| <b>Retention</b>                                | This notice will remain published on the website of Young Platform S.p.A. for at least five years from the date of publication.                                                                                                                                                                                                                                                                                                           |
| <b>Final note</b>                               | In compliance with the transparency provisions set out in articles 87 and 88 of the MiCAR Regulation, this notice is published. The statements provided reflect complete and accurate data at the time of dissemination; Young Platform undertakes to communicate any material changes through the same information channels. It is specified that this note has no marketing purpose nor does it constitute a promotional communication. |

## 2. Club access thresholds

### 2.1 Reference price and calculation parameters

| Parameter                             | Value                                          |
|---------------------------------------|------------------------------------------------|
| Reference YNG price for the month     | € 0.5335                                       |
| Price calculation methodology         | Closing price of the day preceding publication |
| Price source                          | Young Platform                                 |
| Price observation date                | 04/09/2026                                     |
| Historical reference price (baseline) | € 0.24 (YNG launch price, May 2022)            |

### 2.2 YNG thresholds by Club level

| Club      | YNG required — current month |
|-----------|------------------------------|
| Essential | 126                          |
| Bronze    | 1.087                        |
| Silver    | 3.624                        |
| Gold      | 7.249                        |
| Platinum  | 18.123                       |

*This communication constitutes service information addressed to Young Platform users. The information contained herein is published for the purpose of transparency regarding the specific values of the operational parameters of the Club model, as described in the current YNG White Paper. The YNG Token is a utility token; it does not constitute a financial instrument within the meaning of Legislative Decree 58/1998 and does not represent a solicitation to invest nor a public offering. The purchase, use and lock-up of YNG Tokens entail risks and must be carefully assessed. The price of the YNG Token is subject to market fluctuations. The Club access thresholds published herein are effective for the reference month indicated only and will be updated upon publication of the subsequent notice. Past performance of the YNG Token is not indicative of future results.*
