alexa

Brief Introduction

LB1 is entry-level dimmable LED bulb. With its powerful and smart core, you can easily switch on and off via your smart phone from anywhere, change the brightness or color, schedule it to automatically power on and off as needed. Besides, you can free your hands and control it directly with the voice commands when paired with a compatible Amazon Echo or Google Nest device.

LB1 is suitable for the lamps of your bedroom, kitchen, study and so on. It greatly brings smart and convenience to your life.

Features

Remote Control

Switch on and off from anywhere

Music Sync

Synchronize with the music collected from the microphone of mobile phone, and display different lighting effects

Dimmable

Change the brightness or color as need

Set Schedules

Set the devices automatically turn on or off at specific times

Voice Control

Work with Amazon Alexa and Google Assistant

Group Control

Create groups to control multiple devices at one time
