This communication constitutes service information addressed to Young Platform users. The information contained herein is published for the purpose of transparency regarding the specific values of the operational parameters of the Club model, as described in the current YNG White Paper. The YNG Token is a utility token; it does not constitute a financial instrument within the meaning of Legislative Decree 58/1998 and does not represent a solicitation to invest nor a public offering. The purchase, use and lock-up of YNG Tokens entail risks and must be carefully assessed. The price of the YNG Token is subject to market fluctuations. The Club access thresholds published herein are effective for the reference month indicated only and will be updated upon publication of the subsequent notice. Past performance of the YNG Token is not indicative of future results.
