GROW THE DIFFERENCE

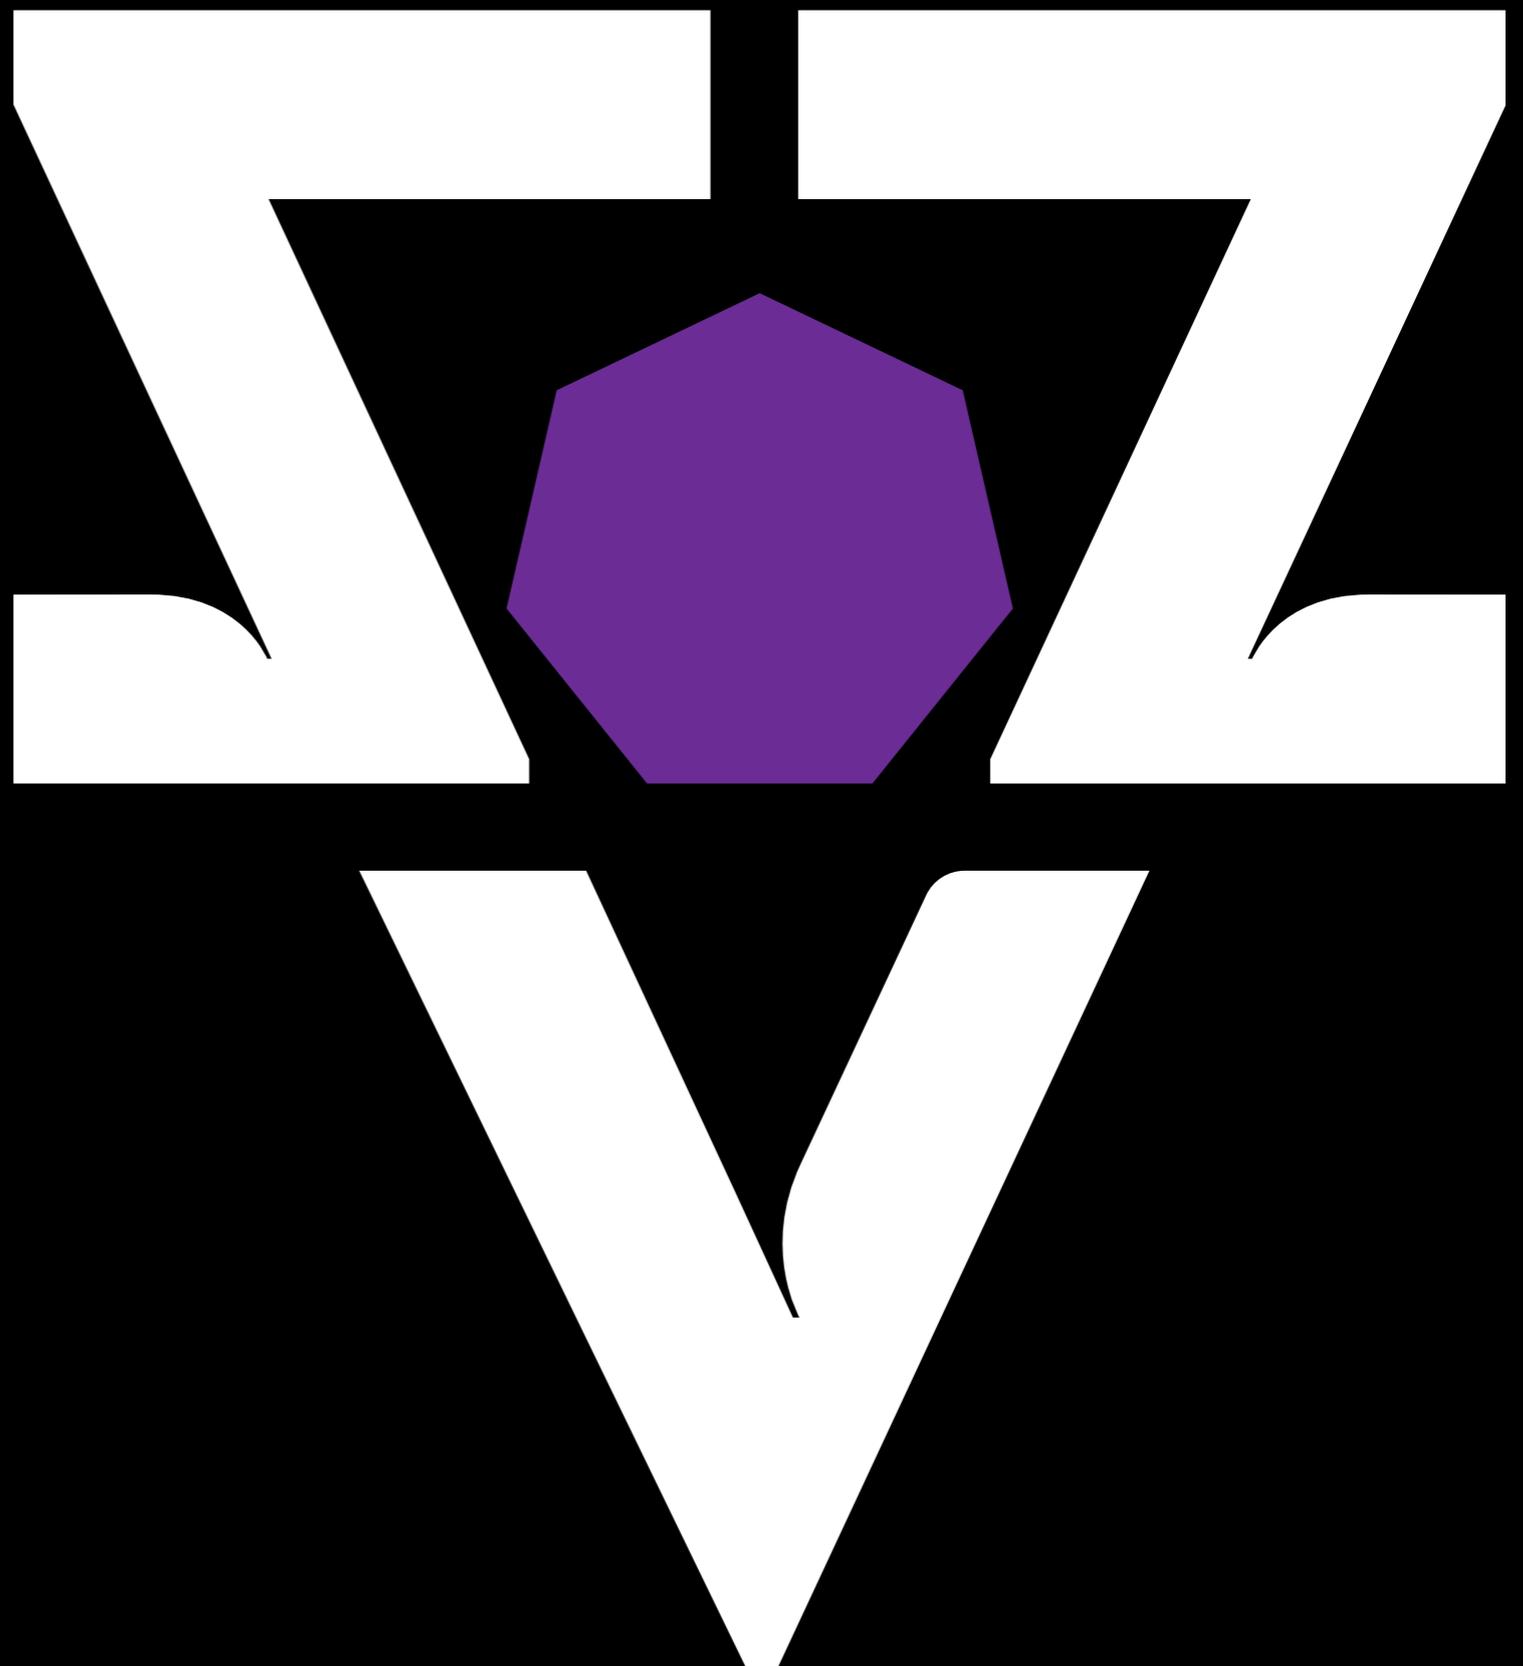

ZeedVault Inc.

# SEED ICON

The official logo to identify hemp and cannabis seeds

**The Seed Icon, Defined.** Just as the green cross symbolizes dispensaries and the red cross represents hospitals, the **Seed Icon** is the universal symbol for seeds. Created here at **ZeedVault**, this icon represents our commitment to setting standards in the cannabis industry where none previously existed. It's a mark of quality, innovation, and leadership, embodying the essence of our mission in seed cultivation.

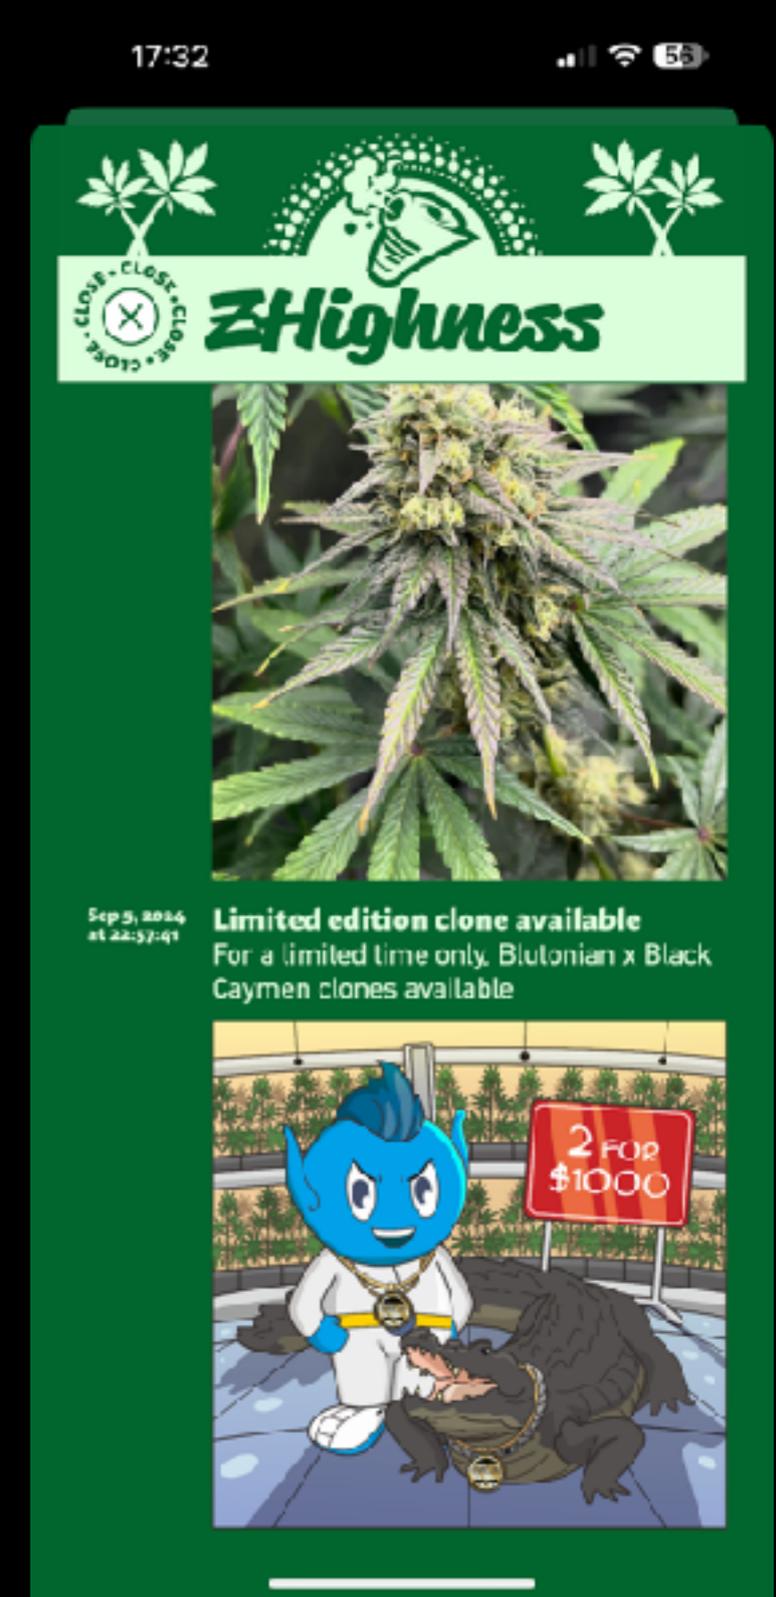

GROW THE DIFFERENCE

## Technology

# ZEEDVAULT APP

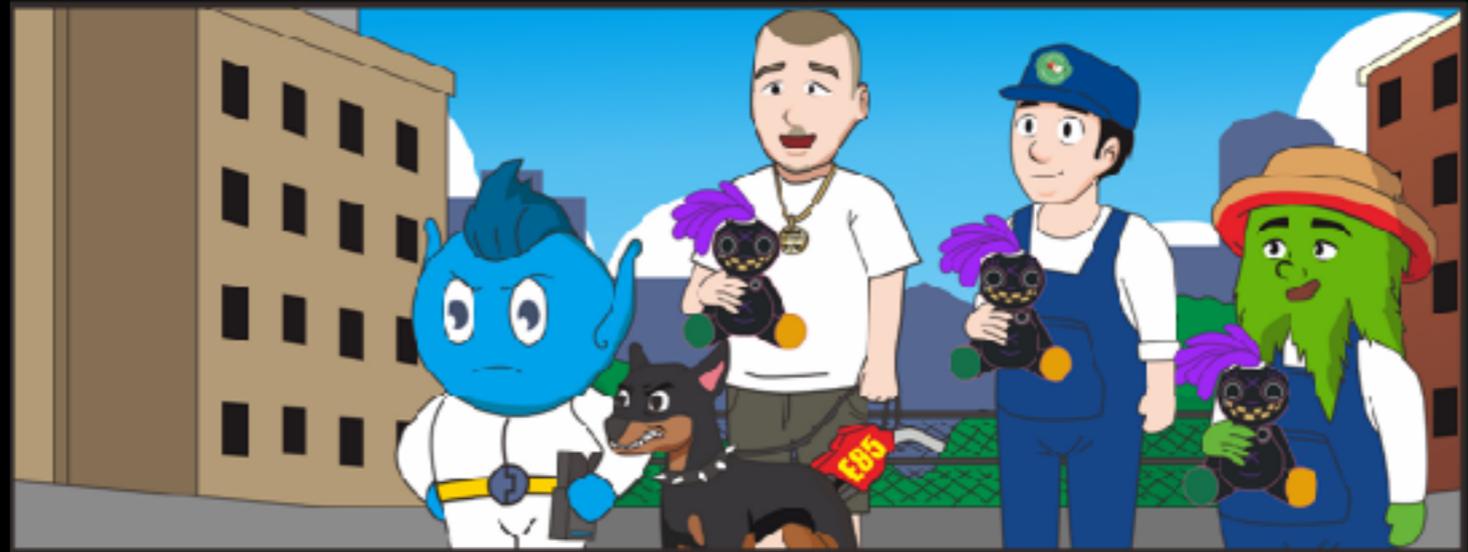

- We've teamed up with renowned artist Krissan Pattugalan to bring you something special—our very own app. This exclusive platform offers customers access to sales on seeds and coupons that you won't find on our website or email list.
- The app is the only place to follow our official newsletter, ZHighness, packed with pictures, updates, and so much more. Stay tuned for exclusive content and inside looks at our latest strains and releases, all curated to keep you at the forefront of the cannabis world.

The Cast

# THEY TELL OUR STORY

The characters that tell  
the story of our DNA

## Farmer Zeedy

**Farmer Zeedy, the legendary mascot of ZeedVault, is more than a symbol—he's the driving force behind our innovation and growth. Known for working miracles in the field, Zeedy represents excellence, resilience, and the spirit of the brand. From launching iconic strains to pioneering outdoor cultivation, he's been central to every major milestone.**

**As the star of Season One and a constant presence ever since, Zeedy's influence continues to grow with the brand. You'll often find him leading big drops, forging partnerships, or making appearances at events—always leaving a lasting impression.**

**His focus on outdoor growing pushes boundaries and sets new standards in cultivation. With Zeedy at the helm, ZeedVault's legacy is in good hands.**

# OUR MASCOT

## Gift of Gab

**Gift of Gab, also known as Troy, is the voice behind the legend of the Haze—stories rooted in the iconic Piff from 186th Street. This wasn't just a strain, it was a movement, known for unmatched potency and flavor. Now, its DNA lives on through ZeedVault, woven into our mission and legacy.**

**Gab's influence spans generations, making him a symbol of authenticity in cannabis culture. As the main character in Season 2 - *Home of the Haze*, his story is far from over. The Piff remains central to our breeding, and Gab's presence continues to guide our most exclusive releases.**

**He's not just a storyteller—he's a living legend, and his tale is still being written.**

# HAZE MAN

## Vodou Sprinkles

**Vodou Sprinkles has taken the cannabis world by storm, gaining a massive following and becoming the face of the powerful Vodou lineage. More than just a name, Sprinkles represents the magic at the heart of one of our most prized genetic lines, elevating every cross he touches.**

**His debut in Season 3 marks a major milestone, launching a full line of pollinated strains infused with the signature Vodou potency, complexity, and mystique. Whether in a rare drop or live event, when Sprinkles is involved, you know the magic runs deep.**

**More than hype, Sprinkles' impact is real—his presence signals unforgettable genetics and a legacy still unfolding.**

# THE PLUSHIE

## Fem Dogs

**The Fem Dogs collection is a standout lineup of feminized strains, each represented by a unique dog that brings Season 4 to life. Blending strength, resilience, and top-tier genetics, these strains showcase what feminized breeding can truly achieve.**

**Led by Red Nose and Brown Nose, the Fem Dogs quickly became fan favorites, earning acclaim for their quality and character. Their rapid rise reflects the innovation behind the collection and its impact on the cannabis scene.**

**With demand still growing, the Fem Dogs are set to return, evolving with new stories and genetics that will continue shaping the future of feminized cannabis.**

**FEMINIZED  
SEASON**

## The Blutonians

**BLUTO  
ARRIVES**

**Bluto represents the raw strength and legacy of the Blutonian lineage—a symbol of quality, resilience, and refined power. His presence signals elite genetics, bringing a signature touch of excellence to every strain he touches.**

**In Season 5, Bluto steps up to pollinate an entire lineup, building on the Blue16 foundation and transforming the season with his influence. Each cross he touches carries the depth and impact of the Blutonian name.**

**More than a character, Bluto is a driving force in ZeedVault's breeding program, ensuring the Blutonian legacy continues to push boundaries and shape the future of cannabis with every drop.**

**In Season 7, Bluto's grandmother arrives with a thunderous landing and spreads feminized genetics around Earth to further the Blutonian legacy.**

## Phlying Jay

**Phlying Jay is the face of the Johnny Apples line, bringing depth and storytelling to every strain tied to his genetics. More than a mascot, he represents ZeedVault's originality and early creative roots, making his presence felt wherever his DNA appears.**

**Debuting in Season 2 and returning in Season 3 alongside Vodou Sprinkles, Phlying Jay has proven his lasting impact and versatility. Their collaboration added new layers to his legacy and highlighted his role in shaping future drops.**

**Jay's journey is far from over. With more appearances ahead, he remains a key figure in ZeedVault's evolving story.**

**JOHNNY  
APPLES**

## Grandiflora Genetics

**Mark is the visionary behind Grandiflora Genetics and a key force at ZeedVault. As the creator of the legendary Grandiflora DNA, his precision and passion have made every strain a benchmark of quality, cementing Grandiflora as a leader in cannabis breeding.**

**Throughout the seasons, Mark appears to shape groundbreaking genetics, often collaborating with iconic characters and driving innovation. His evolving role ensures that Grandiflora's influence grows with every new drop.**

**Alongside him is Prada, his partner in Grandiflora and trusted collaborator. Together, they fuel the success of both brands, pushing the boundaries of cannabis genetics into the future.**

# MISTER MARK WITH PRADA

The Terms

THE  
WAY  
WE  
TALK

# EQUATORIAL

**Equatorial cannabis strains, often labeled as *Cannabis sativa*, are known for their tall, slender structure, long flowering times, and uplifting, cerebral effects. Suited for tropical climates, they typically feature citrus, floral, and fruity terpene profiles, offering an energetic, long-lasting high.**

**However, the sativa/indica distinction is increasingly seen as outdated. Many equatorial strains show traits traditionally linked to indicas, blurring the lines between categories. Today, genetic diversity has outgrown these labels, making regional or species-based classifications less reliable.**

The Terms

THE  
WAY  
WE  
TALK

# NON EQUATORIAL

**Non-equatorial cannabis, found in regions beyond 30° latitude like Afghanistan, northern India, and parts of Europe and North America, is known for its short, bushy structure, broad leaves, and quick flowering—traits adapted to cooler, harsher climates.**

**Still, the indica/sativa distinction based on geography is often misleading. Many non-equatorial strains show effects or features linked to sativas, highlighting how diverse cannabis genetics have outgrown these traditional labels.**

The Terms

THE  
WAY  
WE  
TALK

# PROGENY

**Progeny, or offspring, are the next generation of plants created through natural or controlled pollination. In cannabis breeding, they inherit traits like structure, terpene profile, potency, and cannabinoid content from their parent plants. Breeders select parents to emphasize specific traits, shaping new strains for yield, resistance, or effect.**

**Generations are labeled as F1, F2, and so on. F1 hybrids, from two distinct parents, often show hybrid vigor—stronger growth, better yields, or improved resilience. Crossing F1s produces F2s, with each generation offering a chance to refine and stabilize traits. This multigenerational process is key to creating reliable, high-quality cannabis strains.**

The Terms

THE  
WAY  
WE  
TALK

# TERPENE

**Cannabis effects come from a mix of compounds beyond THC, mainly cannabinoids and terpenes, plus flavonoids and other metabolites. Cannabinoids like CBD, CBG, CBN, and THCV each add unique effects, working with THC through the “entourage effect” to enhance and modulate the overall experience.**

**Terpenes shape a strain’s scent, flavor, and effects. For example, myrcene may relax muscles, limonene uplifts mood, pinene boosts focus, and caryophyllene offers anti-inflammatory benefits by interacting with CB2 receptors. Together, cannabinoids and terpenes create diverse effects—relaxation, euphoria, pain relief, or focus—that THC alone can’t explain.**

# ZEEDVAULT

The greatest seed bank of all time.

*The Grandiflora / ZeedVault crew decide to shoot a music video with Gift of Gab in Washington Heights to promote the new haze crosses.*

*Vodou Sprinkles, up to trouble as usual decides to spike to the El Pure and turn the party up.*

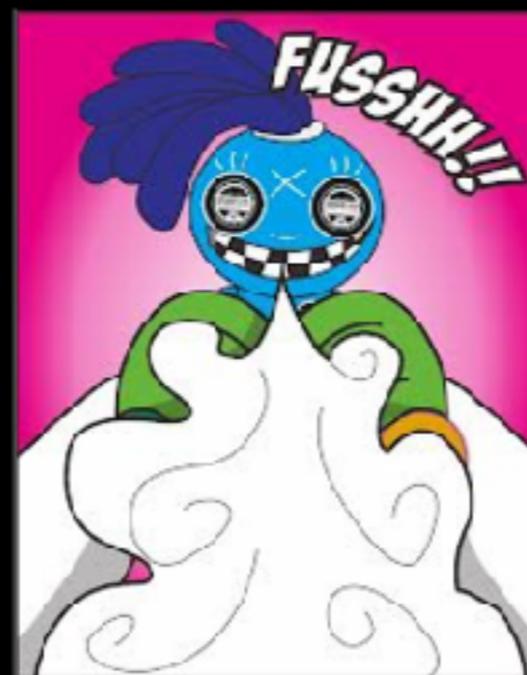

*Bluto, unamused by Vodou Sprinkles shenanigans, decides to shoot the Piff.*

*Vodou Sprinkles turns blue and just before a fight can ensue, some robbers posing as cops come to steal the Piff and more importantly, the Blue 16 stone..*

*Bluto decides to put up a fight...*

*The fake cops laugh at the Blutonian weaponry, and start spreading words of hate to ruin the day.*

*Vodou Sprinkles tries to blow smoke on the fake cops, but unknowingly, the fake cops are the smoke.*

*Realizing they can't win, they decide to open a warp hole and escape back to East Oakland.*

*The fake cops follow the smell.*

The warp hole took them to wrong jungle. Instead of East Oakland, they end up in a real jungle with a lion sitting next to the Blue 16 stone.

E85 Dog sprays the lion with gas to distract it while Farmer Zeedy grabs the chain and runs away.

*Vodou Sprinkles opens another portal sending the team to Thailand.*

*As they realize they finally evaded the fake police, it becomes time to party.*

*Let the breeding projects begin*

## Season 1

# HOUSE OF BLUE

- We hand-selected three Blue16 males from the original stock produced by Grandiflora Genetics to serve as the foundation for our breeding program. These carefully chosen males were used as fathers, enabling a controlled yet diverse range of F1 hybrids that showcase the full spectrum of Blue16 traits across different mothers.
- Our journey began in September 2022 with a mission to preserve and perfect this exceptional strain. To guarantee exclusivity and control over the release of the genetic, we acquired the entire stock of Blue16 from Grandiflora, ensuring that every drop reflects the true essence of this legendary strain.

Introducing **Season 1: House of Blue**, a premium collection of genetics that sets a new standard in cannabis breeding. Every strain released under this moniker reflects the unmistakable essence of blue – iconic, powerful, and world-renowned.

At the heart of this collection is **Blue16**, a legendary strain whose phenotypes have become staples in dispensaries across the U.S. and globally. Some of these powerhouse strains include:

- **Blue16**
- **Blue Suede (not to be confused with Blue Suede Shoes)**
- **Blues Ques**

**Blue16** stands as a masterpiece, combining the best of two cannabis heavyweights. It's a cross between **Blue Cookies**, a Bay Area favorite celebrated as one of the best strains to emerge from Oakland, and **Project 4516**, a standout Gelato 45 phenotype handpicked by Mark from Grandiflora Genetics. This unique blend forms the backbone of numerous cutting-edge breeding projects, delivering unmatched quality, flavor, and potency.

Don't miss your chance to experience the greatness of **House of Blue**—where iconic strains meet legendary craftsmanship.

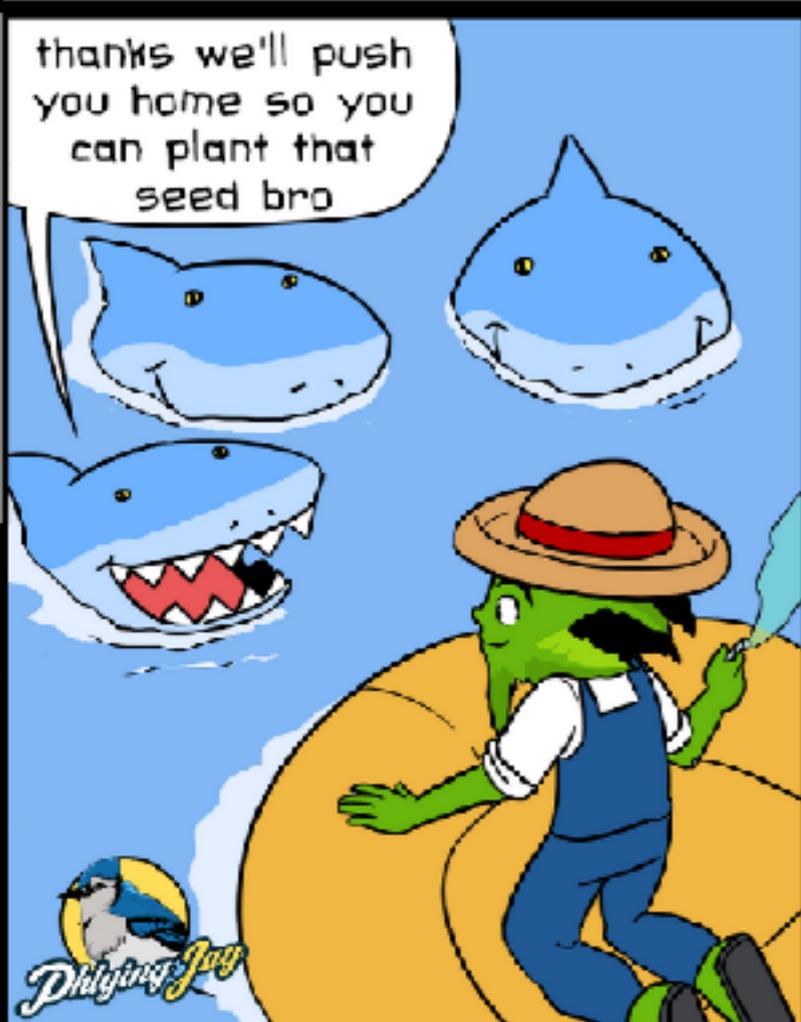

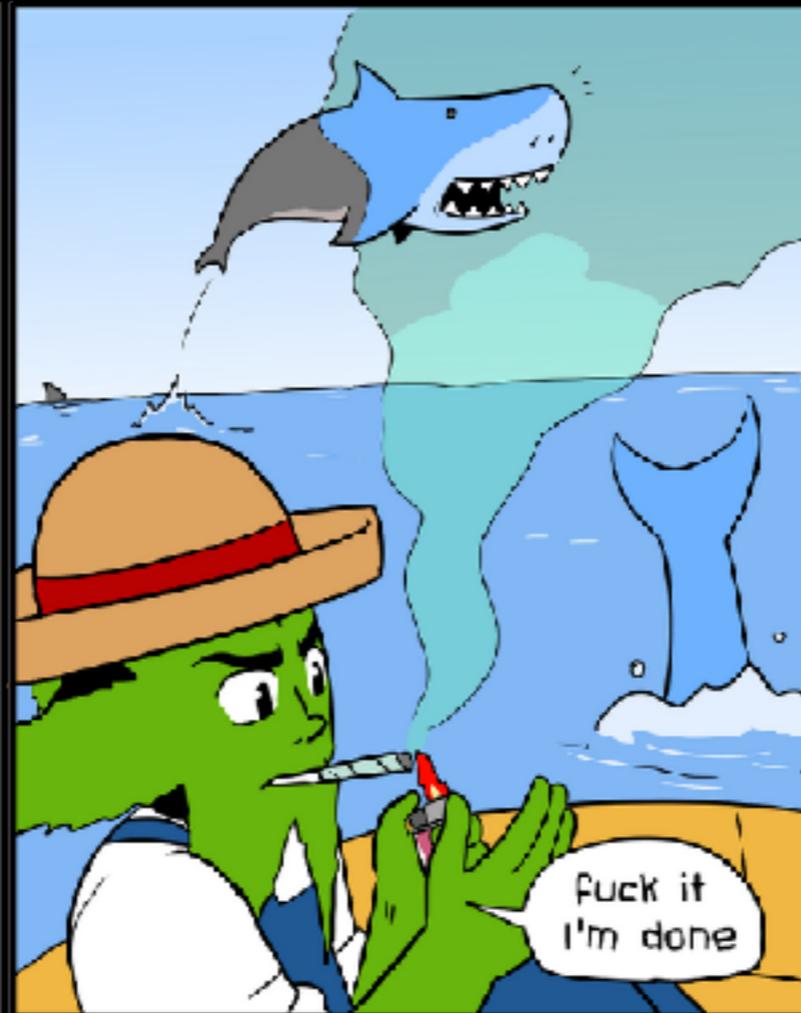

Farmer Zeedy tells the stories of the **House of Blue**.

# BLUE SHARKZ

Blue16 (m) x Rico's Runtz (f)

8-10 weeks flower time

A Bay Area classic from 2016 to 2020, Runtz has captivated enthusiasts with its unique appeal. We took Rico's prized cut and paired it with Blue16 for an exceptional cross. Rico, a seasoned breeder and original Oaksterdam graduate with over 20 years of cultivation experience, collaborated closely with us on this project. The result? A mold-resistant, loud, and medium-yielding masterpiece.

Farmer Zeedy finds himself adrift on a life raft after a day of crabbing with Mark off Ocean Beach takes an unexpected turn. As the waves carry him further out to sea, he suddenly notices white sharks circling his raft. In a moment of panic, he opens his emergency rations, only to find a hidden doobie inside. With nothing left to lose, he lights it up. To his surprise, the sharks catch a contact high and mellow out, deciding Zeedy is one of them. They nudge his raft back toward the shore, guiding him safely to land. Zeedy, grateful and relaxed, makes it back in one piece, thanks to his new aquatic friends.

# BLUE RAIN

Blue16 (m) x Rainbow Sherbet #11 (f)

8-10 weeks flower time

Rainbow Sherbet #11 took home wins at Zalympix 2021 and 2022, and we were there to witness it firsthand. Recognizing its potential, we sourced a fire cut and crossed it with our Blue16 male trio, resulting in an incredibly gassy F1 progeny. This strain not only delivers potent effects but also excels in concentrate production, with reports of up to an ounce of 90u resin per plant.

Somewhere over a rainbow, **Farmer Zeedy** sets off on a quest for gold. But instead of treasure, he stumbles upon a pot overflowing with mysterious seeds. As he marvels at his discovery, a bolt of lightning cracks the sky, sent down by none other than Thor, the God of Lightning. In the flash, Zeedy receives a divine message urging him to plant the seeds. Without hesitation, he follows the command, setting the stage for something truly magical to grow. And so, we did.

*In this unique encounter, Farmer Zeedy finds himself on International Blvd in Oakland. After a tense exchange, a local pimp hands him a special OG Kush cross as a gift. When Zeedy returns to the lab, inspiration strikes. The clone had arrived in an old blue suede shoe, and from that moment, the strain was destined to be called **Blue Suede Shoes**—a tribute to its unusual and memorable origin.*

# BLUE SUEDE SHOES

**Blue16 (m) x 92 LA OG (f)**

**9-11 weeks flower time**

**OG has been a beloved California classic since the early '90s, and for Season 1, we brought it back with a twist. We sourced the legendary '92 LA OG and crossed it with Blue16, resulting in an F1 progeny that stays true to its OG roots while introducing subtle hints of Blue16. The outcome? OG-dominant plants with impressive yields and a fresh take on a timeless favorite.**

# BLUE NOSE

Blue16 (m) x (E85 x Doggy Bagg) (f)

8-9 weeks flower time

Our top seller from Season 1, a true standout among all keepers. The majority of the F1 progeny closely resemble E85 x Doggy Bagg, so much so that most will assume you're growing the original cross. Be mindful of humidity, as this plant tends to get extremely sticky and a bit bushy, which can pose challenges in tight spaces. However, if you've got your environment dialed in, you're in for some of the loudest flower you've ever experienced.

*In this playful scene, Farmer Zeedy casually tosses a seed for his dog, Blue Nose, to catch. Just as Blue Nose grabs it, Zeedy remembers it's time to water his plants. As he tends to his garden, he notices Blue Nose digging and planting the seed in the soil. Intrigued, Zeedy watches as time passes and the seed grows into a strong, vibrant plant. The result? A new strain, fittingly named after his loyal companion—**Blue Nose**.*

# BLURRICANE

**Blue16 (m) x Slurricane (f)**

**8-9 weeks flower time**

**E-40, Bay Area legend, introduced the world to Slurricane, and as an Oakland-based company, it was only fitting to honor his legacy by crossing it with our iconic Blue16. The resulting F1 progeny offer a unique blend of Slurricane's signature terpenes with the unmistakable essence of Blue16. The terpene profile is a blurred yet harmonious mix, creating a fusion that pays tribute to both the legend and the strain.**

*Farmer Zeedy decided to experiment by adding **Slurricane** instead of traditional sugars to his **Blue16** plant. The outcome was nothing short of remarkable. The plant responded with a boost in terpene complexity and potency, creating a strain that exceeded all expectations. The fusion of Slurricane's sweetness with Blue16's already powerful profile resulted in a unique masterpiece that left everyone in awe.*

# THERE'S MORE

- Blue16 (m) x Project 4516(f) 

**HOUSE OF BLUE**

**5 REGULAR SEEDS PER PACK**

**MSRP \$50**

## Season 2

# HOME OF THE HAZE

- We've revived one of New York City's most iconic strains, the '98 Uptown Haze. Known by its legendary street name, "El Puré," this strain has a phenotypic expression that closely mirrors the original.
- We've partnered with Gift of Gab, a legend from 186th & Audubon, as the genetics were preserved from his flower, an S1 dating back to 1998.

## Season 2: An Equatorial Twist to Our Genetics

Season 2 brings an exciting equatorial twist to our genetic offerings, with a special focus on our El Puré crosses. We've meticulously selected phenotypes that excel in yield, structure, and terpene production, ensuring that the unique qualities of haze are prominently featured in every hybrid. The goal was simple: to let the signature haze shine through while enhancing it with modern traits.

Additionally, for those looking to work with pure haze genetics, we've released a backcross of the haze to itself, giving breeders direct access to its classic lineage and timeless traits.

## The Origins: A Blend of Vision and Collaboration

This season also celebrates a collaboration of visionaries. Farmer Zeedy teams up with Gift of Gab, alongside entrepreneur Phlying Jay, who is crafting a strain reminiscent of Apples. Through careful selection, Phlying Jay discovered the perfect flavor profile with Johnny Apples, a strain that hits all the right notes. This project draws inspiration from Washington Heights, the birthplace of the legendary haze, infusing its rich history into our modern breeding work.

Season 2 is not just a continuation but a step forward, combining classic genetics with fresh, innovative touches to create something truly special.

It all began in Washington Heights, **Home of the Haze**.

# GOT PIFF?

**Haze is a legendary strain that traces its roots back to Miami, home to a strong Cuban influence. However, rumors suggest that it was the American hillbilly hippies who, in the 1980s, introduced the growing techniques to the Cubans. This collaboration eventually led to the birth of Miami Haze.**

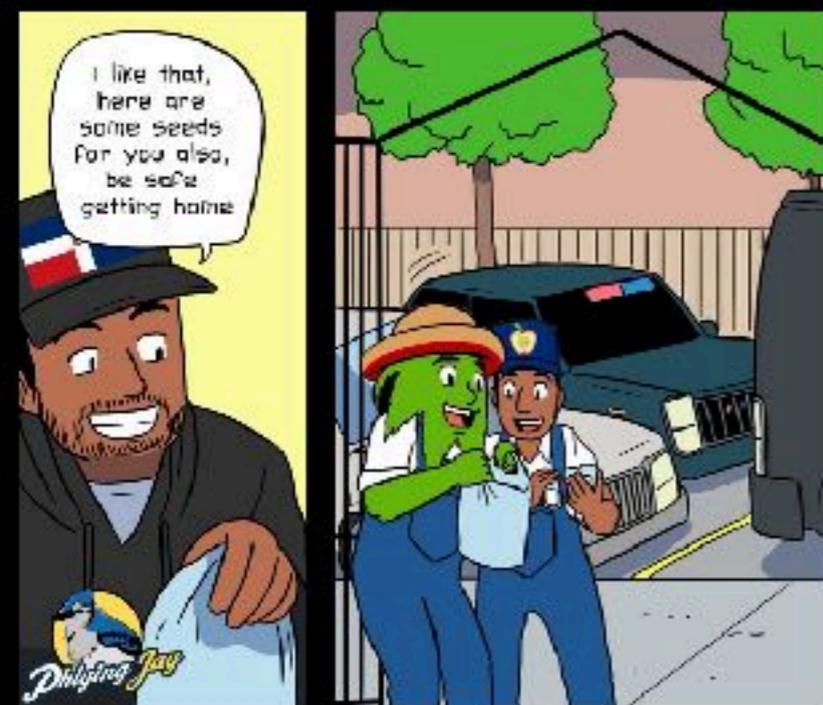

**Dominicans, with deep ties to the Cuban community, played a crucial role in spreading this strain. As the Cubans began working with the Dominicans, the Miami Haze—often referred to as Miami Black—made its way from Florida to Washington Heights, New York. At the time, Jamaicans were dominating the scene, selling Black Chocolate Thai, but as Miami Haze crept into the market, it quickly gained a following and eventually became a phenomenon in the cannabis world.**

# EL PURÉ

98 Uptown Haze (m) x 98 Uptown Haze (f)

10-12 weeks flower time

El Puré hails from the late '90s Uptown Haze, backcrossed to itself for enhanced stabilization. This legendary cut, sourced from Troy aka Gift of Gab at 186th between Audubon and St. Nicholas, remains a timeless classic. Known by some as Green Haze, others as "dat Piff" or "189," and often simply regarded as the greatest strain ever, it has earned its iconic status in cannabis history.

*A typical trip uptown to Washington Heights immerses you in a vibrant neighborhood rich with bustling bodegas, graffiti, and a distinct scent in the air, Washington Heights—home of the Haze—is a journey into NYC's cannabis culture. From 186th and St. Nicholas to secret local spots, every visit is a rite of passage for those chasing the finest smoke and stories.*

# PURÉ CHEMISTRY

98 Uptown Haze (m) x The Chemist (f)

8-10 weeks flower time

The Chemist is the Connected cut of Chemdawg crossed with an unknown strain (we'll leave that for them to reveal). We found a seed in an eighth and decided to cross it with Piff. The result is an F1 progeny that produces dense, short, and fat nuggets with a strong Chemdawg dominance, delivering intense chemical gas notes throughout.

*In this cartoon, Gift of Gab and Farmer Zeedy are deep in the lab, brainstorming their next big idea. Surrounded by bubbling beakers and glowing lights, inspiration strikes—they decide to drop the legendary El Puré seeds into a beaker of green liquid labeled "Green Juice." Suddenly, the beaker begins to shake, and out of nowhere, vibrant buds sprout from the top, filling the room with a powerful aroma. They stand back in awe of their creation, proudly dubbing it **Puré Chemistry**—a breakthrough in cannabis history.*

# JOHNNY APPLES

98 Uptown Haze (m) x Moonbow (f)

10-12 weeks flower time

El Puré x Moonbow: Introducing Johnny Apples

Johnny Apples is the culmination of crossing El Puré with Moonbow, resulting in an incredibly fire strain with an aroma reminiscent of Apple Fritter and other apple varieties. This beauty stands out as one of the most visually striking plants we've ever grown, boasting exceptional pest and mold resistance along with flawless structure.

ONE DAY AN APPLE FELL IT CRACKED IN HALF, AND OMG THERE WERE WEED SEEDS IN THERE

THE REST IS HISTORY

*In this pivotal cartoon, Phlying Jay is carefully planting a new apple tree in his growing orchard. As he surveys the grove, he notices one of the apples has fallen and cracked open. To his surprise, inside the apple are not its usual seeds but cannabis seeds. Stunned, he realizes fate has handed him something truly special. From that moment, a new chapter begins—the apple grove would never be the same, and the rest is history.*

# THERE'S MORE

- 98 Uptown Haze (m) x Grandie Tangie (f)

**HOME OF THE HAZE**

**5 REGULAR SEEDS PER PACK**

**MSRP \$50**

## Season 3

# VODOU SPRINKLES

- **Vodou**, a cross between **Yadada** and **E85 DoggyBagg**, is often referred to as “**Blue Razz**” by its producers. For **Season 3**, we took a male **Vodou x 4516** and crafted something truly special for season 3.
- These seeds, released under the **Grandiflora Genetics** brand, were produced by **ZeedVault** and are sold as an official **Grandiflora Genetics** product, bringing together the best of both worlds in one powerful lineage.

## Season 3: Sprinkles Pollinates the Nation

Welcome to Season 3, our most extensive selection drop yet, featuring a wide array of unique crosses and F1 progeny. The seeds come elegantly packaged in **Let the Pack Talk** jewelry boxes, complete with the **Grandiflora Genetics** logo and presented in sleek white leather.

At the heart of this season is **Vodou Sprinkles**, a beloved character who has gained fame not only for his genetic influence but also as a plushie, making appearances at major cannabis events. He’s even earned his own Instagram following at [@VodouSprinkles](#).

The offspring from these new crosses carry subtle hints of **Vodou**, though the mother plants take center stage, introducing fresh DNA and reinforcing the genetics of several classic strains. Season 3 is all about blending tradition with innovation to create something truly extraordinary.

# A SHORT FILM

*In this animated scene, **Tutor Babi** places an order for a **Vodou Sprinkles** doll and some **BlueDou** seeds. When the package arrives, Babi eagerly plants the seeds and, out of curiosity, sets the **Sprinkles doll** next to them. To Babi's astonishment, the magic of the Vodou Sprinkles doll kicks in, and the plant begins to flower instantly. Left in awe, Tutor Babi marvels at the incredible power of the doll and the vibrant, fast-growing BlueDou plant.*

# BLUEDOU

Vodou Sprinkles (m) x Blue16 (f)

9-10 weeks flower time

**We took the best keeper cut of Blue16 and make this classic. The run was very limited and all of the f1 progeny were similar in look to Blue16 with varying terpene expressions. There are growers who've purchased this and won cannabis cups. Consider it our gift to the people.**

*In this unforgettable cartoon, Mark hurls the dolls at his Blue16 plants, and the collision sparks something extraordinary—a cross for the ages. The result is a fusion of genetics that transcends expectations, combining the best traits of both worlds to create a strain that will be remembered for generations.*

*On vacation with his trusty Sprinkles doll, Farmer Zeedy stumbles upon a woman selling fruit at a roadside stand. Intrigued by her selection, he approaches to buy some, but instead, she offers to take him somewhere special. Curious, Zeedy follows her down a winding path until they arrive at a hidden sanctuary, where the walls are adorned with Sprinkles dolls of every imaginable color.*

*At the center of the room stands a shaman, who silently takes Zeedy's doll and throws it into the fire. As the flames rise, something extraordinary happens—out from the fire emerges **LCV**, a new creation born from the mystical transformation of Sprinkles. Zeedy watches in awe, realizing he has just witnessed the birth of something truly magical.*

# LCV

**Vodou Sprinkles (m) x Lemon Cherry Gelato (f)**

**8-10 weeks flower time**

**Lemon Cherry Gelato, a fan favorite was crossed with Vodou Sprinkles to create a truly unique F1 progeny. The result? A strain with an almost burnt rubber aroma, offering a complex flavor profile where you can taste both the mother and father plants. Depending on the phenotypic expression, some plants lean more toward the sweetness of Lemon Cherry Gelato, while others embrace the bold, distinct notes of Vodou Sprinkles, making each one a special experience.**

*In this unforgettable cartoon, Mark hurls the dolls at his Grandi Tangie plants, and the collision sparks something extraordinary—a cross for the ages. The result is a fusion of genetics that transcends expectations, combining the best traits of both worlds to create a strain that will be remembered for generations.*

# TADOW

**Vodou Sprinkles (m) x Grandi Tangie (f)**

**9-11 weeks flower time**

**Some say a plant can yield up to 4 pounds per plant of flower material, but this is the only strain we've seen live up to that claim. A cross of Grandi Tangie and Vodou Sprinkles, it carries subtle hints of Vodou, though most of the F1 progeny we tested lean about 80/20 toward the Grandi Tangie side. This high-yielding, orange citrus hybrid delivers impressive volume, promising a generous return with its bountiful harvests and vibrant flavors.**

Prada and Gift of Gab join Farmer Zeedy for a trip to Times Square, eager to catch a whiff of the legendary *piff*. As they soak in the iconic atmosphere, *Sprinkles* spots a massive billboard glowing in the neon lights. Feeling inspired, *Sprinkles* taps into his magic, and suddenly, a shower of *Quisqueaya* flower rains down on the tourists below, surprising everyone with a burst of cosmic energy. What started as a simple adventure to find the *piff* turned into something far more extraordinary, with *Sprinkles* leaving his magical mark on the city that never sleeps.

# QUISQUEYA

Vodou Sprinkles (m) x El Puré (f)

10-12 weeks flower time

The El Puré-dominant F1 progeny showcase the legendary haze characteristics with subtle hints of Vodou woven into their profile. For those willing to hunt through the F1 generation, there's a chance to uncover phenotypes that express more recessive traits. These hidden gems resemble the classic Purple Haze, but with a modern twist—enhanced flavors, structure, and potency that bring this timeless strain into the present day.

# JOHNNY SPRINKLES

**Vodou Sprinkles (m) x Johnny Apples (f)**

**8-10 weeks flower time**

**Phlying Jay and Farmer Zeedy are busy selling their famous Apples, but once Jay realizes just how special his Apples truly are, he takes things to the next level. He sprinkles the Apples with Vodou Sprinkles, creating the unique strain known as Johnny Apples. This new creation retains the essence of the original Johnny Apples but introduces a subtle hint of blueberry on the side, adding a fresh twist to the already beloved strain.**

*Phlying Jay and Farmer Zeedy tap into their entrepreneurial spirit, using **Vodou Sprinkles** to elevate their already sought-after product. The result? A next-level creation that has everyone talking—and waiting. It's no surprise the lines are so long, as customers eagerly anticipate the magic behind this enhanced offering, drawn by the buzz and the irresistible allure of the perfected strain.*

## **LCG SEASON**

## **10 REGULAR SEEDS PER PACK**

## **MSRP \$50**

## Season 5

# FEM DOGS

- E85 DoggyBagg takes center stage in Season 4 as we reversed it to produce our first-ever feminized seed run.
- For this groundbreaking release, we selected some truly exceptional genetics, including the introduction of Thai Sticks, inspired by our adventures deep into Thailand.
- This feminized collection marks a new chapter for us, combining the star power of E85 DoggyBagg with rare and exotic influences, delivering a unique lineup that celebrates both tradition and innovation.

## Season 4: Feminization Matters

After closely listening to the feedback from our first three seasons, one request consistently rose to the top—**feminized seeds**. In response, we made it our mission to deliver exactly what our community was asking for in **Season 4**. For this groundbreaking release, we selected our finest non-equatorial strain, a powerhouse **super indica cross of E85 x Doggy Bagg**, celebrated for its potency and robust growth structure. This strain, known for its exceptional qualities, set the perfect foundation for our first feminized line.

To create this highly anticipated collection, we employed a reversal technique on our standout strain and crossed it with a handpicked selection of top-tier genetics. These genetics were meticulously gathered from our years of journeys, collaborations, and breeding, ensuring a diverse range of feminized seeds. Each seed in this collection offers not only the ease of cultivation that feminized seeds are known for but also a wealth of unique phenotypes that express a rich blend of traits, from structure to terpene profiles, giving growers access to something truly special.

The pedigree of these strains speaks for itself. **E85** took home the title of “gassiest flower” at the **2021 Zalympix**, and **Doggy Bagg** has earned its own legendary status through a release by **Cookies**, in partnership with **Snoop Dogg** and **Grandiflora Genetics**. Season 4 marks a significant evolution for us, combining accessibility with the high-quality genetics we’re known for, and meeting the demand for feminized seeds without compromising the integrity of our exceptional strains.

# BROWN NOSE

**E85 Doggy Bagg (f) x Chocolate Jack Herrer (f)**

**8-10 weeks flower time**

**We were advised to hold onto this strain indefinitely, as its medicinal effects are undeniably powerful from the first experience. The F1 progeny present a rich gassy chocolate terpene profile with subtle hints of Chocolate Thai—though from a different genetic lineage. This non-equatorial leaning cross stands out from the rest, offering a unique and worthwhile growing experience unlike anything we've encountered before. It's truly one of a kind.**

*A group of dogs gather in a bar, each on the lookout for a companion. After some playful banter and a bit of rabble-rousing, one of them teases the brown dog, calling him a “brown noser.” Without missing a beat, the brown dog snaps back with a smirk, “Well, I taste like chocolate.” The whole bar goes silent for a second, and then erupts in laughter. It’s an unforgettable moment, one that no one will let him live down.*

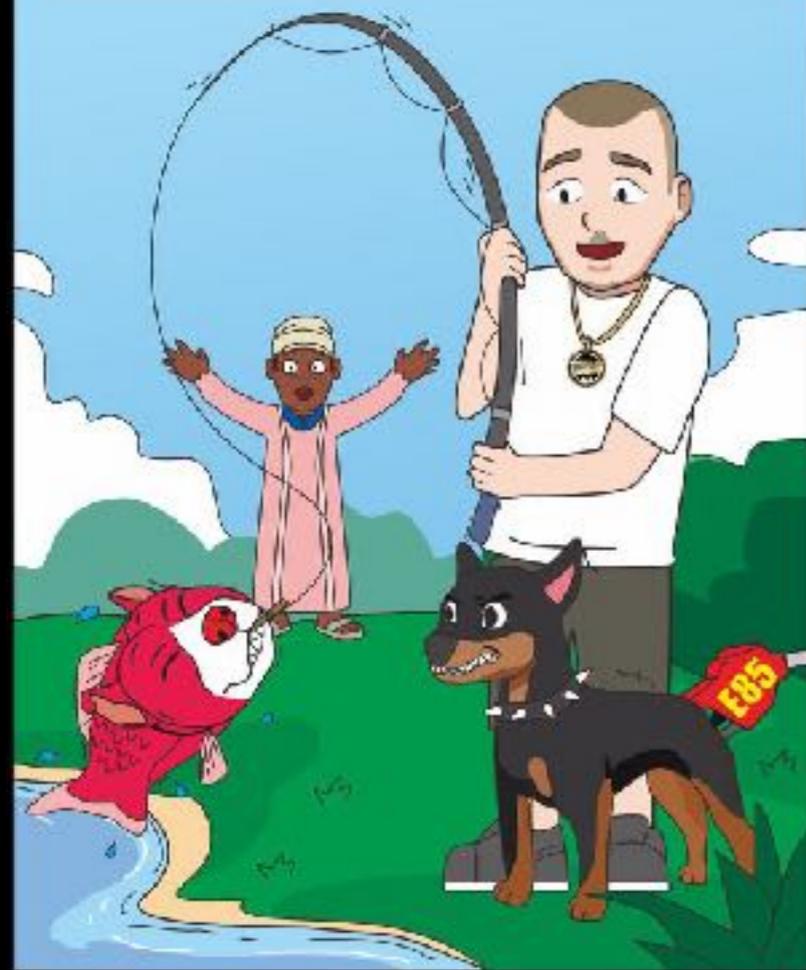

# RED NOSE

E85 Doggy Bagg (f) x LCG (f)

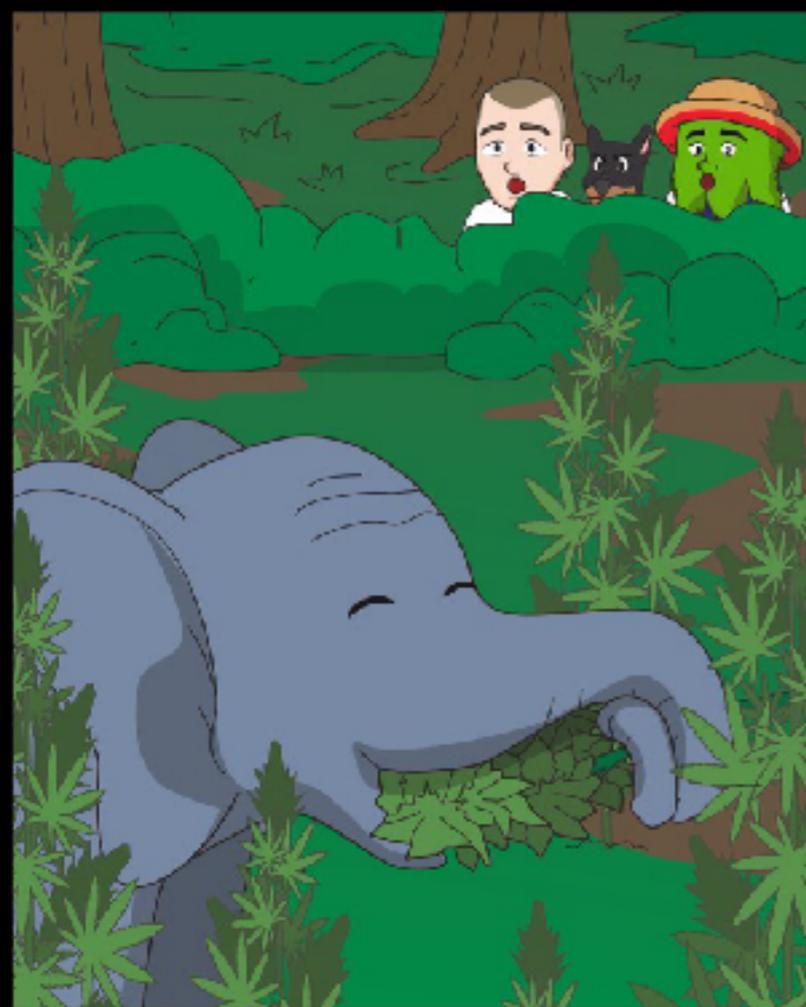

8-9 weeks flower time

If you're chasing the hype, this is it. Red Nose merges the gassy punch of Lemon Cherry Grape (LCG) with the top-tier genetics of Grandiflora, resulting in a strain that truly lives up to its reputation.

Every F1 in the batch is a keeper, specially for those seeking a powerful on-equatorial gas profile. With a potent blend of lemon, cherry, and grape gas, Red Nose stands out in flavor, potency, and uniqueness, making it an absolute must-grow for any serious cultivator looking to elevate their collection.

Mark heads out fishing with an E85 Dog, and to their surprise, they reel in a red nose fish. As they cook their unexpected catch, something miraculous happens—a pile of *keeper seeds* emerges from the fish, each one a treasure in its own right. It's a true miracle, marking the beginning of yet another legendary strain, thanks to this serendipitous moment on the water.

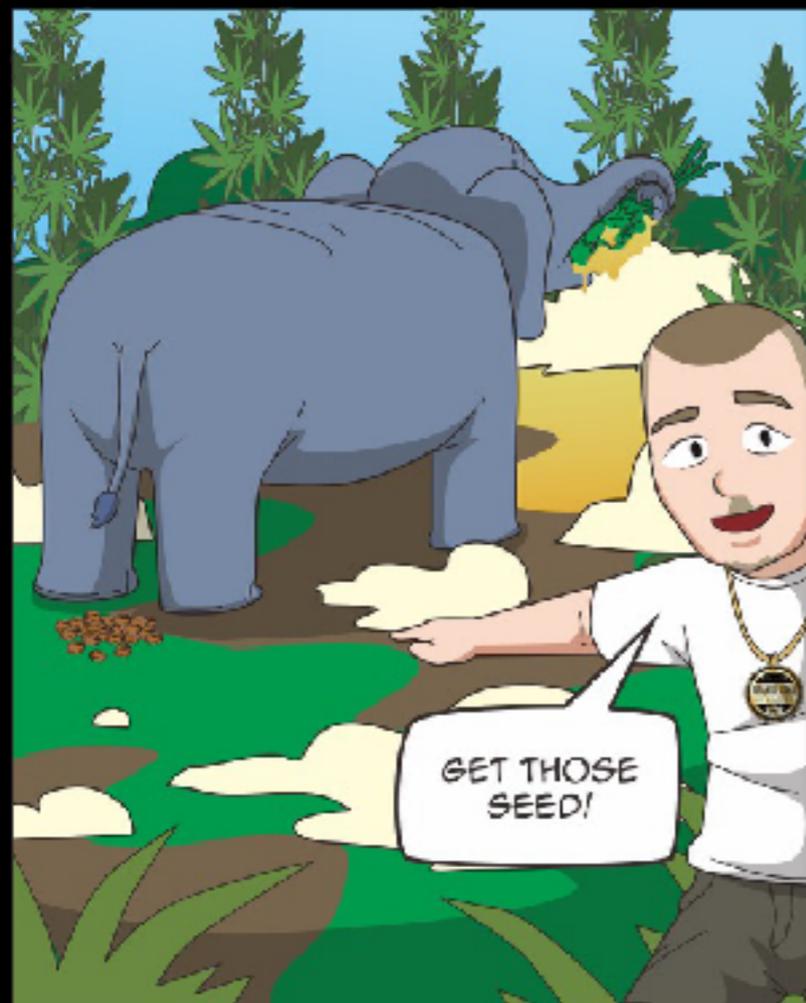

# E80 THAI

**E85 Doggy Bagg (f) x Koh Tao Thai Stick (f)**

**7-14 weeks flower time**

**Cannabis is highly dioecious, and this is the ultimate blend of extremes. Non-equatorial and equatorial extremes. Traits range from 7 to 14 weeks, cheese-like to E85, even landrace characteristics. High yielding with diverse selection of unique expressions.**

*Mark, **E85 Dog**, and **Farmer Zeedy** ventured to Thailand on a mission to find the legendary **Thai Sticks**. During their search, E85 Dog sprayed the plants that a nearby Thai Elephant was munching on. To their surprise, the elephant later pooped out seeds! Seizing the opportunity, they gathered the seeds, hopped on a boat, and brought them back to America—ready to add a new chapter to their breeding adventures.*

# BOOMER

**E85 Doggy Bagg (f) x El Puré (f)**

**10-12 weeks flower time**

**This cross leans heavily towards El Puré, while showcasing the E85 Doggy Bagg structure. Flower times lean toward equatorial, and though the terpene profile is more subtle than others, the realized gains quickly take effect. We've hunted it twice without finding a strong E85 Doggy Bagg phenotypic expression, but we believe that discovering one with recessive trait expression could unlock a generational masterpiece.**

*Mark and E85 Dog crossed paths with Boomer, and the trio wasted no time, breeding faster than a race car. By the end of their whirlwind session, they left behind a massive pile of seeds, ready to unleash a new wave of powerful genetics. It was a breeding sprint that would surely leave its mark for seasons to come.*

Mark found himself at a poker game without his trusty dog by his side and started off with a streak of bad luck. Then, he remembered he had some *E85 Doggy Bagg x Riddler* on hand. With a clever grin, he took a hit and blew smoke across the table, letting the *Riddler's* potent effects speak for themselves. Suddenly, the atmosphere shifted, and Mark's fortune seemed to change, showing that sometimes, it's all about having the right product at the right moment.

# E85 DOGGY BAGG X RIDDLER

E85 Doggy Bagg (f) x Riddler (f)

8-9 weeks flower time

Fire is fire. This strain was simply too good to release to the general public, so we made only one limited drop exclusively for ZeedVault subscribers on Instagram. With a quick flowering time and incredibly loud terpenes, this strain shows its true colors by week 7, without any environmental manipulation. It's easily one of the best crosses we've ever created, and its exclusivity only adds to its legendary status.

## Season 6

# BLUTO

- Blue16 continues its legacy through **Blutonium**, a rare and powerful stone from the distant planet **Blutonia**, known to attract **Blutonians**, an alien species with a deep connection to this unique energy source.
- In this story, **Bluto**, a **Blutonian**, lands on Earth to help tell the tale of how this extraordinary breeding project came to life.
- Considered a next-generation genetic by **Grandiflora**, **Blutonian** remains a coveted strain, actively hunted and used by many top breeders for its unmatched traits. Its enduring influence keeps it at the forefront of breeding innovation, shaping the future of cannabis genetics for years to come.

## Season 5: Blutonian Landing.

In **Season 5**, the spotlight shines on a remarkable **Blutonian** male named **Bluto** that becomes the heart of the lineup. This standout male, a powerful cross of **Blues Clues x Double Platinum Cookies x Blues Blues x 4516**, leaves its distinct mark on everything it touches—no pun intended. These exclusive **Bluto crosses**, expertly bred by Mark, are available only at **ZeedVault**.

Season 5 continues the storied legacy of the **Blue16 dynasty**, with **Blues Clues** emerging as a key selection from the original **Blue16 F1**. Each new cross this season adds depth and complexity to the ever-evolving genetic blueprint of **Blue16**, offering a fresh perspective on its powerful lineage.

A select handful of strains have been chosen for this season's release, but the journey is far from over—more exciting crosses are sure to follow as **Season 5** unfolds.

# BLUTO ARRIVES

## *How It All Happened*

*Bluto, a Blutonian from the distant planet **Blutonia**, crash-landed on Earth during a camping trip in Death Valley, where he encountered **Mark**, **Gift of Gab**, and **Farmer Zeedy**. After a chaotic introduction, the three friends helped Bluto repair his ship. In gratitude, Bluto gifted them a rare and powerful substance—**Blutonium**.*

*With this newfound treasure, the group began an extraordinary breeding project, blending Bluto's alien genetics with Earth's finest strains. This marked the beginning of a whole new chapter in cannabis breeding, forever changing the game with the introduction of **Blutonium-powered genetics**. The result? Some of the most unique strains the cannabis world has ever seen.*

*Bluto arrives just in time as **Mark**, **Farmer Zeedy**, and **Gift of Gab** are deep in a brainstorming session, debating what to cross for the upcoming season. With perfect timing, Bluto brings with him the key ingredient they didn't know they needed—**Blutonium**. His arrival sparks a wave of inspiration, setting the stage for the next legendary cross. With Bluto's extraterrestrial genetics in hand, the team prepares to launch a new season filled with groundbreaking strains that push the boundaries of cannabis breeding.*

# SOI BLUTO

Blutonian (m) x Soi 420 (f)

8-10 weeks flower time

**Soi 420**, initially released as a Thailand-only exclusive, quickly gained a reputation for its exceptional qualities. So much so that some speculate Bluto's journey to our Solar System was in part driven by his interest in this unique genetic. Upon its return, Soi 420 delivers a sweet caramel flavor profile, with high yields and subtle blueberry undertones, making it a standout among modern cultivars. Its growing popularity speaks to its undeniable allure and lasting impact on the global cannabis scene.

*Bluto makes a grand entrance at **Club Soi 420** in the heart of Nana Plaza, Bangkok, shaking things up in true extraterrestrial style. After a wild night of cosmic energy and otherworldly vibes, the club is never the same. The venue undergoes a transformation, rebranding itself as **Soi Bluto** in honor of its mysterious visitor. What was once just a popular club now becomes an iconic hotspot, forever linked to Bluto's legendary visit and the unforgettable night that marked the beginning of something extraordinary.*

# THAI BLUTONIAN

Blutonian (m) x Thai Tea (f)

9-11 weeks flower time

**Thai Blutonian**, crossed with **Thai Tea**, delivers exactly what you'd expect—an exotic blend of **vanilla, blueberries, and cream**. This unique cross offers not only tantalizing flavors but also impressive yields. The flowering time leans toward that of an equatorial variety, giving growers a robust, long-lasting cycle that enhances the plant's potential. It's a perfect fusion of tropical essence and cosmic energy, making it a standout in any garden.

*Bluto walks into a Thai Tea bar, eager to try the local specialty. He takes a sip and immediately cringes—it's not his cup of tea. Thinking quickly, he pulls out a small vial of **Blutonium** and drops some into his glass. As he takes another sip, the transformation is instant: the tea now tastes incredible, with rich, cosmic flavors blending perfectly with the Thai Tea. Delighted, Bluto shares his enhanced concoction with everyone in the bar, turning an ordinary evening into an unforgettable experience as the crowd enjoys the new, intergalactic version of Thai Tea.*

# VOUTONIAN

Blutonian (m) x Vodou (f)

8-9 weeks flower time

This ultra-exclusive drop consists of only **100 seeds in existence**, making it one of the rarest releases ever. The result is a stunning **blue-tasting, purple nugget** masterpiece with a non-equatorial flowering time, destined to dominate any cannabis cup it enters. Its scarcity adds to its allure—only **10 lucky people on Earth** managed to purchase the original seeds, which sold out in minutes. A true collector's item, this strain is as legendary as it is elusive.

*Bluto storms into the **Grandega** with an attitude, his eyes locking onto the **Vodou Sprinkles** dolls scattered around. Annoyed but determined, he pulls out his vial of **Blutonium** and sprays it on everything in sight, from the dolls to the plants nearby. The atmosphere shifts as the **Blutonium** works its magic, fusing with the **Vodou** genetics in a way no one expected.*

*With a satisfied smirk, Bluto takes off into the sky, leaving behind a new breed—an enhanced version of **Vodou** that only Bluto could create. His mission was complete, and the next chapter in cannabis genetics was officially underway.*

# OAKLAND PIFF

Blutonian (m) x El Puré (f)

10-12 weeks flower time

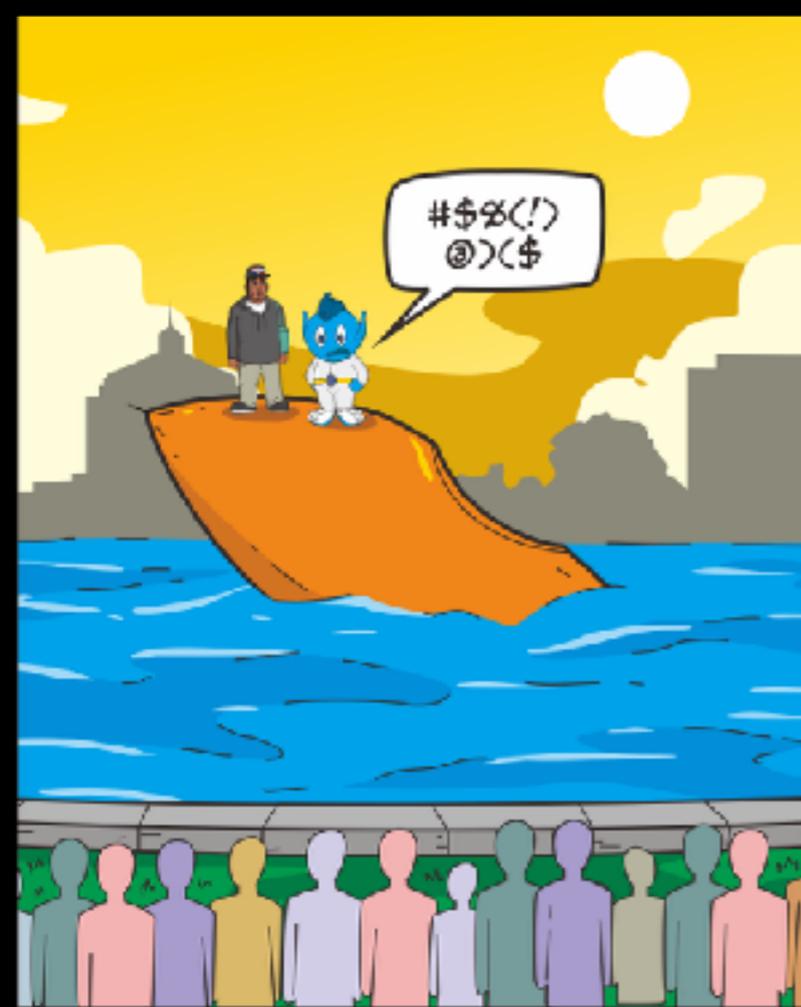

Known by various names—**High80**, **Grandi Piff**, and **Blue Piff**—this **Blutonian cross** commands a premium

price of over **\$400 an ounce** for its flower. Its deeply nostalgic profile captivates every connoisseur who

experiences it, transporting them back to the golden era of cannabis while delivering a modern twist. The

combination of rare genetics and rich flavors makes it a sought-after strain that's worth every penny.

*Bluto touches down at **Lake Merritt**, scanning the area for the elusive **Blutonium** he so desperately needs. Alongside him is **Gift of Gab**, ready to assist in the mission. Bluto knows that combining the rare **Blutonium** with the local **Piff** is key to creating something legendary. After finally locating the precious substance, Bluto mixes it with the Piff, resulting in a strain unlike any other. He christens it **Oakland Piff**, a powerful fusion of cosmic energy and local flavor, destined to become a cornerstone of the Bay Area cannabis scene.*

# BLACK CAIMAN CLONES

**Clones for Sale!**

**Our first official clone drop was a major success. We'll let the genetics speak for themselves—but just know, this is only the beginning.**

**Many more are on the way.**

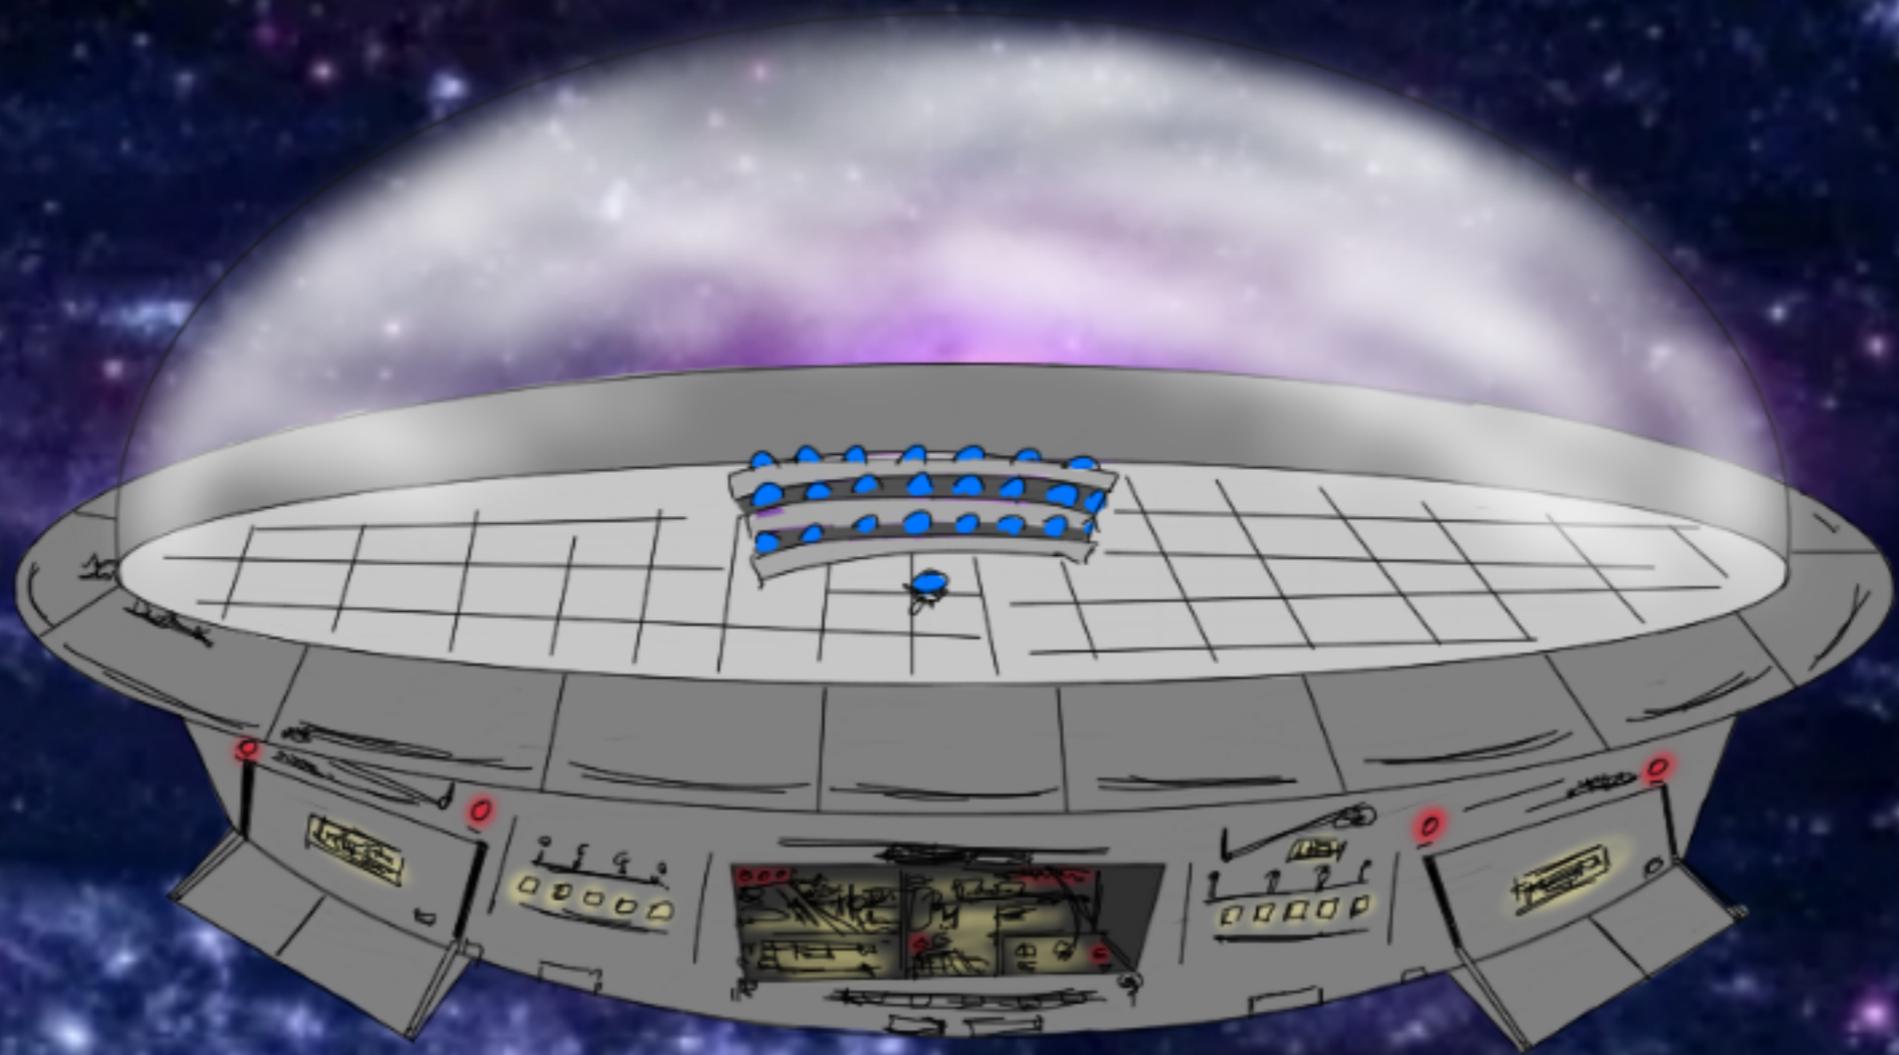

**BLUTO**

**10 REGULAR SEEDS PER PACK**

**MSRP \$200**

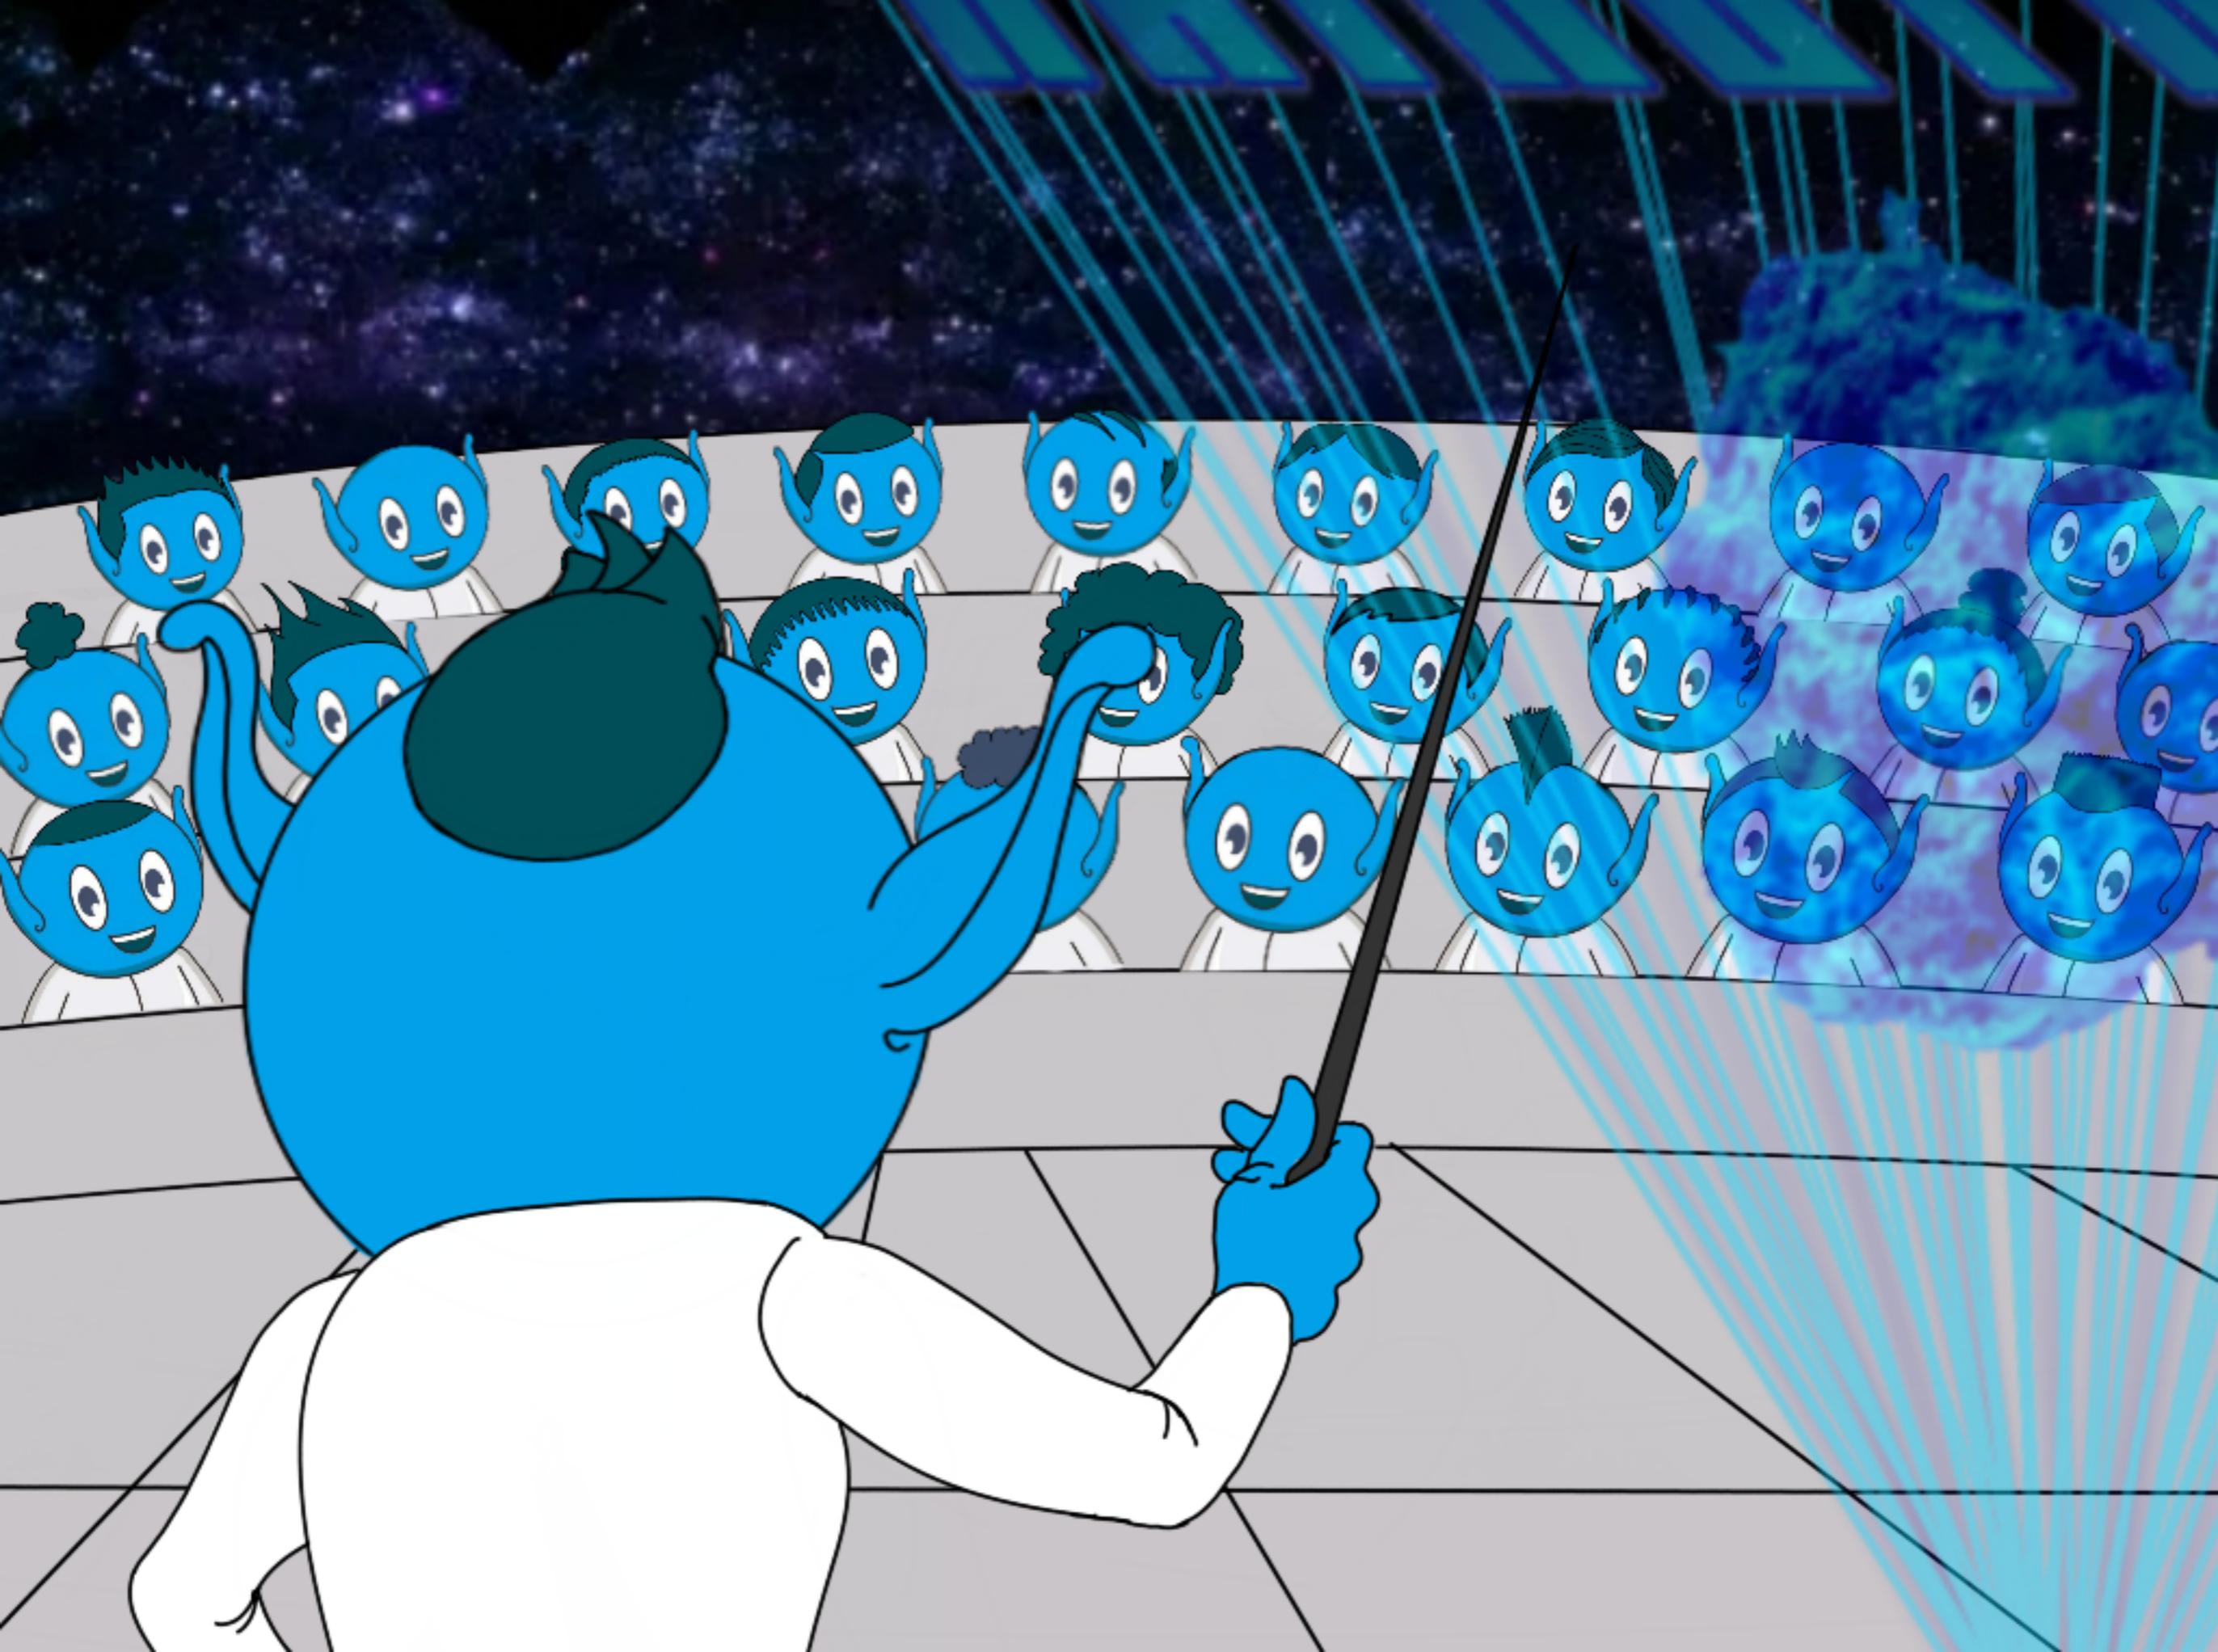

# BLUE 16 ORIGINS

# THE ORIGINS OF BLUTONIUM

Blutonium is a compound composed of 16 Blue molecules arranged in a hexagon. Blue 16 is a molecule, we write as C7 Blue 16.

**BL!**

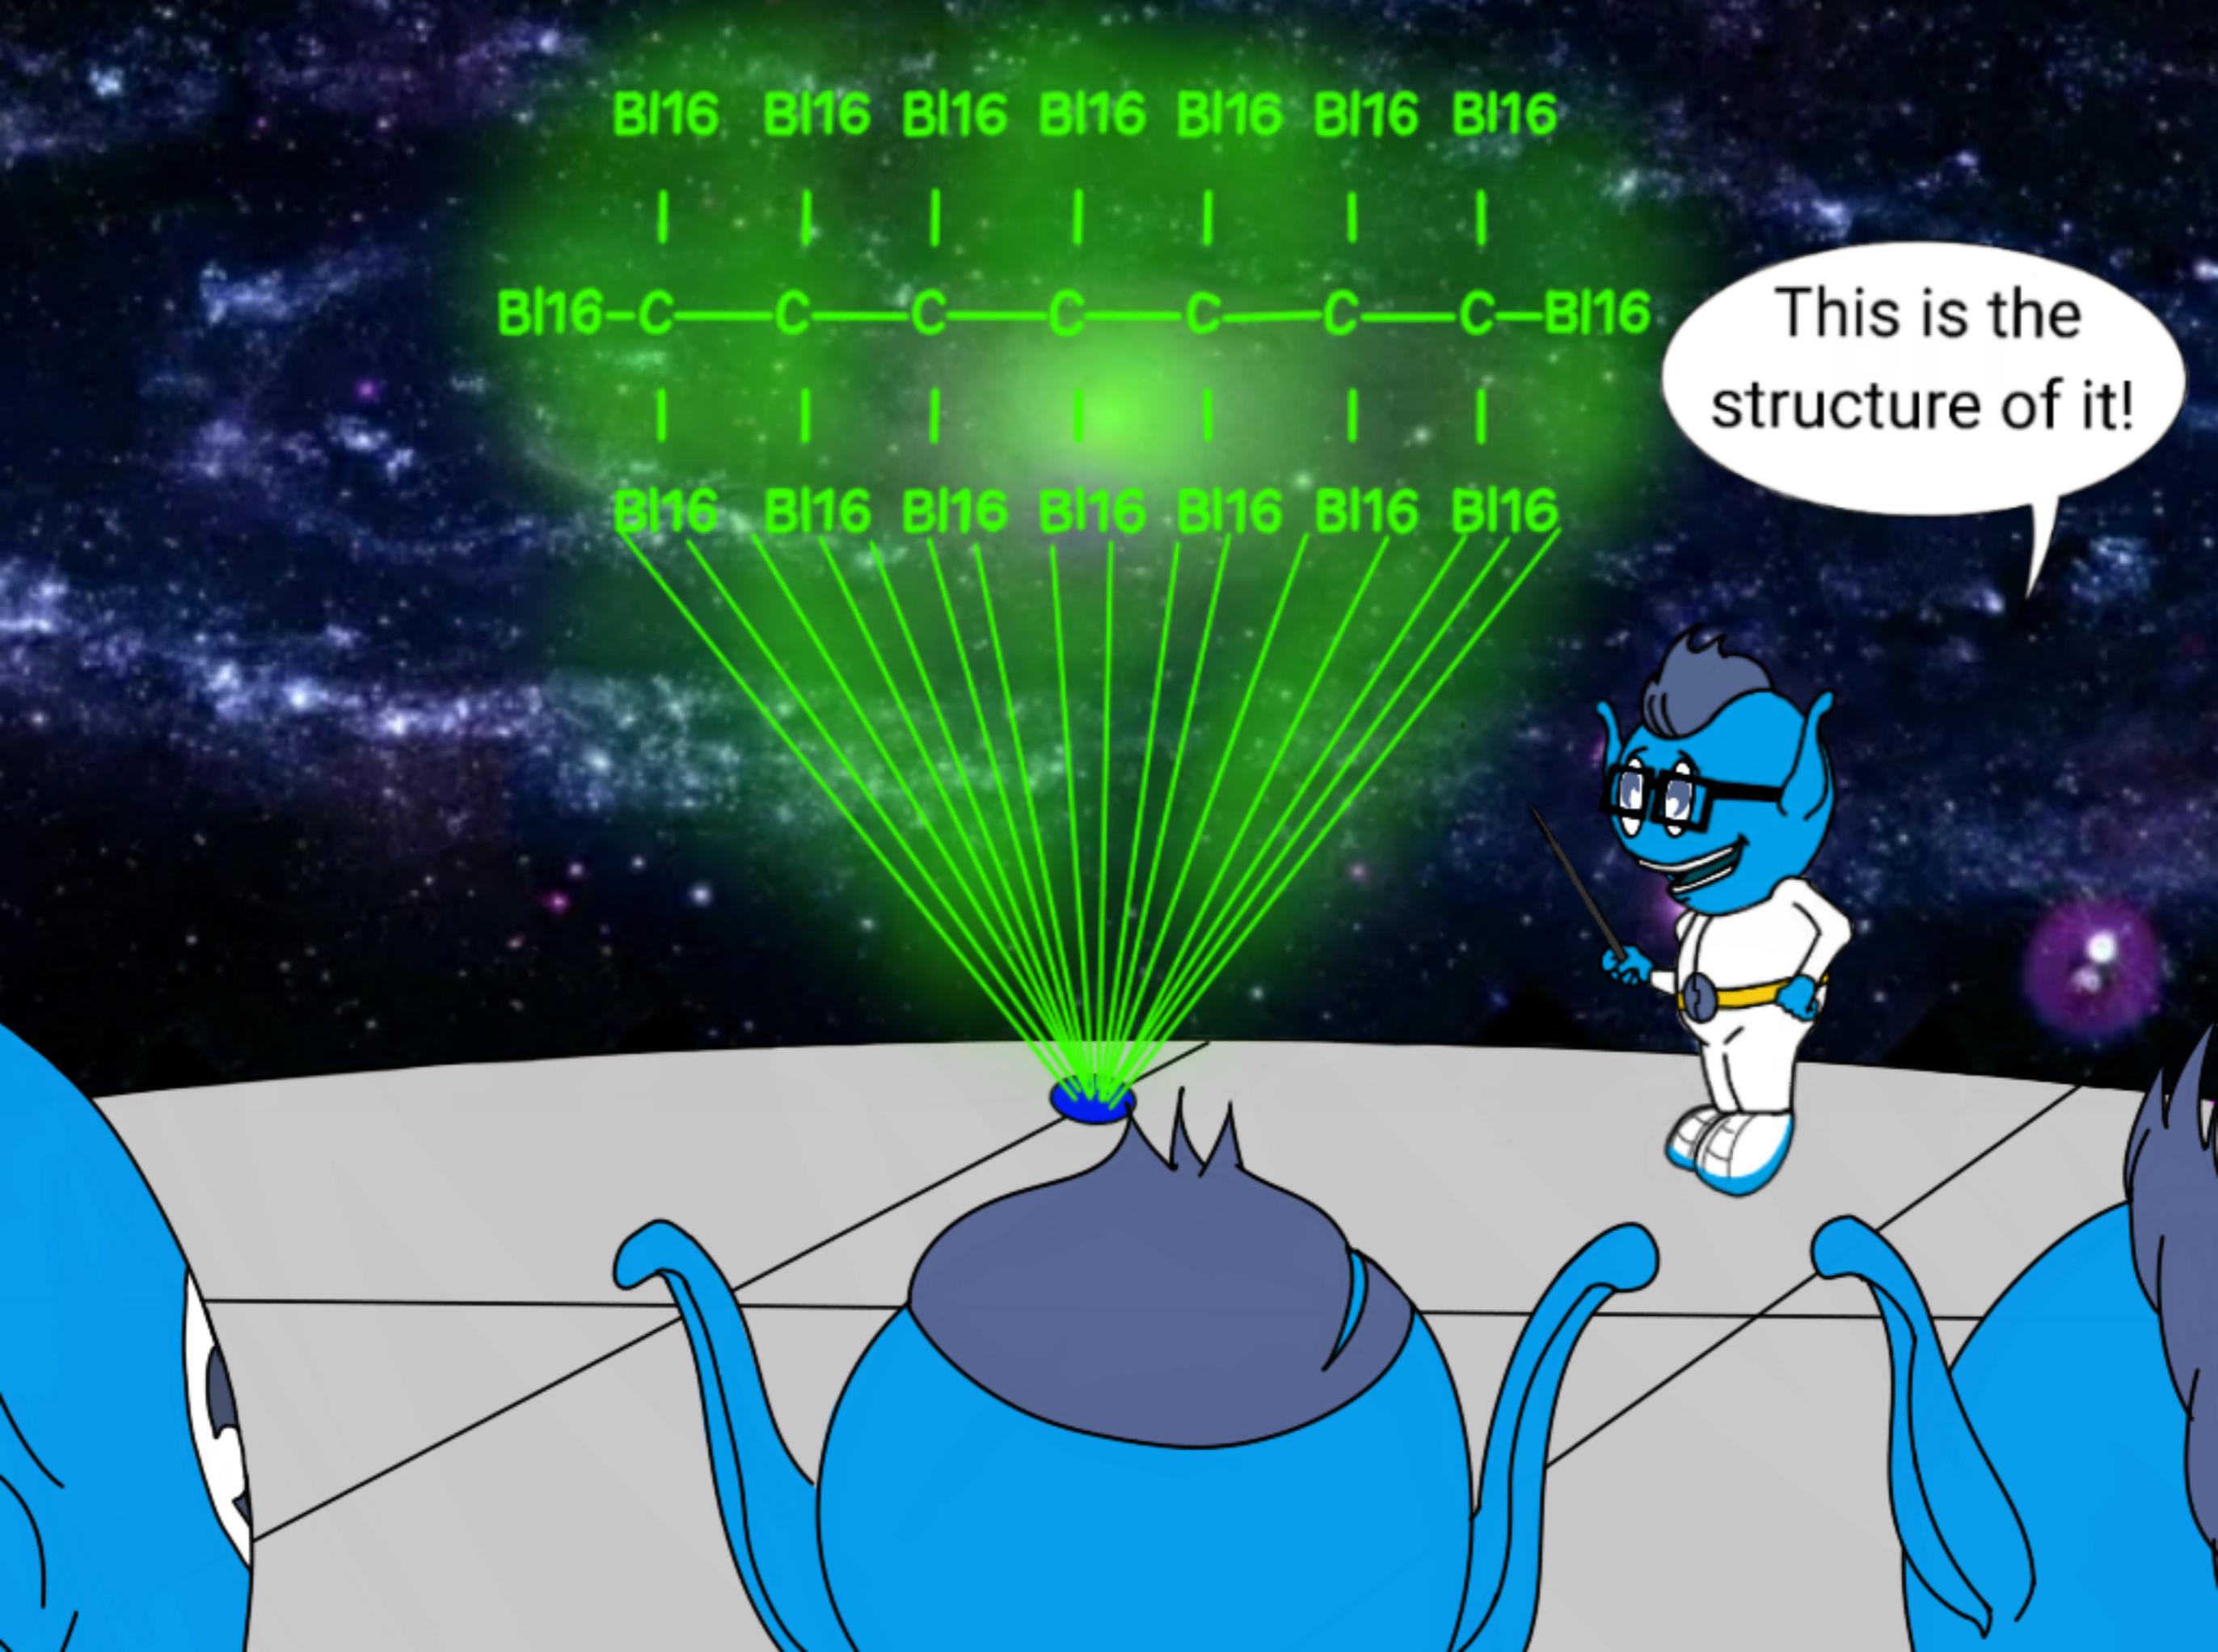

It is not native  
to Earth!

Antonium

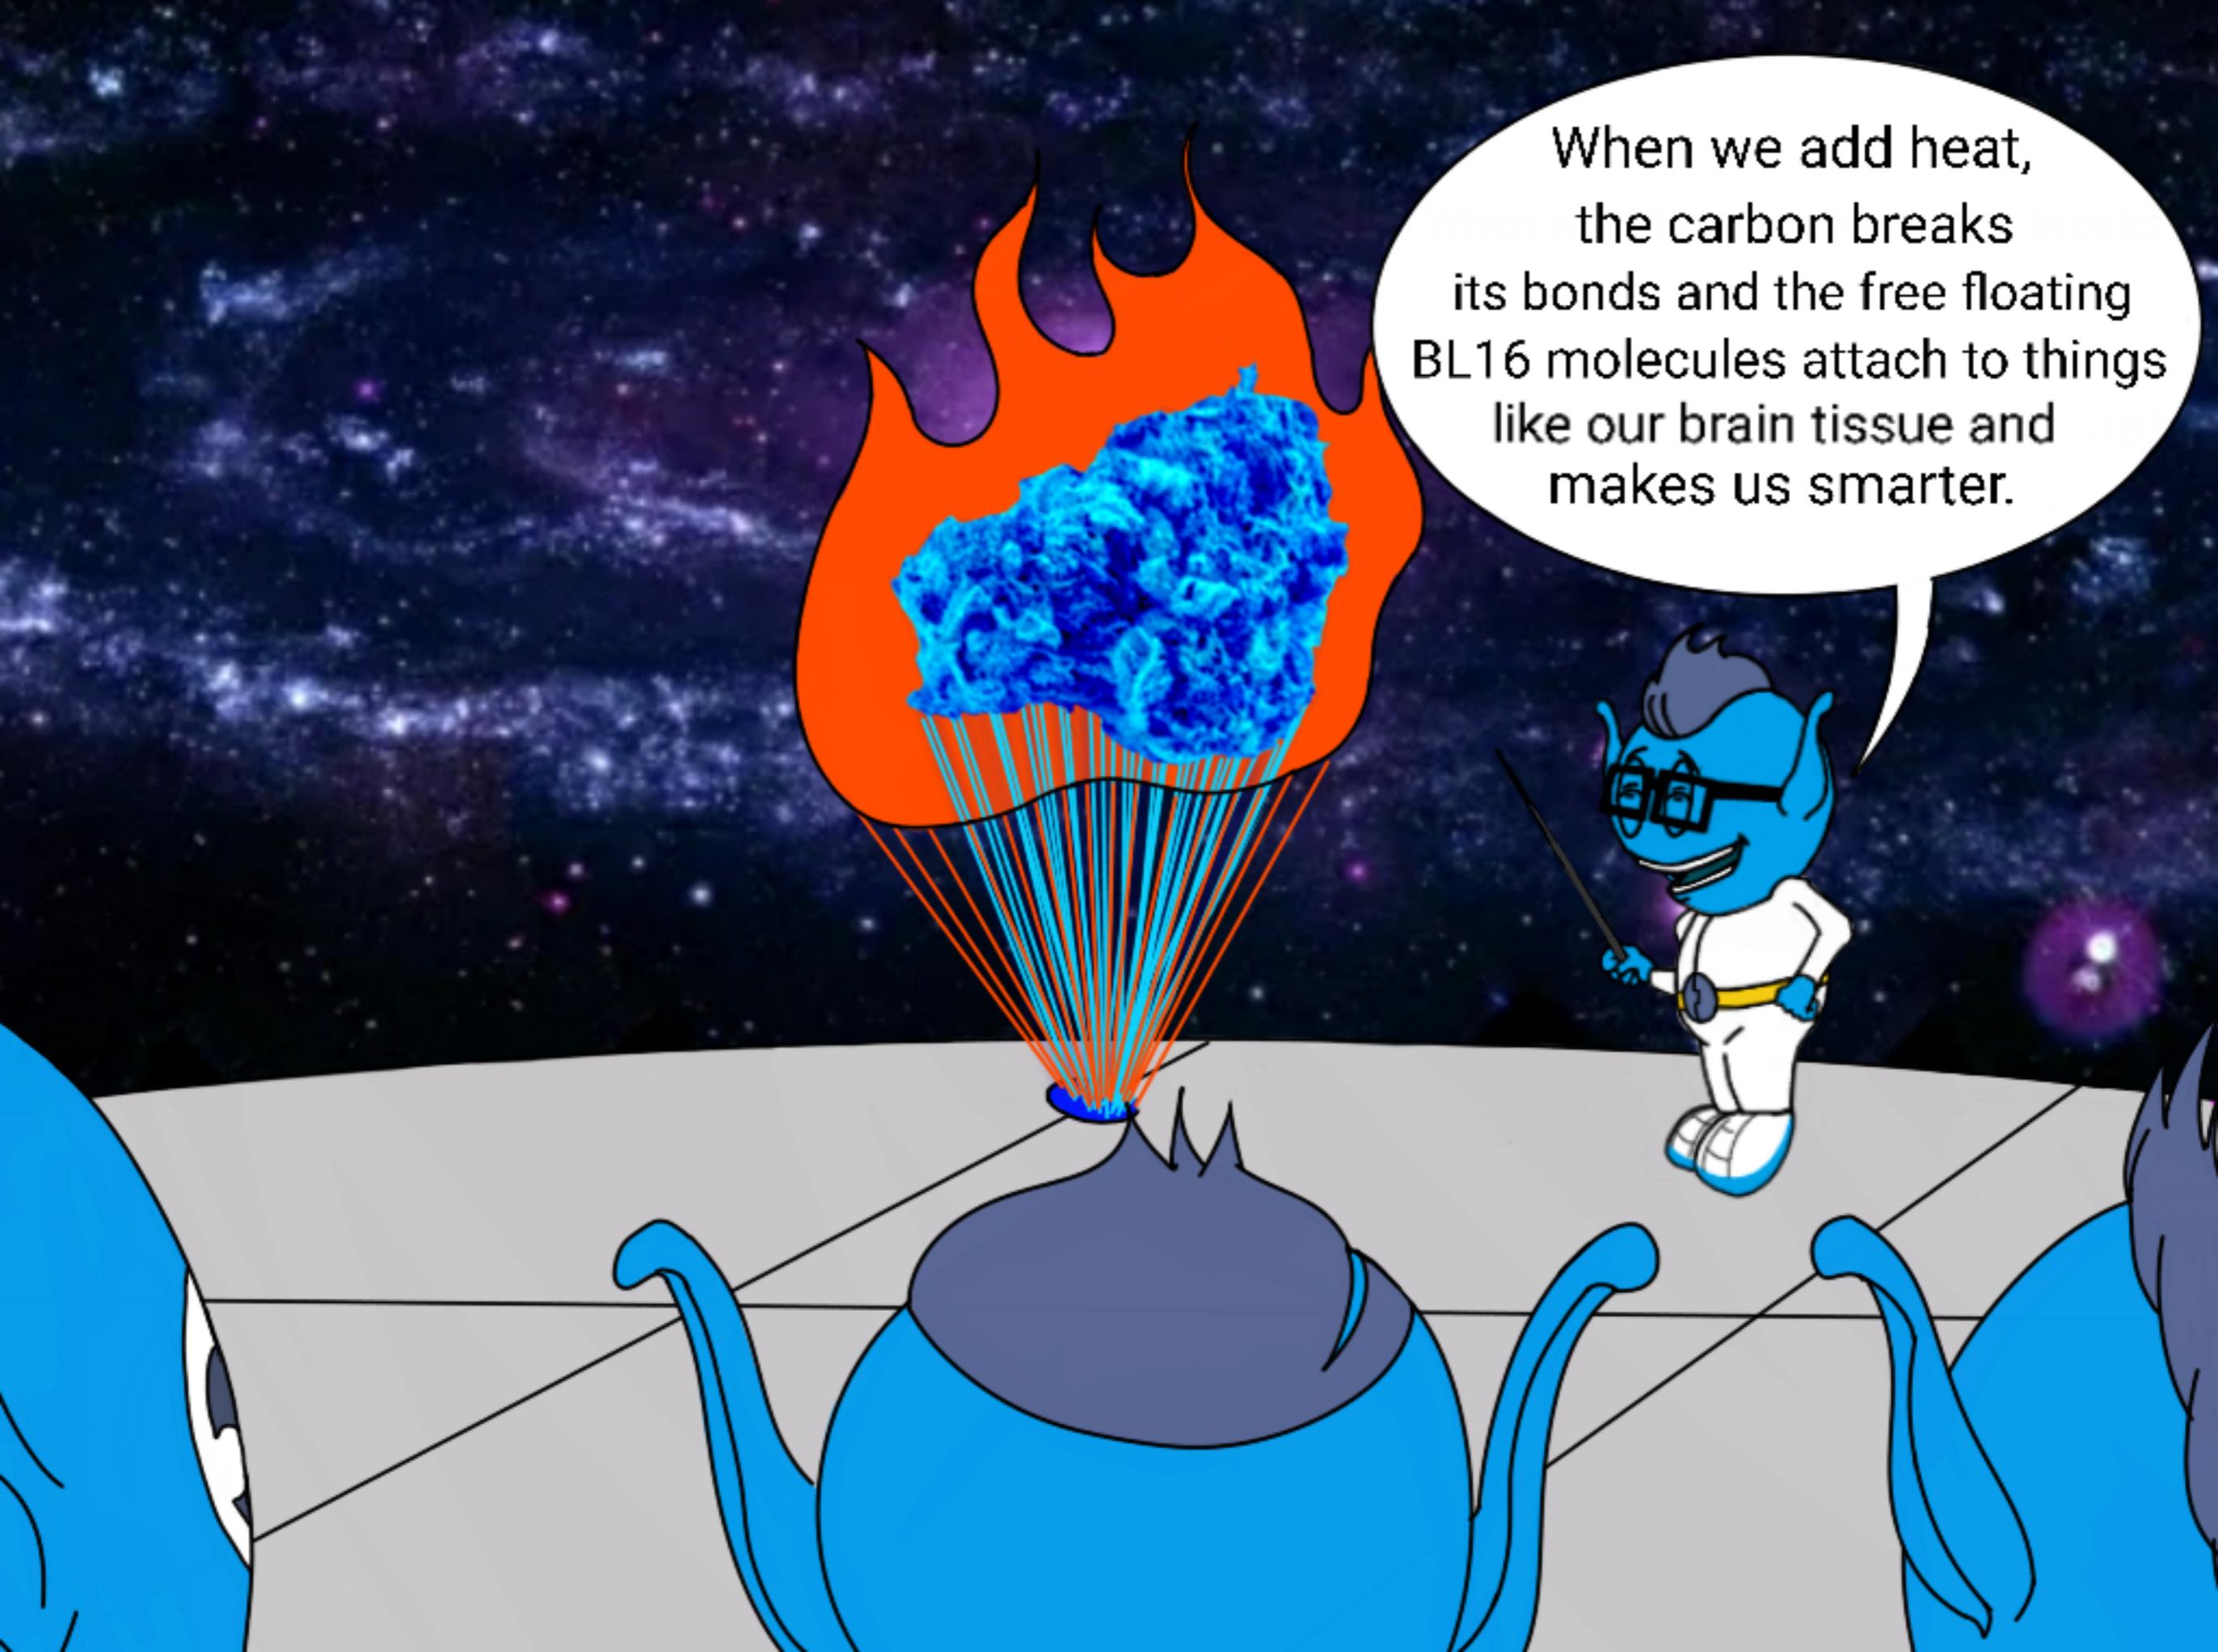

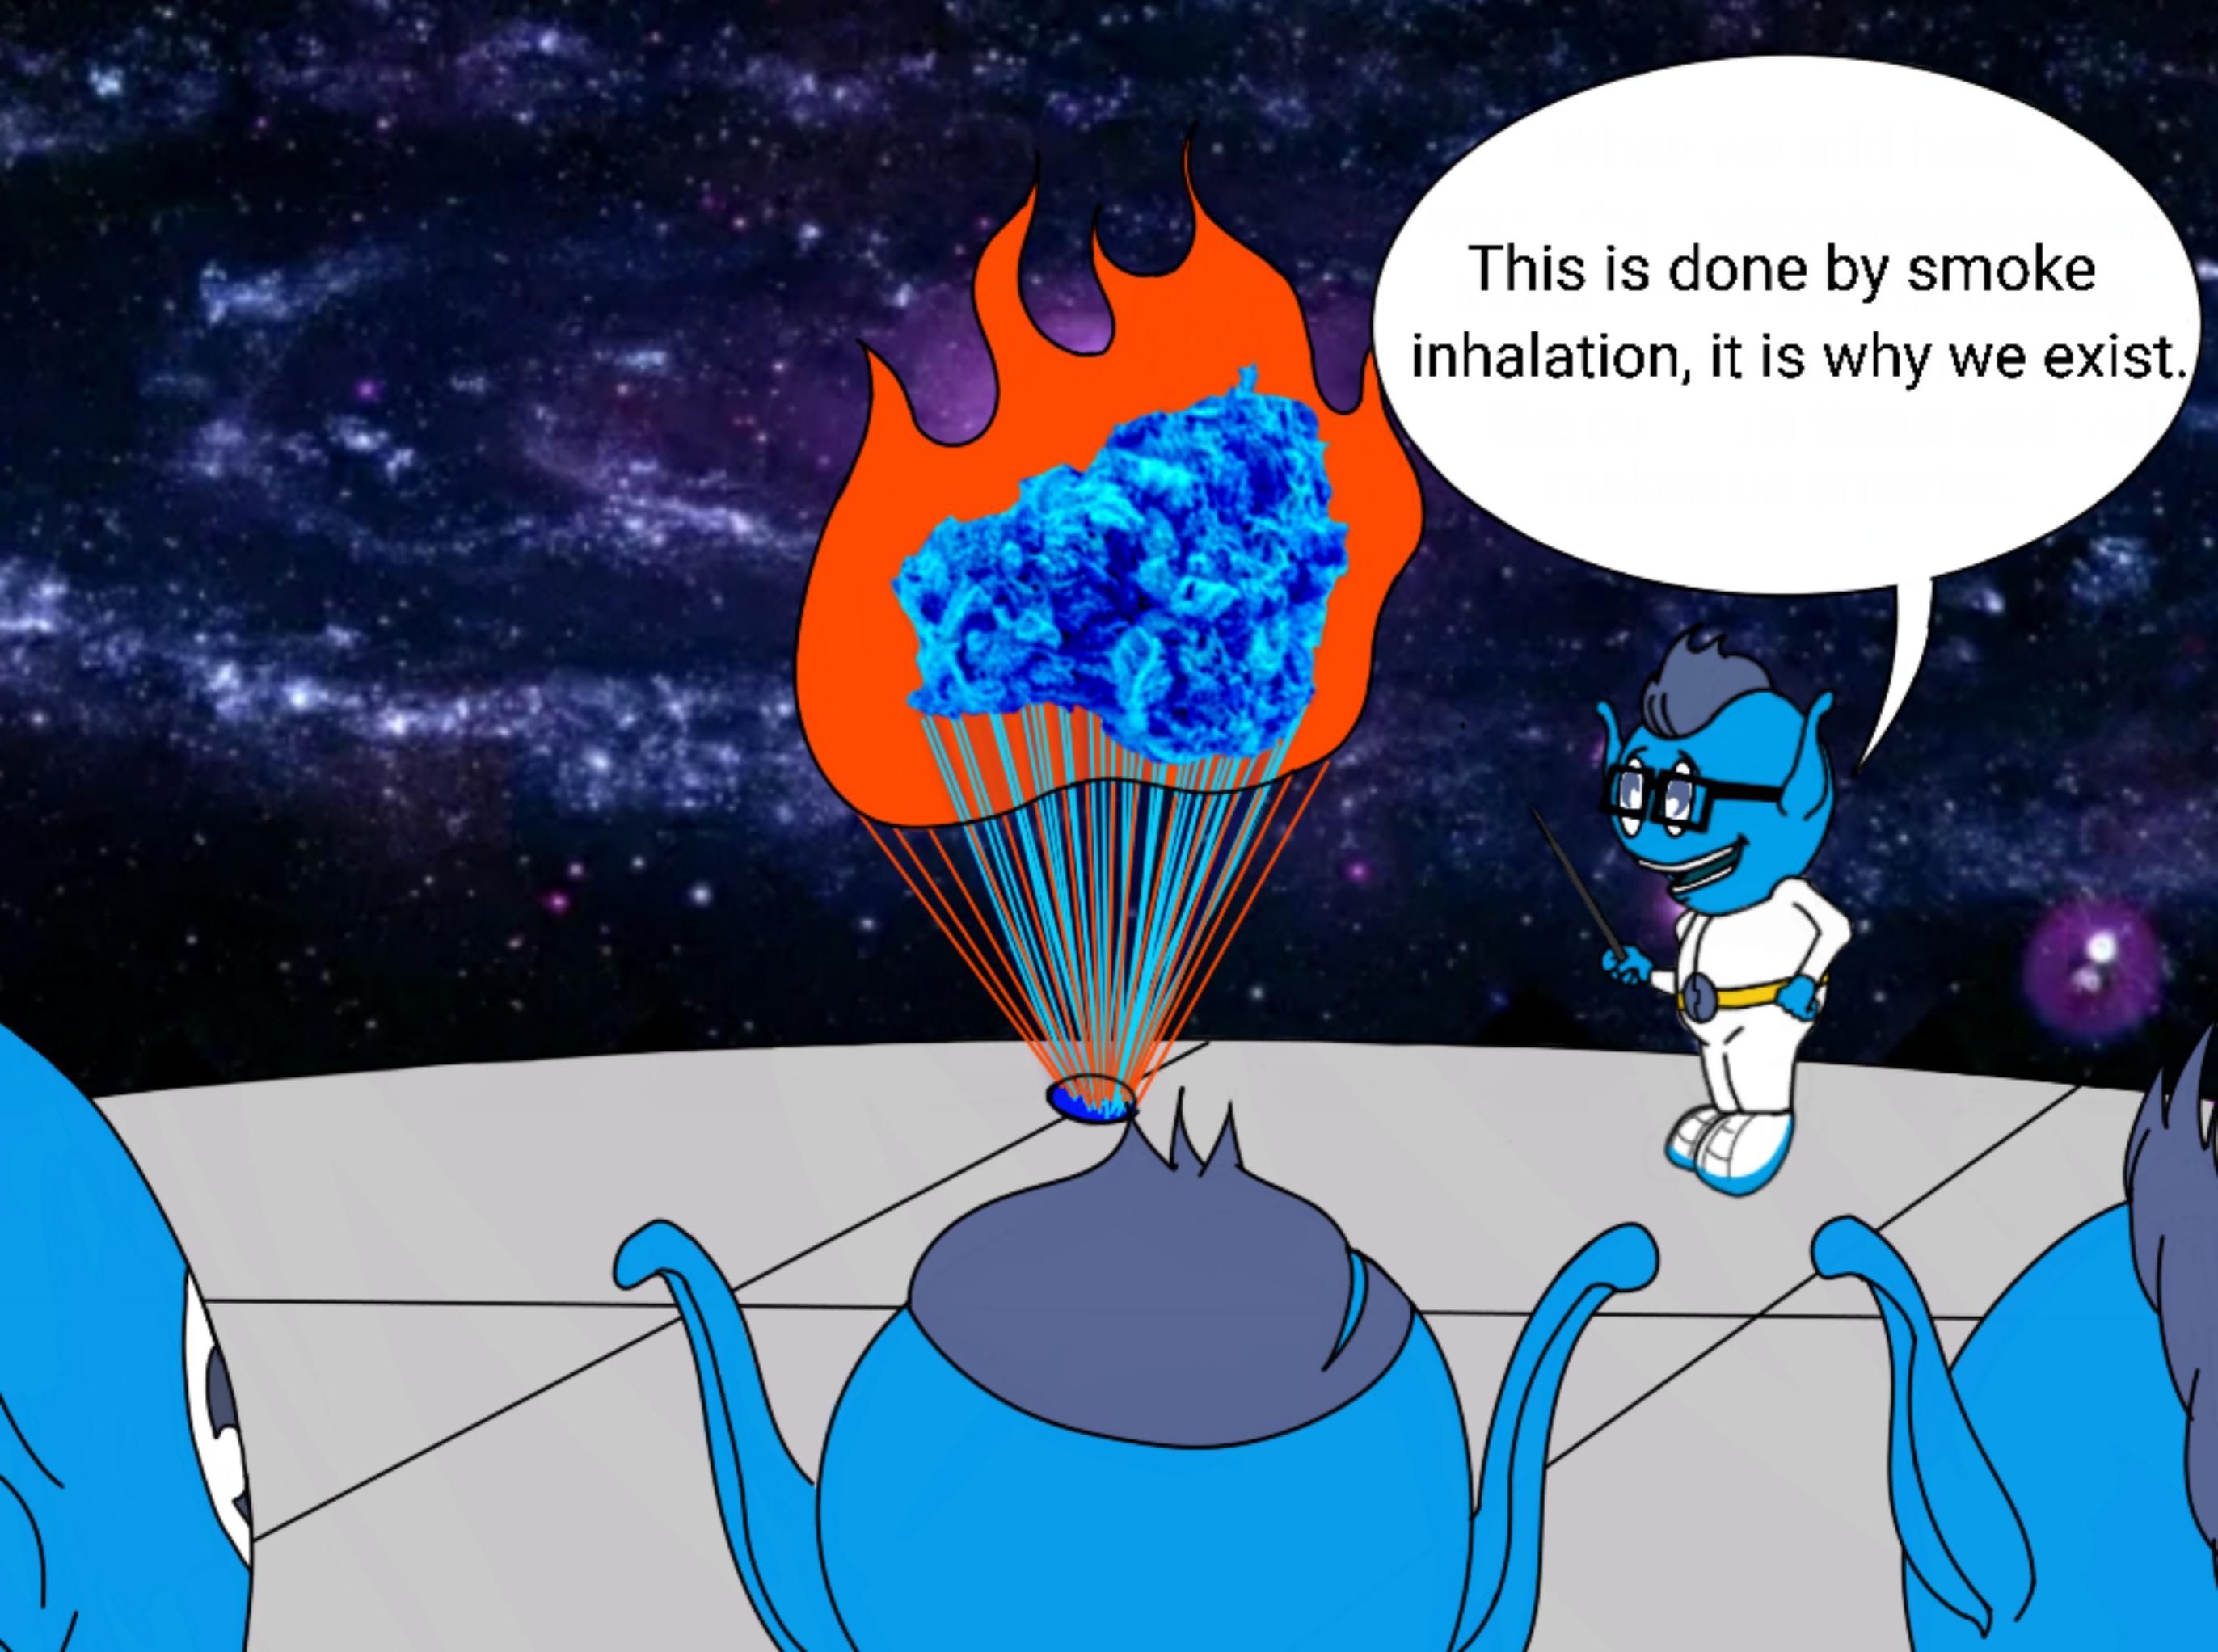

This is the structure of it!

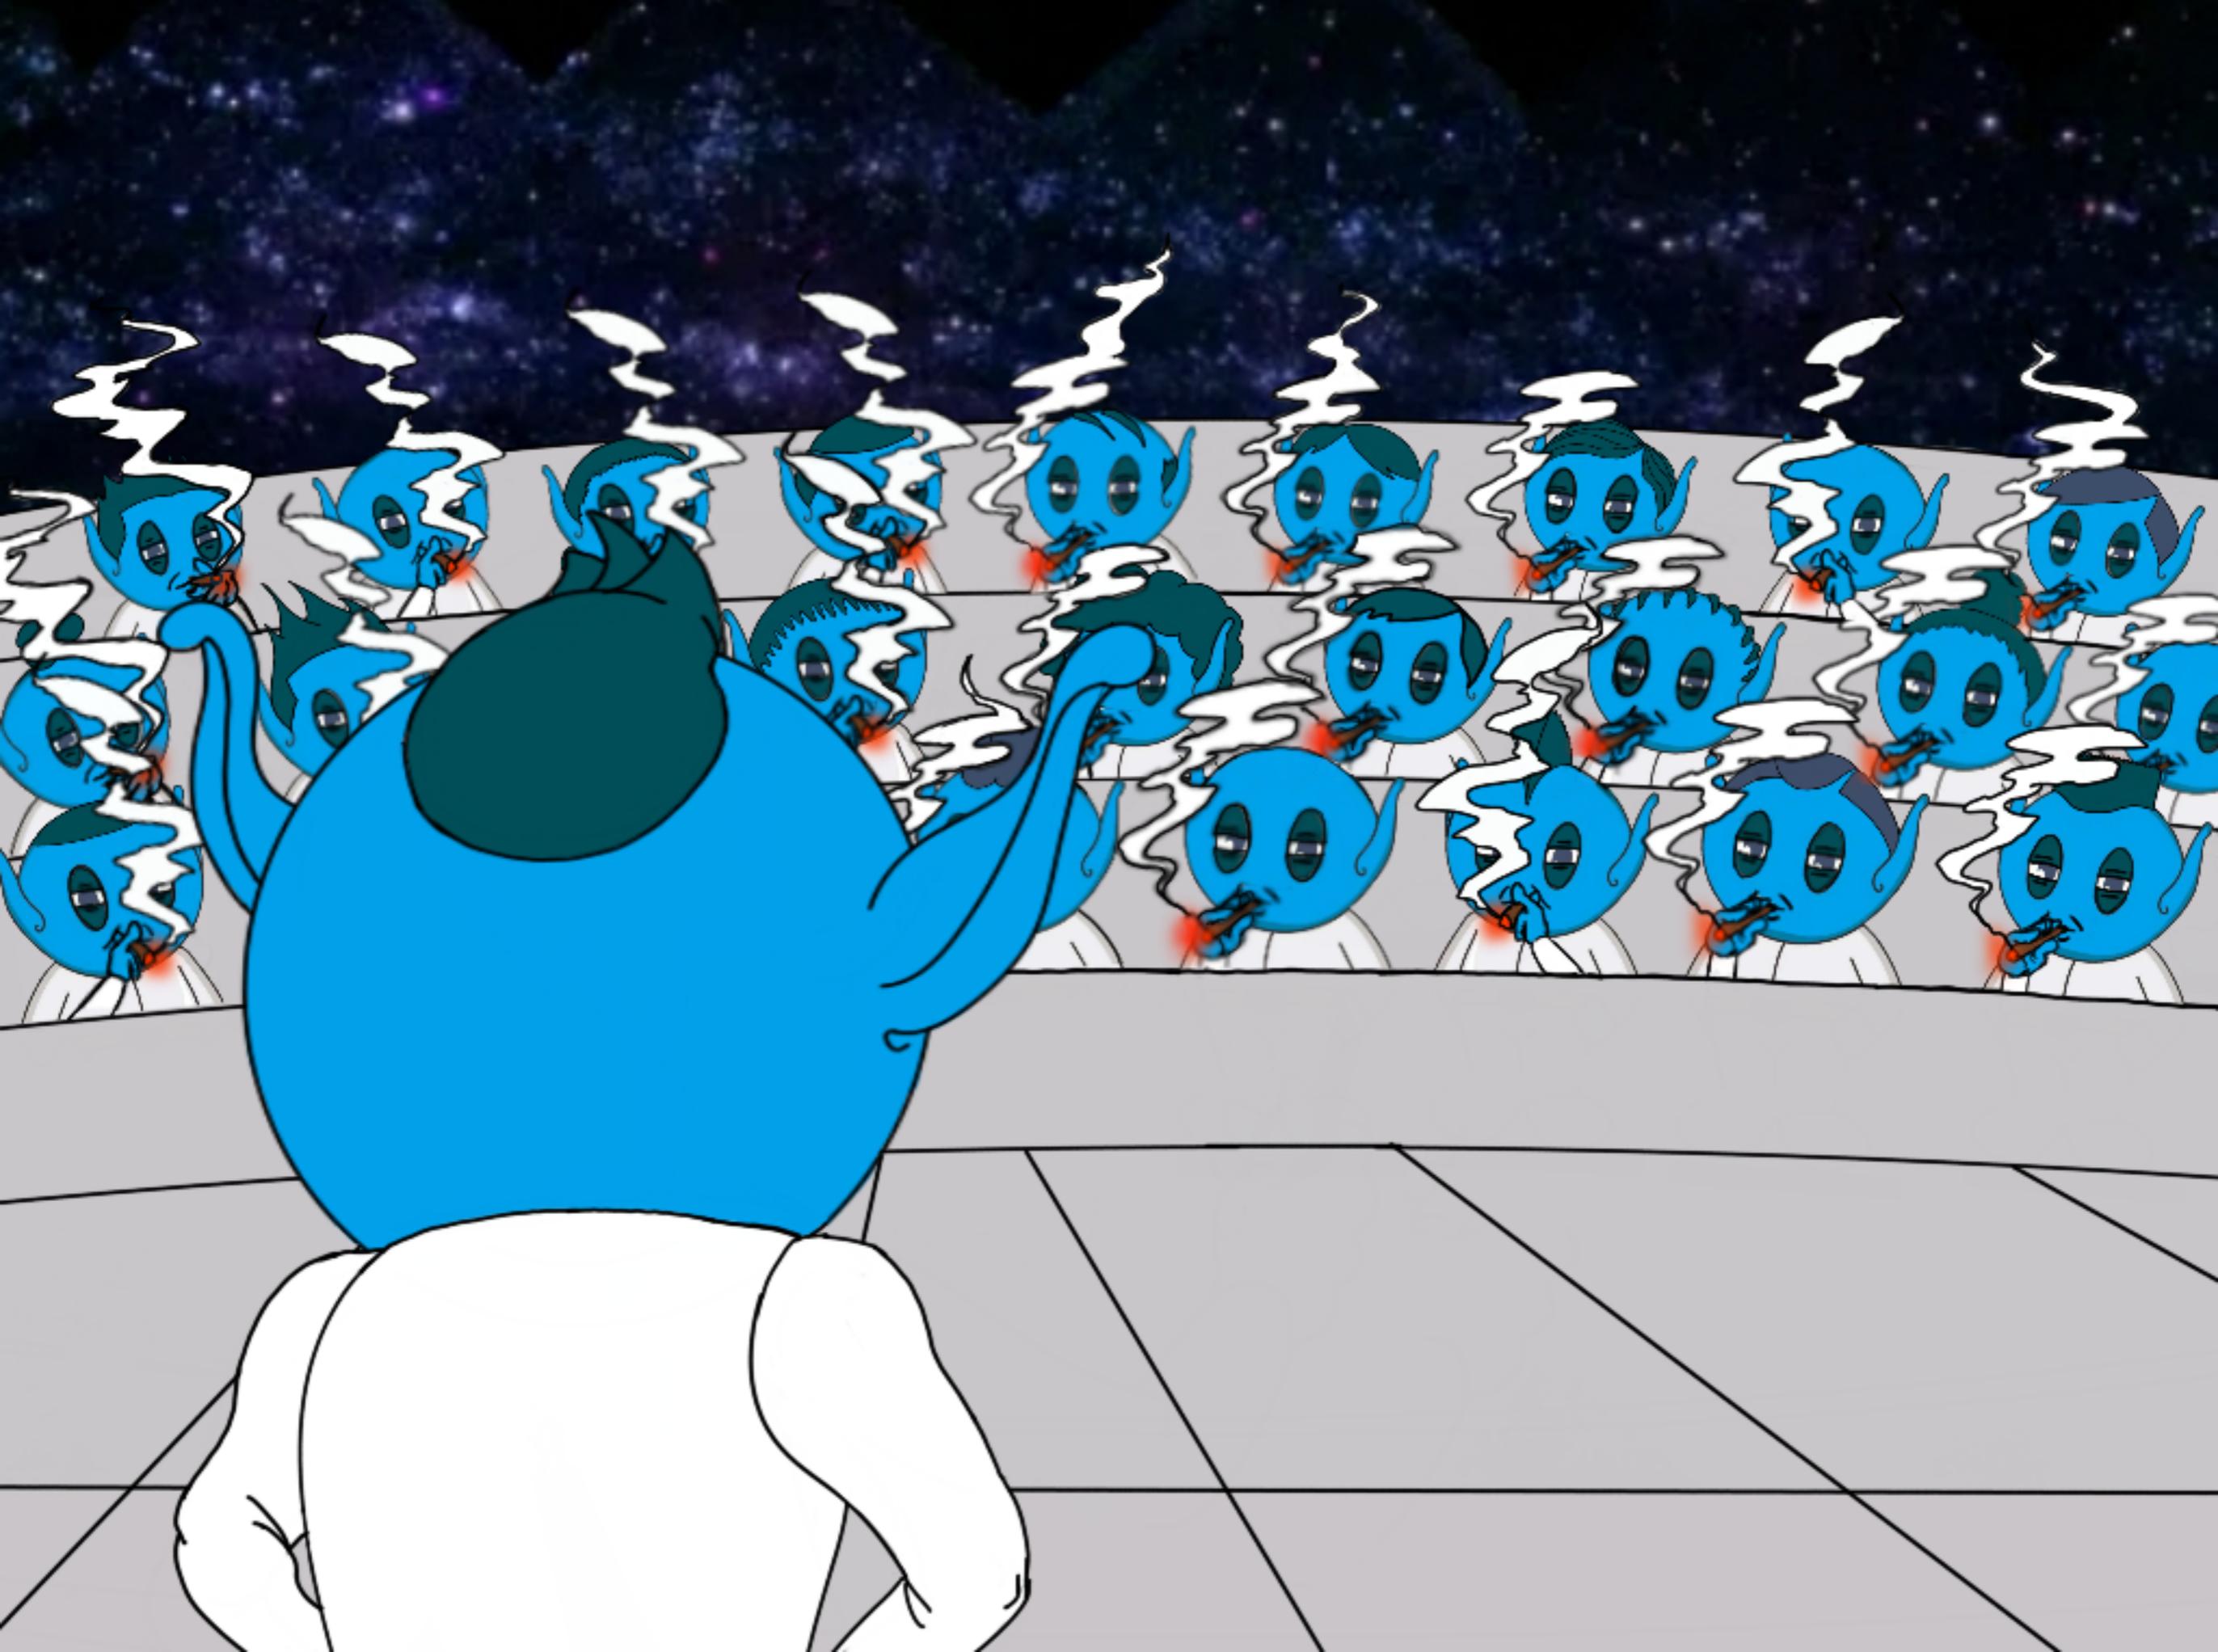

When we add heat,  
the carbon breaks  
its bonds and the free floating  
BL16 molecules attach to things  
like our brain tissue and  
makes us smarter.

This is done by smoke inhalation, it is why we exist.

## Season 7

# GRANDMA BLUTO

- Blue16 continues its legacy through a phenotype that was selected by Cookies. Known as the precursor element required for the formation of Bluttonium.
- In season 6, Bluto's grandmother lands on Earth to show appreciation for the love Bluto received during his visit.
- Widely regarded as the most popular genetic by Grandiflora, Blue16 remains a coveted strain, actively hunted and used by many top breeders for its unmatched traits. Its enduring influence keeps it at the forefront of breeding innovation, shaping the future of cannabis genetics for years to come.

## Season 6: Grandma Bluto.

Season 6 turns the spotlight to a legendary matriarch—**Grandma Bluto**. This powerhouse female, a rare cross of *Blue Cookies x Project 4516*, carries a story as bold as her genetics. Rumor has it, the Space Force first discovered **Blue16** on an asteroid crash-landed on a mysterious planet. From that moment, the Blue16 dynasty was born.

Expertly bred by **Mark**, these exclusive **Bluto crosses** continue the lineage's legacy and are available only through **ZeedVault**.

At the heart of this season is the **Blue16 Cookies selected cut**, a standout from the original F1 progeny. Grandma Bluto's flavor and effect hit like a comedy classic—relaxing, uplifting, and best enjoyed on a plush leather couch.

Each cross is hand-selected by **Mark and Rico**, ensuring only the finest reach the vault. **Exclusively at ZeedVault.**

# GRANDMA'S COOKIES

# GRANDMA'S COOKIES

## How It All Began

Bluto's grandma arrived on Earth bearing gifts for Mark, Rico, Gift of Gab, and Farmer Zeedy. The most prized of all? Her cookies—infused with an activated form of the galaxy's most powerful element: Blue16.

The moment they experienced the cookies' true power, they knew—Season 6 had begun.

# GRAND DADDY BLURPLE

# GRAND DADDY BLURPLE

Blue16 (F) × Grand Daddy Purple (F)  
Flower Time: 9 Weeks

The finest purple meets the boldest blue—an iconic pairing destined for greatness. Grand Daddy Blurple is an instant classic, delivering nostalgic joy and vibrant color that'll make any

## Granddaddy Blurple

*When Grandma Bluto crossed paths with Granddaddy Purple, she knew his legacy was too powerful to fade away. Determined to preserve his greatness, she crafted something new—a lineage reborn.*

*But Grandma Bluto didn't just come bearing cookies. She came to build a future.*

*May Granddaddy Blurple carry the torch for generations to come.*

# BLUE CREME

# BLUE CREME

Blue16 (F) × (Sour Diesel x White Rose) (F)

Flower Time: 9 Weeks

This icy finisher blends sour bite with floral finesse. Expect a 9-week bloom bursting with layered notes of fresh flowers and sweet blue cookies.

## Back Uptown

Rico and Gift of Gab sparked a friendly rivalry on the block. To keep pace, Rico got clever—mixing sour with Grandma's Cookies. Once the blend hit, the traffic balanced out, and just like that, the block was buzzing.

What a beautiful day in the neighborhood.

# BLURPLE URKLE

# BLURPLE URKLE

Blue16 (F) × Purple Urkle (F)

Flower Time: 9 Weeks

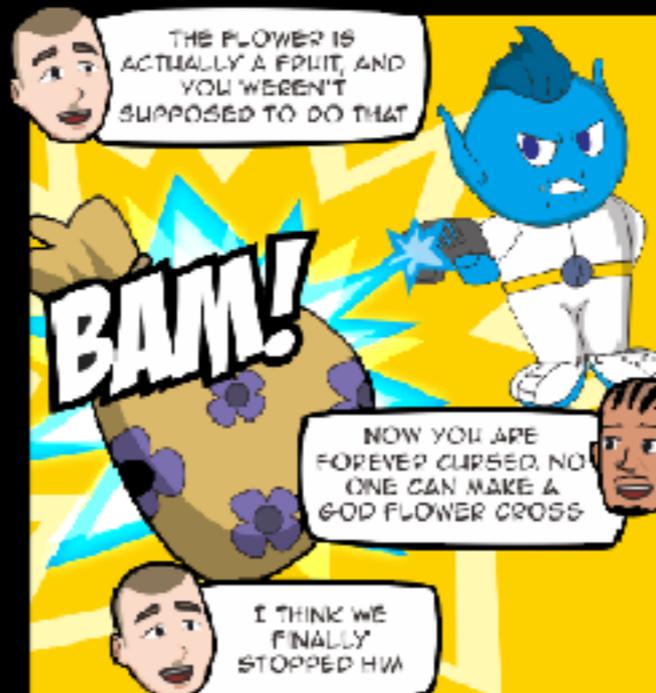

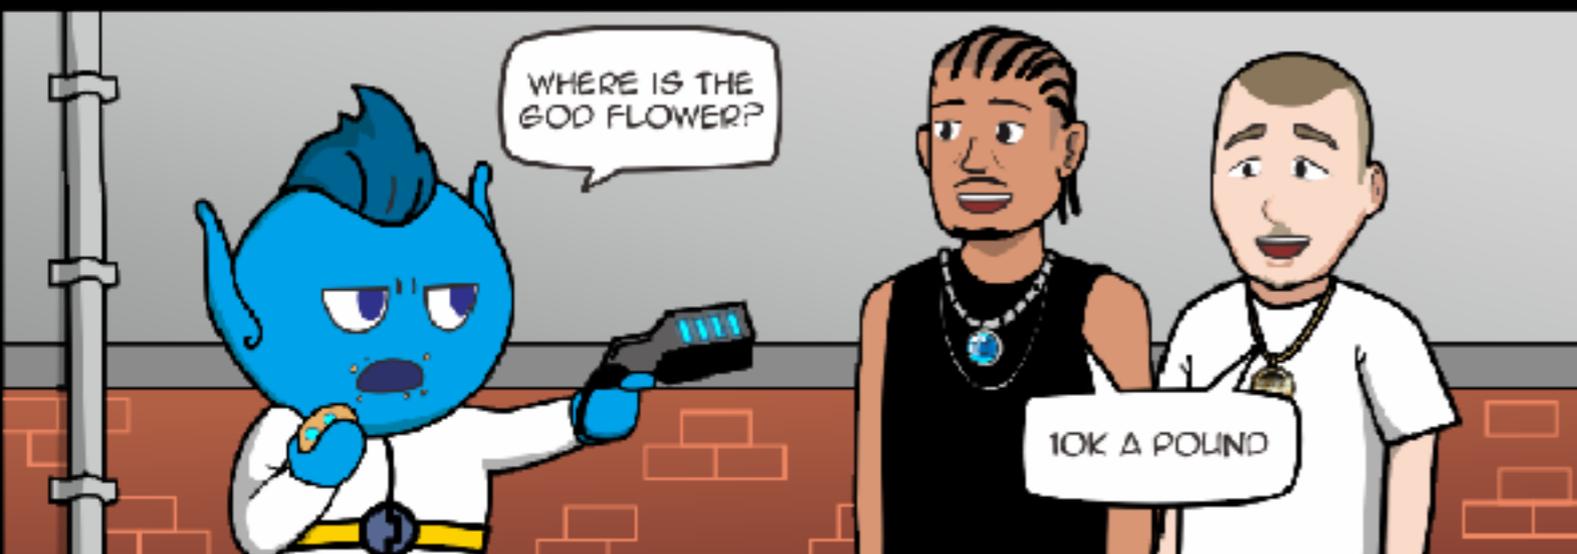

Did we do that? Oh yes, we did. Two Bay Area legends fused into a next-gen classic. You'll have to grow it to know it—words won't do it justice.

## When Nerds Collide

What happens when two nerds with intergalactic space weapons argue over who's the smartest? Chaos? Maybe. But in the end, they proved one thing—*teamwork wins*.

They linked up. They leveled up.  
They did that.

# BLUE BALLS

# BLUE BALLS

Blue16 (f) x Grape Gas Blue Banana (f)

8 weeks flower time

Dubbed "The God Flower" for its similarities to BC Bud's old school God Bud strain. Blue Balls finishes quick with fruity notes and sticky terpenes that shine through any delivery mechanism.

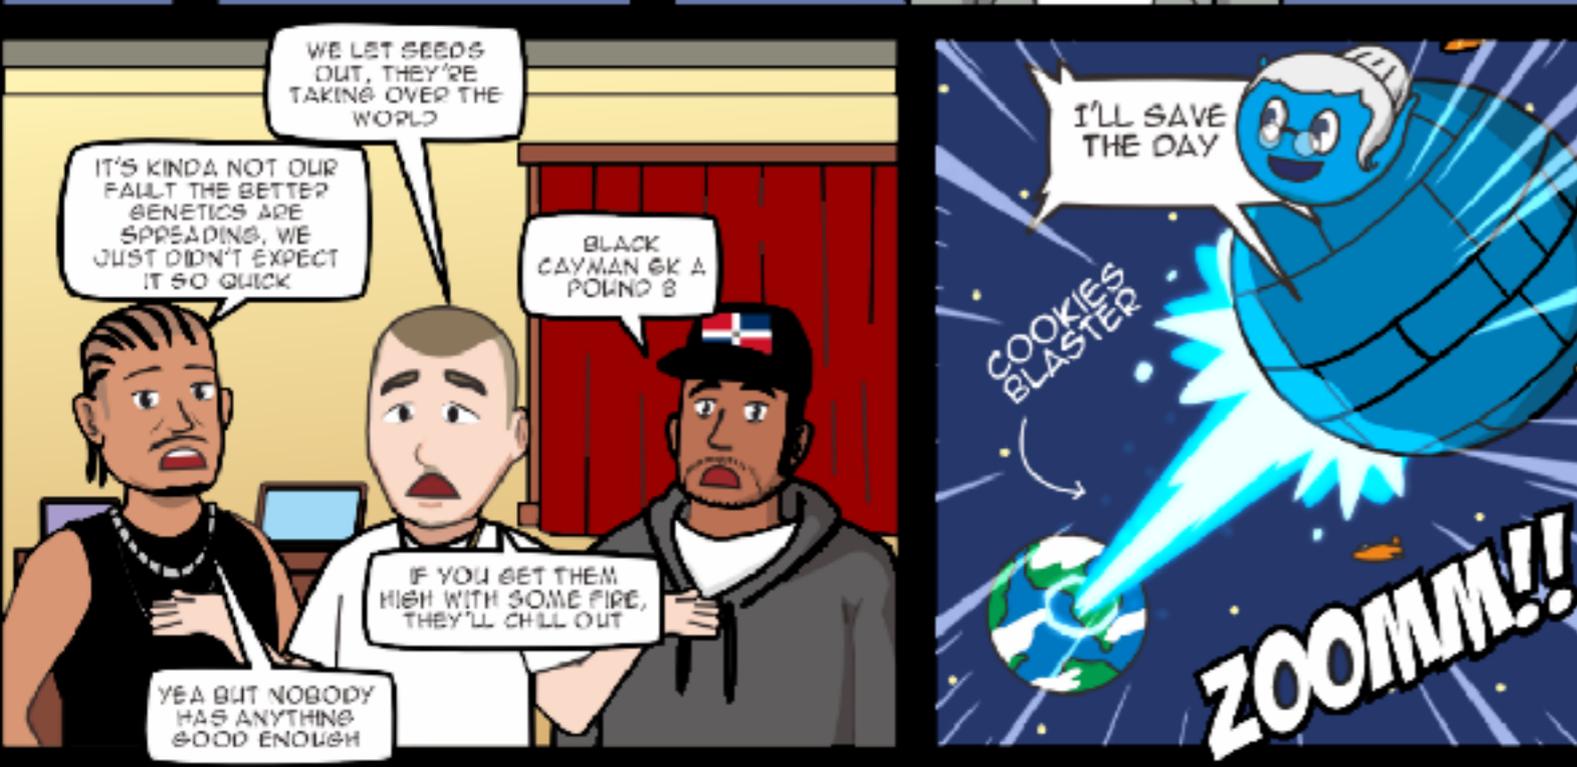

## What a Tease

*Bluto came seeking the **god flower**, but left with nothing but **Blue Balls**. As the old saying goes, "You catch more flies with honey."*

*The lesson?*

*Even intergalactic beings can't pollinate the gods—it always works the other way around.*

# BLUE CAYMAN

# BLUE CAYMAN

Blue16 (f) x Grape Gas Blue Banana (f)

8 weeks flower time

This is about as close as you'll find to what we'd call Blue16 2.0—a refined evolution of a legend. It carries the unmistakable essence of the original while pushing the boundaries in all the right ways. From its standout terp profile to its consistent performance, it's a guaranteed winner in the cannabis world. Whether you're growing, sharing, or just enjoying, we hope this one earns a spot among your all-time favorites.

## Blue Cayman Invasion

*As the black caymans begin their world takeover, someone has to step in. The obvious solution? Let Grandma Bluto handle it. Problem solved—except now we've got a blue cayman situation on our hands...*
