Established in 1988, 1234 Eyecare Clinic was opened in the “Gateway to San Gabriel Valley” beautiful and sunny city of Alhambra, California. The approach of our clinic’s treatment method is to treat our patient like family members. we help them understand their eye disease and work with the best technology to help prevent the problems from getting worse. Not only do we help treat myopia we also look for ways to help our patients in myopia control. In February 2007 we opened an additional location in Rowland Heights, California to service our patients on the eastside. Again in 2009, our Arcadia location was opened to help people in nearby cities such as San Gabriel, Rosemead and Temple City. Through our many locations we are able to serve over 300,000 patients in the greater Los Angeles area including patients in other cities such as Las Vegas and San Diego.
