# Message From The Captain of the Ship

I am extremely happy that our 4th edition of SCHOOL MAGAZINE is being published for the session 2014-15. It is rightly said that----

“Climb every mountain  
Ford every stream  
Follow every rainbow  
Till you find your dream.  
A dream that will need  
All the love you can give  
Every day of your life  
For as long as you live.”

“Live life to the fullest”, is called the art of living.

This is my message to you my dear students, parents, teachers & staff members. Life has magnificent and impressive appearance and therefore. I suggest you to explore all facets of your lives, enhance them so that you can live splendour and more complete lives. Now days there is severe pressure of competition, it is easy to slip from the path of salvation and academic excellence. I ask you to slip because this often leads you to achieve success as high achievers and unidimensional personalities are prone to succumb to pressure and make the path of success.

In LDC Public School, we believe that the spiritual, emotional and physical sides of an individual need to be explored and developed. Hence all efforts are made to ensure that each student in each class has the opportunity to participate in co-curricular activities. We strongly believe that each student is special. Through value education classes and career counseling, we try to assure our students that each one has a special role in this world. The goal is to discover the role and fulfil it to the best of one's ability.

This year has been abuzz with activity and academic progress. We paid much attention towards the usage of smart classes, public speaking classes for nursery to X class students. We also provide them with best computer and library facilities. This Year School is affiliated with senior secondary classes for Science and Commerce stream. Day to Day we are leading to achieve our destination. All this would not have been possible without the concerted effort of The LDC Public School family. I would like to extend my deepest and warm gratitude to all the parents, students, teachers and staff members who helped us to achieve the laid mile stone. The entire effort was a huge success because of your generosity and unstinted support.

This magazine is a celebration of the uniqueness of each individual who is a part of LDC Public School. It celebrates special moments and expresses clearly and in few words happy memories.

With best regards.  
Mr. V.B Prasad

## From the Desk Of Management

The school magazine is a platform for the students to express their creativity and develops in them the originality of thoughts and perception. It is a matter of great pride for me to pen down a message for the annual school magazine "Impressions".

Academic excellence together with extra curricular and co curricular activities completes the actual process of education. It gives me immense satisfaction & pleasure to see that LDC Public School is fast progressing in its endeavour towards overall development and personality of the students. The first batch of class 10 students will pass out this year and I wish them best of luck.

We perceive parents participation and support as a very important tool in providing quality education and skill building amongst the students. Together we can be proud that with each passing academic session we are growing in strength and our multifaceted growth.

Divya Gupta

## Step Towards Excellence

The will to win, the desire to succeed, the urge to reach your full potential..... these are the key words, our teachers endeavour to unlock.

Teachers or may be called as Navigators, Facilitators, Mentors equip themselves with effective techniques and resources to transform specially designed curriculum into education. They not only tell , explain, demonstrate , but inspire children till they are able to say ' The children are now working ,as if I did not exist .' Teachers give children dreams, teaches them how to think and makes them believe that they can do it. Teaching is a job of excellence and a talent or a quality which is unusually good and so surpasses ordinary standards .

Pooja Gupta

**Our Teachers**

**Our Non-Teaching Staff**

## From the Desk of the Academic Head

This term we welcome back representatives from elevate education who will be delivering a series of revision workshops to the 6th successful year. As the countdown to the board exams begins, we hope that these workshops will offer the students useful tips which they can put into place when they begin their revision programme, later in the year.

The school has recently launched its website ([www.ldcpublicschool.in](http://www.ldcpublicschool.in)) aimed at parents. The website is open to all parents especially those who have had a child attained LDC PS session. There is no user or password requirement.

I am glad to inform that this year we have achieved distant landmarks in the field of Academics. We were asked to send the evidence of Scholastic (English Communicative) as well as Co-Scholastics of Class X for the academic session 2014-15. We successfully conducted various Scholarship Examinations in which our students enthusiastically participated and showcased their talents by ensuring higher national and global rank.

I express my best wishes to the students for their bright future.

**Mrs. Sarika Srivastava**

## We Care & We Share

LDC Public School has adopted a village "Khaninar" for its upliftment and betterment. Some of the major projects undertaken in the said village are as under:-

- On 6th September 2015, a major tree plantation drive was conducted with the help of the local citizens.
- In order to create awareness about the harmful effects of polythene bags, the villagers were given old clothes and guided how to make hand bags out of them for their daily market purchases.
- A health camp was organised on November 7th 2014 in the school premises. The women and girls from the adopted village were invited to discuss their health related issues. Gynecologists of M.L.N.H. Dr. Shashi Prabha and Dr. Rakesh gave some useful tips and advice to the women folk.
- In the beginning of this winter season blankets, sweaters & shawls were donated to the needy villagers by the school.

The Credit for 'We Care and Share' Initiative goes to Ms. Sangeeta Srivastava & Mr. Prashant Agarwal

# Investiture

An Investiture is a very special day when an individual who has been awarded an honour receives their award in person from the Honourable Guest of the school. The new academic year ushered in the formation of a new senate. With interests that extend across every field of human endeavour, the senate plays a pivotal role in the working of the school administration. The Senate has students that are both elected and selected; through voting, panel discussions and rigorous interviews. Thus the procedure is a democratic and transparent one.

The induction ceremony on the 9th day of August saw students from the Junior and Senior section take their oath. They promised to discharge their duties and responsibilities in the most proactive and diligent manner. The Principal Mr. Vindhya Basini Prasad Shukla clearly listed his expectation from the new senate. Apart from nurturing leadership skills, he also emphasized on the values that one must inculcate. Honesty, determination, wisdom, humility and aspirations were the words they needed to pay heed to. The event ended on a note of positivity and willingness, with the senate promising to do the very best they can. They were ready to encounter all the challenges that came their way, receive criticism in the most humble manner, yet stand tall and uphold the dignity and integrity of the senate.

*"If your actions inspire others to dream more, learn more, do more, and become more, you are a leader."*

*- John Quincy Adams*

## Our Journey Towards Learning (Pre Nursery & Nursery)

In heart and soul  
Our teacher's seat  
With due respect  
We always meet

The school is our learning temple  
The knowledge is like a candle

Apoorva Agarwal (LKG A)

# माँ

माँ  
प्रकृति का वरदान है  
जिस के आँचल की छाँव में बस प्यार है।

माँ  
घरती पर देवी है, भगवान है  
उससे बढ़कर कोई नहीं,  
उसे प्रिय अपनी संतान है।

माँ  
अंगुली ध्याकर चलना सिखाती है,  
जिन्दगी का रास्ता दिखाती है,  
जीवन के कांटों को हटाना सिखाती है।

माँ  
भेद नहीं करती है,  
हम पूर्ण हो या अपंग,  
वह भगता का समरस भरती है।

माँ  
जीवन में बढ़कर है गुरु से,  
जीवन के कितने ही पाठ  
बचपन में सीखते प्रथम वहीं से।

माँ  
प्यार जिसका सच्चा होता है,  
नहीं हारता है वह जीवन में,  
माँ का आशिष पा बढ़ा होता है।

- Ayushi

# Health & Hygiene - We Care

**"One of the first duties of a physician is to educate the masses not to take medicine.... Soap, water and common sense are the best disinfectants"**

We at LDC Public School strongly believe in this Philosophy of Mr. William Osler. That is why we shift our focus in inculcating the habit of good hygiene and cleanliness in our students.

Apart from this, we continue to cater to the basic responsibilities towards prevention of chronic communicable diseases. This is done with regular annual health checks in association with best of the secondary and tertiary care hospitals around us. We take care and preventive measures against acute diseases by regular hygiene checks of children, sanitary rounds, and regular measures to control mosquitos and fly breeding, regular use of disinfectants.

## 5 Golden Health Tips

- 1 Apple / day = No Doctor
- 1 Tulsi Leaf / day = No Cancer
- 1 Lemon / day = No fat
- 1 Cup Milk / day = No Bone Problem
- 3 Ltrs. Water / day = No Diseases

- Sidra V 'B'

## Healthy Habits Pledge

I pledge to stay healthy and clean through exercise and good hygiene I will eat balanced meal everyday to have more energy to learn and play.

Every night I will get a good rest to be more ready to do my best. If I work hard to be healthy and strong I'll be happier my whole life long.

**"Trees are poems that earth writes upon the sky,  
We cut them down and turn them into paper  
That we may record our emptiness."**

- Kahlil Gibran

## An End to My Search

In front of idols with my hands folded,  
I stood for endless hours and days;  
Praying and pleading to those pieces of stone.  
To make my life, once again, free of pains.

I thought, believed and desired,  
That there would be God in those stones;  
Who, would know and understand my sufferings  
Who, would listen to my heart, when it mourned....

But when I understood what really life was  
I myself, had to kill those pains.  
Praying for endless hours and days,  
I soon understood, it was all in vain.

In death, in pain, and in darkness,  
Was I looking everywhere for you;  
Till the very moment I realized,  
Only in me were you...

In temples, in mosques and in churches,  
I went in search of you  
But then I slowly realized  
In me, truly were you...

- Sweekriti Patel VII 'A'

## जिन्दगी का कम्प्यूटर

जिन्दगी में दुख को **Delete** करो।  
सुशियों को **Save** करो।  
दुश्मनों को **Hide** करो।  
दोस्तों को **Enter** करो।  
घरित्र को **Hardware** बनाओ।  
दिल को **Software** बनाओ।  
मन को **Floppy Disk** बनाओ।  
तन को **CPU** बनाओ।  
इन्हें आजमाओ फिर देखो  
आपकी जिन्दगी का **Computer**  
कमी **Hang** नहीं करेगा।

Swapnil Mishra 'VII -A'

Justice Pankaj Mithal

“विद्या धनम् सर्वधनम् प्रधानम्”  
(ज्ञान ही सर्वश्रेष्ठ धन है।)

ज्ञान की प्राप्ति शिक्षा से होती है और शिक्षा के लिए विद्यालयों का होना अनिवार्य है। जो शिक्षा हमें अपने घर, भाई-बन्धुओं व समाज से नहीं मिल पाती वह हमें विद्यालयों के माध्यम से सामूहिक रूप से प्राप्त होती है। विद्यालयों का प्रथम कर्तव्य विद्यार्थियों को शालीनता, शिष्टता, सज्जनता व कर्तव्य परायणता से विभूषित करना है।

स्वामी विवेकानन्द का चिंतन शिक्षा को “मानवता निर्माण” से जोड़ने का रहा था। उनके अनुसार “The goal of all education is man-making.” अर्थात् मानवता निर्माण। नैतिकता व मूल्यों पर आधारित शिक्षा से ही हम बच्चों का बहुमुखी विकास एवं चरित्र निर्माण कर सकते हैं। उसी से मानवता, समाज व राष्ट्र का निर्माण संभव है।

इन सबके होते हमें खेलों, कला, व अपनी संस्कृति को नहीं भूलना चाहिए। मानवता निर्माण में खेलों, कला व संस्कृति का अपना महत्व है और वे भी शिक्षा के एक अग्निसंग हैं। जिस प्रकार बंधन में मुक्ति और मुक्ति में बंधन निहित है उसी प्रकार हार में जीत और जीत में हार होती है। जीवन की यह अनुभूति पहेली खेल के मैदान से बेहतर किसी और जगह नहीं समझी जा सकती।

जीवन में जैसे घूप-छींव साथ-साथ रहती है उसी प्रकार ज्ञान के क्षेत्र में शिक्षा और खेल दोनों युगल रूप से बच्चों को जगमग करते हैं। खेल और कला से नयी प्रतिभाओं का जन्म होता है। दोनों मिलकर बच्चों में नववैतना का संचार करते हैं। खेलों से शरीर स्वस्थ रहता है और एक स्वस्थ शरीर में ही एक स्वस्थ और स्वच्छंद मस्तिष्क होता है। दूसरी ओर कला और सांस्कृतिक कार्यक्रम हमारे मस्तिष्क को तरोताजा रखते हैं और उसे नयी रफ़्तिक प्रदान करते हैं। कहने का तात्पर्य केवल इतना है कि शिक्षा के साथ खेल और खेल के साथ कला और संस्कृति हमारे शरीर व मस्तिष्क का संतुलन बनाये रखती है। सभी का अपना महत्व है।

शुभमस्तु।।

## प्रयास...

- हम कब जीना सीखेंगे  
कब मरना छोड़ेंगे।  
कब समझेंगे घरती की आवश्यकता!  
कब प्रदूषण कम करेंगे।  
कब पीछों को अपनाना सीखेंगे।  
कब उनको पनपाना सीखेंगे।  
कब अपनी सोच सुधारेंगे।  
कब आने वाले कल की विचारेंगे।  
कब आया यह दिन।  
कब आया यह दिन।  
कब मानवता की करल लहलहाएगी।  
कब हथियारों की होड़ छोड़ी जाएगी।  
कब घरती के लाल नई शुरुआत करेंगे।  
कब फूलों के रंग-सा इतिहास लिखेंगे।  
कब देशों की सीमाएँ टूटेंगी।  
कब मानव की अहंकारी-भूति घूटेगी।  
कब हम औरों के लिए जीना सीखेंगे।  
कब हम औरों के लिए मरना सीखेंगे।  
कब उठेंगे देश, धर्म की सीमाओं से ऊपर।  
कब साथ राती को लेकर चलना सीखेंगे।  
कब आया यह दिन इन प्रश्नों के उत्तर जाने का।  
कब आया यह दिन प्रश्नों से मुक्ति पाने का।  
कब आया यह दिन श्रृंखलाएँ टूटेंगी।  
कब आया यह दिन खुलेपन में सीसा खुट्टेगी।

## Puzzles

### PUZZLE 1: OPERATION OPERATIONS

Replace the asterisks by the correct mathematical signs to make the expression equal to 99.

$$16 * 12 * 2 * 3 = 99$$

### PUZZLE 2: MULTIPLYING BACTERIA

A bacterium is known to multiply very rapidly. A certain container contains just one bacteria on the first day and there are twice as many on the next day. In this manner the number of bacteria in the container doubles itself every day. Assuming that the container would be full of bacteria on the 10th day, on which day would the container be half full.

Here is the answer why 1 is called One and 2 is called Two.

SOLUTIONS: PUZZLE 1:  $16 \times 12 \div 2 + 3 = 99$   
PUZZLE 2: The container would be half full on the 9th day. Since the number of bacteria doubles each day, the container should be half full on the day before it became full.

- Q: What is always coming but never arrives?  
A: Tomorrow  
Q: I have keys but no locks. I have space but no room. You can enter but can't go outside. What am I?  
A: A Keyboard  
Q: A monkey, a squirrel, and a bird are racing to the top of a coconut tree. Who will get the banana first, the monkey, the squirrel, or the bird?  
A: None of them, because you can't get a banana from a coconut tree!

- Q: What comes down but never goes up?  
A: Rain  
Q: What word becomes shorter when you add two letters to it?  
A: Short  
Q: What is so delicate that saying its name breaks it?  
A: Silence.  
Q: What goes up but never comes down?  
A: Your age!

Bushra V 'B'

To build an empire.

U should be inspired.

Set up your goal.

Hard work plays a major role.

And there should be passion in your heart.

Right away there'll be success and failure depart.

Tushar Mishra IX

A man goes to the doctor and says, "Doctor, wherever I touch, it hurts."

The doctor asks, "What do you mean?"

The man says, "When I touch my shoulder, it really hurts. If I touch my knee - OUCH! When I touch my forehead, it really, really hurts." The doctor says, "I know what's wrong with you - you've broken your finger!"

Headmaster: I've had complaints about you, Johnny, from all your teachers. What have you been doing?

Johnny: Nothing, sir.

Headmaster: Exactly.

Avantika IV 'A'

# An Eventful Year

Like every year, this year also we had a lot of activities and celebrations. Here we present glimpses of Celebrations round the years :

1. Earth Day Rally
2. Mothers' Day Celebration
3. Janmashtami Celebration
4. Independence Day Celebrations
5. International Sports Day - August 29th
6. Teachers' Day
7. Hindi Diwas
8. Run For Unity
9. Gandhi Jayanti
10. Trip to Nehru Planetarium
11. Inter School Competition

Apart from the above mentioned Events, there were various routine activities commonly known in our school as "Saturday Club Activities".

Activity Co-ordinators  
**Nidhi Pandey**  
&  
**Nikhat Imtiyaz**

# Bal Diwas & Science Exhibition

चाचा जी का जन्म दिवस है सभी बच्चे आर्येंगे..  
चाचा जी के फूल गुलाब से हम बच्चे सब महकारेंगे

As per our tradition of showcasing the talent of Young Mind by holding the Science exhibition, this year also we organised it in our school premises on the occasion of Bal-Mela. The event was divided into three categories with their distinct themes as mentioned below:

Group	Classes Involved	Theme	Models
1	I to III	Causes of Pollution	Acid Rain
2	IV and V	Prevention of Pollution	Water Treatment Plant
3	VI to X	Scientific Innovation	Terrace Farming, Automatic Street Light, Tunnel Security, House hold remedies

Mr. Alok Verma, S.D.M. Soraon was the Chief Guest of the event. Everyone appreciated the active and enthusiastic participation of students.

# For the Record....

## बेटियाँ

औत की एक बूंद सी होती है बेटियाँ  
स्वर्ण सुरदुष हो तो रोती है बेटियाँ  
रोसनी देना नेता एक ही कुल को  
दो-दो कुलों के बोज को डोली है बेटियाँ  
गीत अगर हैं नेता, जो मोती हैं बेटियाँ  
काँटी की तरह पर खुद चलती, औरों के  
लिए फूल बोती हैं बेटियाँ।

नेमबिका गुप्ता  
कला-आठ (अ)

को उजले कपड़ों में छिपाते हैं, मन में राधन बैठा है, राम नजर बैठा है।  
पर, मानवता का रक्त बहाता कौन? बोली अजन्मी कन्या को ज्यों कोख में माना जाता है।  
बिन दहेज की बहु को, वयो घर से निकाला जाता है। सिल जाती है होठ जब, बुजुर्गों को  
दुकरा जलाते हैं डैस रहा है कौन इस देश की विरासत को टोच किसे दोगे, जनता को यह  
सिखासत को; डैसने में आप भी कुछ कमी नहीं करते हैं; मैं तो डैसता हूँ मानव को  
कभी-कभी आप तोज मानवता को डैसते हैं। तुम्हारे विष वमन से उबल साती धरा है मैं  
डैसना छोड़ दूँगा अगर निकाल दो यह विष जो तुम्हारे भीतर भरा है।

कला 9

## हास्य दोहे

काल खाए सो आज खा।  
काल खाए सो अब।।  
दिन-दिन महगाई बढे।  
फिर खारणा कब।।

रात को जब बैठे पढ़ने।  
किताबी का डेर लगाए।।  
भगवान से करे ये दुआ।  
लाइट ही चली जाए।।

कल पढ़े सो आज पढ़।  
आज पढ़े सो अब।।  
फीस डबल होने लगी।  
बहुरि पढ़ेगा कब।।

फेल में सुमिरन सब करे  
पारा में करे न कोय।।  
तो पारा में सुमिरन करे।  
तो फेल काहे को होय।।

पढ़ने जब मैं कौलेज गया।  
मन चित लगा न कोय।  
शिनेमा देखन जब गए।  
मन गद-गदगद-गद होय।।

कैस युसुफ  
(आठ-अ)

## ज्ञान के मोती

चिकिया जब जीवित रहती है तब यह घीटी को खाती है, पर  
चिकिया जब मर जाती है तब घीटीया उसको खा जाती है, इसलिए  
हमेशा ध्यान रखो। समय और स्थिति कभी भी बदल सकते हैं,  
इसलिए कभी कितली का अपमान मत करो, कभी कितली को कम मत  
आँको। तुम शक्तिशाली हो सकते हो, पर समय तुम से भी  
शक्तिशाली है। एक पेड़ से लाखों माफिस की तीलियाँ बनाई जा  
सकती हैं, पर एक माफिस की तीली से लाखों पेड़ जल सकते हैं।  
कोई चाहे कितना भी महान क्यों न हो जाए पर कुदरत कभी भी  
किसी को महान बनने का मौका नहीं देती।

"कंठ दिया कोयल को तो रूप छीन लिया"  
"रूप दिया मोर को तो इच्छा छीन लिया"  
"दी इच्छा इंसान को तो संतोष छीन लिया"  
"दिया संतोष संत को तो संसार छीन लिया"

मत करना गुरुर कभी भी अपने आप पर ऐ इंसान, भगवान ने तेरे  
और मेरे जैसे कितनों को मिट्टी से बना के मिट्टी में मिला दिया।  
कहते हैं-

शब्दों के दांत नहीं होते हैं, लेकिन शब्द काटते हैं, तो  
दर्द बहुत होता है, और कभी-कभी घाय इतने गहरे हो जाते हैं कि  
जीवन समाप्त हो जाता है पर धाव नहीं भरते। इसलिए जीवन में  
जब भी बोलो मीठा बोलो, मसुर बोलो।

'शब्द' 'शब्द' सब कोई करे,  
शब्द के हाथ न पांश  
एक शब्द 'औषधि' करे,  
और एक 'शब्द' करे री 'घाव'  
प्रभु को भी परसभ नहीं  
'सखती' बयान में  
इसलिए 'शब्दी' नहीं दी, जवान में \_\_\_\_\_।

चिन्ता कोशरानी  
(आठ-ब)

## हिन्दी दिवस

'दर्पण ही नहीं देश की तरवीर है हिन्दी, हर भारतीय के  
खाम की ताबीर है हिन्दी।' भारत बहुभासी राष्ट्र है।  
जिसके कारण यह प्रश्न उठता है कि भारत की राष्ट्र भाशा  
क्या है क्यों कि बिन भाशा के कोई भी राष्ट्र गूँगा सिद्ध  
होता है इस बात को ध्यान में रखते हुए ही भाशा को  
भारतीय संविधान के 343 वें अनुच्छेद में राज भाशा का  
दर्जा तो मिला पर राष्ट्र भाशा का नहीं।

आज वर्तमान समय में हिन्दी की ऐसी स्थिति है  
कि इसे अपने पद से भी मुक्त करते हुए देखा जा सकता  
है अगर समय रहते हुए इस पर विचार नहीं किया गया तो  
यह दिन दूर नहीं कि इसे पद से मुक्त कर अंग्रेजी जैसी  
विदेशी भाशा को यह अधिकार प्राप्त हो जाएगा-

जब कि भारत की 60 करोड़ जनता हिन्दी भाशा भाषी है  
हिन्दी की एक सुदृढ़ ऐतिहासिक भाशाई पुरठमि है इसे  
संस्कृत जैसी सुदृढ़ भाशा की विरासत मिली है इसकी  
लिपि वैज्ञानिक होते हुए भी इसका क्षेत्र व्यापक है।

फलत: जब तक भारत के सभी राज्य एकमत से हिन्दी को  
राजभाशा नहीं मान लेगें तब तक हिन्दी अंग्रेजी की  
बुहताज बनी राजभाशा का खोखल पद धारण करती  
रहेगी-हिन्दी को समर्थ बनाने के बहाने पंगु बनाया जाता  
रहेगा और अल्पमत की लाली उस पर प्रहार करती रहेगी।

# Annual Sports & Cultural Meet

ALL WORK  
NO PLAY  
MAKES JACK A  
DULL BOY

## Fact File

Kudos to Mylswamy Annadurai the mission director of ISRO's Mangalyaan spacecraft & his team for this fully INDEGENOUS Satellite **MANGALYAN.**

## Bizarre!

- Eskimos use refrigerators to keep food from freezing
- The King of hearts is the only King without a moustache in a pack of standard playing cards.
- The most popular first name in the world is Muhammad.
- A violin contains about 70 separate pieces of wood.
- The longest recorded flight of a chicken is 13 second.
- A sneeze travels out of your mouth at over 100 mph.

## Did you Know??

A new born rhinoceros weighs upto 60 kilograms.

Jupiter is so large that all other planets in the solar system could fit inside it.

One year on Jupiter is equal to 12 years on Earth!

Unlike most fish the sea horse swims vertically.

Horse shoe crabs have blue colour blood.

## IT'S GREEK TO ME

There's a certain beauty in how the English language accommodates the ever-increasing treasure trove of human knowledge. These unusual words may not be that common in daily life, but who knows, you could find a use for them some day!

1. Karyology:  
Study of cell nuclei.
2. Decimестrial :  
Lasting 10 months.
3. Quaquadrate :  
16th power.
4. Juvenilia :  
Art or works from an artist or author's youth.
5. Ecocide :  
Destruction of the environment

## India in the field of Sports in the year 2014

- India conquers Lords after 28 years, beating England by 95 runs in July.
- Abhinav Bindra signs off from shooting after a spectacular CWG Gold in July.
- Sania Mirza wins the prestigious Grand Slam-US Open doubles title in September.
- Mary Kom wins the historic Asian Games Gold in boxing in October.
- India wins the Asian Games Hockey Gold after 1998 to qualify for Rio Olympics in October .
- Rohit Sharma slams a World Record 264 runs in an ODI in November.
- Saina Nehwal, K. Srikanth win the China Open in November .
- Inaugral IPTL brings the tennis legends Roger Federer, Pete Sampras and Novak Djokovic to India in December.
- Virat Kohi slams two tons on Debut as Test Captain in December.

## Science v/s Religion

Science and religion are two different languages, telling the same truth in two different manners. They are two different sides of the same coin, which here is the existence of mankind on earth and his role to play. Science speaks the modern language...delivering the ancient message. Religion however is being questioned too, for it is not able to prove what it has said and made people believe for endless years. Religion has led to the divisions of people who were created as one, by God himself. The sunsets of religion have been further reduced to wavelengths and frequencies by science and technology. Medicine, electronics, communication, space travel are the miracles of sciences which has made us have a better and a closer relation with this universe and its inhabitants. Science has made us functional and rational in our action and in our minds too. But science does not hold anything sacred like religion. Science kills a child in a mother's womb; it creates a bomb to destroy the world, God has created so beautifully. It has shattered God's world into smaller and smaller pieces, with each piece scrambling and destroying the other, for more power and greed. Though it is science which has taught us the way to make dynamite, but it doesn't ask if it's a good or a bad idea. Here religion checks in, reminding us to consider the moral implications of our actions. Religion, whichever way it may be, has always taught men to live life in a correct and dignified manner. It has taught people to restrain from indulging in bad and unreasonable activities. Religion has always preached mankind the right path to lead life and to remain pure and serene. Religion has made people realize the value and importance of life and has taught them the importance of striving towards their dreams, if they truly wish to achieve them. Bible says- "God helps those who help themselves". Religion has truly helped in giving a meaning to life while science has failed to. However we must realize that for the progress of mankind and humanity, science and religion must go hand in hand. The co-existence of science and religion would only lead to the progress of the world. One must realize that blindly following religion would lead us to nowhere and at the same time without learning the moral and ethics taught to us by our religion, we would not achieve our dreams. Religion and science are both correct from their point of views and both are for the betterment of mankind. It is we humans who have manipulated both of them and have put a question mark against the two, debating their significance. We must understand that Sciences respond to a felt need to understand the world, and Religions respond to a felt need for the world to have meaning. As for the conflicts between them, they are false because there can never be a conflict between science and religions, for both of them truly depict the reality.

## Editorial

We believe that the writing potential exists in all, but it is the urge to write that a few possess. It has been our constant endeavour to stir this urge by getting children and teachers to write about the things that they feel, see, and do. We are proud of the small group of students who showed their active interest in contributing the writeups for IMPRESSIONS 2014-15. We hope that this headstart will help them develop into the writers they want to be.

I would like to thank and congratulate Tushar and Shaheen for their lunch-less sessions to bring this to you. I express my heartiest gratitude to Divya Ma'am, for her continuous support in organising the content.

Amar Singh

Dear Educator,

There is overwhelming consensus within the teaching community today that teaching needs to revolve around the needs of the child. We have moved away from the days of a teacher-dominated classroom and rote learning to one where each individual student is encouraged to explore her world and learn at her own pace.

We at Scholastic support the child-centric approach to education. Scholastic, the global children's publishing, education and media company, is dedicated to helping children around the world to read and learn. Recognising that literacy is the cornerstone of a child's intellectual, personal and cultural growth, for more than 90 years Scholastic has created quality products and services that educate, entertain and motivate children and are designed to help enlarge their understanding of the world around them.

The values and missions of the National Curriculum Framework (NCF) find consonance in the values we hold dear at Scholastic. Our educational material seeks to cultivate the minds of children to the utmost capacity. Our books help them become familiar with our cultural heritage. Scholastic is dedicated to the cause of helping each child excel in creative expression in all fields of learning, literature and art. We also strive to enlarge the student's concern for and understanding of today's world.

Being a known name in the field of education and having worked with the best educators around the world, Scholastic has always set the pace with the latest developments in pedagogy. Every one of our series has been designed to capture the imagination and interest of the student. While addressing the requirements of the prescribed syllabi, our education series encourage the student to think independently and beyond the prescribed lessons.

Not only do we provide world class curriculum books, we also provide, through teacher's manuals, teacher's workshops, professional development and online support innovative teaching ideas and activities that will help liven up any classroom and help in effective teaching.

We hope you continue to find something to inspire and support you in your teaching.
