Public Disclosure of Privileged Information

Young Token (YNG) Young Platform S.p.A. (Issuer) Pursuant to Articles 87 and 88 MiCAR

1. Summary of the Announcement

Titolo	Admission of the YNG token to trading on the WhiteBit exchange, starting 28 July 2026.
Natura della comunicazione	Privileged information pursuant to Article 87 of Regulation (EU) 2023/1114 (MiCAR), published by Young Platform S.p.A. in its capacity as Issuer of the YNG Token.
Soggetto notificante	Alexandru Stefan Gheban, CEO and co-founder, Young Platform S.p.A.
Issuer Details	**Young Platform S.p.A.** Via Cigna 96/17, 10155 Turin, Italy VAT / Fiscal Code: 11931440017 LEI: 815600F1E30AAB016171 Certified Email (PEC): youngplatform@pec.it Website: youngplatform.com
Affected Crypto-Asset	**Token Name**: Young **Token Symbol:** YNG **Token Standard:** ERC-20 **Blockchain:** Ethereum **Fungibility**: Fungible **Total Supply:** 100,000,000 YNG (fixed supply) **Mint/Burn Mechanism:** None (no inflationary or deflationary mechanics)

	Smart Contract Address: 0xA26Cbb76156090f4B40A1799A220fc4C946aFB3c
Active Whitepaper	The active YNG Whitepaper is available at storage.googleapis.com/young-documents/mica-whitepaper-YNG-token.xhtml. Previous versions of this notice, where applicable, remain available for consultation on the website.
Subject Matter	Admission of the YNG token to trading on the WhiteBit exchange
Summary of Content	On 21/07/2026, Young Platform S.p.A., in its capacity as issuer of the YNG utility token, discloses to the public the following privileged information pursuant to Article 88(1) of Regulation (EU) 2023/1114 ("MiCAR"). The YNG token will be admitted to trading on WhiteBit, a centralised trading platform regulated in Lithuania and Spain, starting from 28/07/2026. The admission expands the venues on which the token is available, in addition to Young Platform and Uniswap. The admission does not entail any changes to the tokenomics, to holders' rights, or to the YNG token's smart contract, which remain governed by the current White Paper.
Effective Date	28 July 2026

Retention Period	This notice will remain published on the Young Platform S.p.A. website for at least five years from the date indicated above.
Deferred publication pursuant to Art. 88(4) MiCAR	N/A
Closing note	In compliance with the transparency requirements set out in Articles 87 and 88 of the MiCAR Regulation, this announcement is hereby published. The statements provided reflect complete and accurate data as of the date of disclosure; Young Platform undertakes to communicate any material changes through the same information channels. It is specified that this notice does not serve marketing purposes and does not constitute promotional communication

2. Detailed description of the privileged information

2.1 Nature of the information

The information covered by this announcement qualifies as the admission of the YNG token to a trading venue: specifically, the admission of the token to a centralised trading platform (WhiteBit), in addition to the decentralised trading venue Uniswap (DEX) and the crypto-asset exchange services already offered via Young Platform Base. It constitutes privileged information pursuant to Art. 87 MiCA, being a specific corporate event arising from a contractual decision taken by the issuer with the trading venue concerned.

2.2 Facts and circumstances

- **14/07/2026** — Execution of the listing agreement between Young Platform S.p.A. and WhiteBit.
- **14/07/2026** — Execution of the market making agreement with Skynet, acting as market maker for the trading of YNG on WhiteBit.
- **28/07/2026** — Commencement of YNG trading on the WhiteBit platform.

WhiteBit is a centralised trading platform, authorised under Regulation (EU) 2023/1114 (MiCA) in Austria and holding VASP authorisations in 10 EU countries. As of the date of this announcement, it reports over 8 million registered users (up to 35 million considering the entire ecosystem) and a daily trading volume of between USD 1 and 2.5 billion, making it the leading European platform by traffic, with over 32 million monthly visits.

2.3 Precise and material nature (Art. 87 MiCAR)

The information meets the requirements of Art. 87 MiCAR in that:

- **Precise nature**: it refers to a future event whose date and terms have already been determined contractually (admission on WhiteBit with trading commencing on 28 July 2026). The operational parameters of the listing (venue, trading start date, market making conditions) are defined.
- **Non-public nature**: the information had not been made available to the public through official channels as of the date this announcement was prepared.
- **Price materiality**: admission to a trading venue is capable of significantly affecting the liquidity dynamics, market depth and accessibility of the YNG token — factors that a reasonable investor would consider relevant to their investment decisions.

2.4 Expected effects on the YNG token

The admission of YNG on WhiteBit does not entail any changes to:

- The token's tokenomics (maximum supply and issuance mechanics remain unchanged).
- Holders' rights as defined in the current White Paper.
- The terms of use of the token on Young Platform and on Uniswap.
- The YNG token's smart contract.

The expected effects are operational and market-related in nature:

- **Increase in the number of channels** available for trading the token: Young Platform Base exchange services, Young Platform Pro order execution, Uniswap (DEX), and now WhiteBit.
- **Access to a new audience,** in particular the European and international public present on the WhiteBit platform.
- **Potential increase in the token's overall liquidity,** depending on the volumes generated on the new venue.
- The possibility for YNG holders to access **any ancillary services** offered by WhiteBit to its own users (e.g. WhiteBit's native staking/lending services). Such services are not provided by Young Platform and do not benefit from the protections applicable to Young Platform's MiCAR services. The operational terms, risks and applicable regulation are the sole responsibility of WhiteBit.

2.5 Timeline

- **28/07/2026**: commencement of YNG trading on WhiteBit.
- **Weeks following 28/07**: any commercial initiatives related to the listing (Trading Festival, Learn&Earn) will be the subject of a separate marketing communication pursuant to Art. 7 MiCAR and internal Procedure 2.d.

- **Any subsequent milestones** (further trading pairs, additional operational integrations) will be communicated, where relevant under Art. 87, through dedicated announcements.

3. Register of persons with access (Insider List)

In accordance with Art. 88(5) MiCAR and Young Platform's internal Market Abuse procedures, the persons who have had access to the privileged information covered by this announcement are recorded in the register maintained by the Compliance function.

4. Publication channels

This announcement is published simultaneously on the following official channels of the Issuer:

- Corporate website, "Investor & Token Information" section — youngplatform.com/legal/
- Official Young Platform Blog — https://youngplatform.com/en/blog/tag/yng-news/
- Official social media accounts (X/Twitter, Telegram, LinkedIn) — permanent link to the announcement on the website.
- Newsletter and in-app notification for users registered on Young Platform.

This announcement remains accessible and archived on the website for at least five years from the date of publication (Art. 88(3) MiCAR).

5. Disclaimer and limitations of liability

This announcement is published in fulfilment of the transparency obligations set out in Articles 87 and 88 MiCAR. The information contained herein is accurate and complete as of the date of publication; any material updates will be communicated through the same channels.

This document does not constitute an offer, financial advice, or a recommendation to buy or sell the YNG token or any other crypto-assets. The value of crypto-assets is volatile and holders may incur losses, including significant losses. Recipients are invited to consult the YNG token

White Paper, available at youngplatform.com/token-yng/, and to independently assess their own position, including with the support of qualified advisors.

Services offered by WhiteBit to its users are governed by the regulations applicable to WhiteBit and by the relevant contractual terms. Young Platform assumes no responsibility for the operation, quality or reliability of services provided by WhiteBit.
