

# Napoleon's Quagmire

UPDATE

23 March 2018

Study Folder version 1.52

## FRENCH INITIAL SET-UP

- Talavera DoB—ignore the notation “®” for Sebastiani.
- Talavera AtB—Lasalle's HArt #3 arrives at 12n rather than 11AM as noted on the game's blue setup sheet.
- Talavera AtB—change the French pontoon from arriving with Joseph to arriving with Victor at 11AM.
- Almonacid AtB—add Soult's arrival time of 9PM; in the ALM DoB note his set-up hex 0815.
- Ocaña AtB—regardless of TRC or setup card, Soult **only** appears if Card No. 23 is played (stack with any reserve unit). If not using the cards he never arrives. If he arrives before the Reserves, enter him with the Reserves. If the Reserves are already in play, place him with a Reserve unit.
- Ocaña AtB—set up the French pontoons at the start in the same locations as in the DoB.

*It was "military standard procedure" for a commanding officer (from Lt to Gen) to be replaced; even the Commander in Chief*  
Whenever a Commander (other than Napoleon) is lost/captured, the highest initiative officer from the same arm (infantry/cavalry) will be elevated to a [1] commander-officer. This "transfer" should be done in the same manner as the loss of an ordinary officer (two Game-Turns after loss bring him back on the map). Replace the new commander with a generic replacement officer to take over his formation. This new commander is not required to put his original formation in command.
