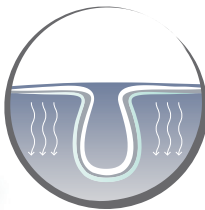

EXTRACTS

Closed-looped vacuum pressure removes damaging dirt, debris, and bacteria while deeply cleansing.

INFUSES

Condition-specific serums are simultaneously driven deep into skin at its peak moment of receptivity for enhanced skin health and visible results.

BENEFITS OF DERMALINFUSION BODY*

Non-Invasive

Stand alone or adjunct to in-office body procedures including pre- and post-surgical

Manipulates, stretches, and enhances underlying connective tissue

Improves skin texture

Increases cell renewal

Hydrates and soothes

*individual results may vary

DERMALINFUSION BODY

Deliver a rejuvenating body experience for beautiful skin year-round. Dermalinfusion Body smooths out stretch marks on mid-section, addresses body acne, hydrates rough elbows, as well as targets frustrating dark spots on the décolletage. A fully customizable treatment for all over body.

ALL-OVER REJUVENATION SOLUTION VISIBLY MINIMIZES THE APPEARANCE OF

- Sun damage, fine lines, and wrinkles
- Stretch marks
- Acne
- Cellulite
- Bumps, dryness, and discoloration
- Extreme dryness and/or cracking

TARGET PROBLEM AREAS WITH PRECISION

Each Dermalinfusion Body system comes with a 25mm handpiece and 15mm handpiece so larger areas like the back and smaller areas like the underarms and décolletage can be targeted.

A variety of diamond tips with different levels of abrasion range from smooth to coarse and offer complete customization for each patient's needs and skin type.

SILKPEEL® DERMALINFUSION®

CUSTOMIZED RESULTS

Serum infusion takes Dermalinfusion's efficacy beyond exfoliation and extraction. Condition-specific Pro-Infusion Serums are driven into the skin, at the exact moment of exfoliation, addressing a variety of skin concerns and providing immediate and long-term benefits.
