HOLIDAY ENGAGEMENT (2020-21)

Dear children,

Summer vacations are synonymous with fun, frolic, playing for longer hours with friends, exploring new places and many other interesting things. However, this year may not be the same like earlier years. The outbreak of corona virus has affected a lot of people around the world and it is a tough time that we all are going through. But then as they say, every cloud has a silver lining, and this corona infection is giving us all, more time together as a family, and we get to appreciate the little things of daily life.

So, how do we make the most of this time? During the last few weeks, we have been having online classes which kept our learning going, inspite of the lockdown. However, once the summer vacations start, you will be missing the fun of these online classes; seeing your classmates' faces, talking to your teachers and answering questions.

Don't worry! We have got you covered! There are some fun and interesting activities to do as a part of your holiday homework. This has been designed so as to give you creative wings and the opportunity to 'learn by doing', with the limited resources that may be available at home during this period. Enjoy doing the work, and make it as colourful, and rich in information as you can.

Dear Kids.

Summer Vacations are here but we cannot travel this year but still we can explore, so let's go to South India this year and explore the beauty of our southern state 'Kerala'.

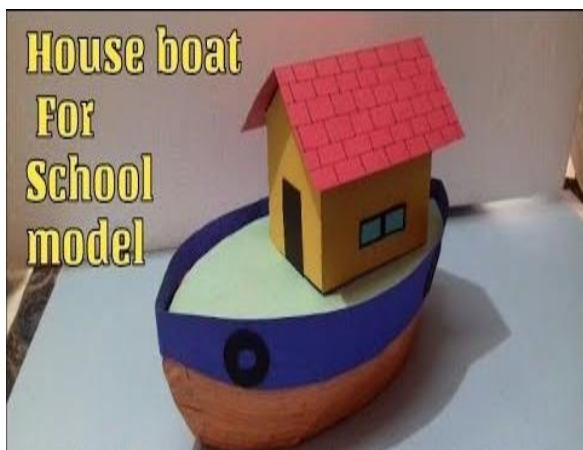

My Travel Brochure

Make a travel Brochure, paste colorful pictures and give them heading while covering the different aspects like language, food, famous places to visit, crops, music and dance, weather conditions and costume of Kerala state.

MY House Boat

Make the model of Kerala's very famous Houseboat
