From the desk of Principal

Dear Students,

There are words to express the profound joy I have in placing the school Annual Magazine 2017 in your hands.

We are presently undergoing a world of great change. It is our duty towards the society to sensitive ourselves towards fanatic and destructive agencies. They hinder our material as well as spiritual growth.

Any educational institution goes much beyond books & memorize calls for dedicated teachers & an excellent crop of students, who seek something beyond books, examinations etc. It imparts a holistic education that factors in the relevance of education to society & LDC is featuring you to face the dual burden of the transforming society.

Children, always continue to work in a positive manner and all the forces of the universe will assist you & you will achieve your dreams. "Better to live than to think about living, better to feel than to fear what must be! This world is a gift, take all the beauty, the light & thank God for good health & the time to enjoy it."

Always try to find humor in the common moral & joy in simple pleasures, where ever life may lead you, since you gather countless treasures.

"There is so much good in this world, Men have to do better but there is always a possibility for the best" So keep trying & don't give up.

"Talk as little as possible, work as much as you can".

"Think big, start small & move fast."

Thank You

Mrs. Subbha Mishra
Principal

M E S S A G E

Divya Gupta

Ever since we embarked upon the idea of promoting education we at LDC decided to provide quality education with a holistic approach towards life and which is tune with modern day demands. Our philosophy of education has always been meeting the needs of the individual child. Children acquire skills and knowledge only if we can make the surroundings stimulating and purposeful.

It is also our constant endeavour that students in our vicinity should not be deprived of global standards in education due to lack of resources and it should stop the flight of academically bright students to far off and distant places. Our students are equipped with technical knowledge, critical thinking skills and creativity which are important ingredients for success. Each student is blessed with different talents and capabilities and hence the school lays equal emphasis on co-curricular and extra-curricular activities. This provides the students an edge over others and helps them to shine in their respective field of activity.

Leadership qualities, character building, speaking abilities, personality development, communication skills and computer knowledge are certain other areas where LDC Public School lays special emphasis upon which eventually will contribute towards building a strong and self-reliant society. We take legitimate pride in our teaching staff which is a judicious blend of rich experience and modern day knowledge. They are the backbone of the new generation and work with complete sincerity and devotion.

Last but not the least, feels to congratulate my team for working hard on the issuance of this edition of the school magazine and doing a great job. These small expressions lead to great "improvements" in the minds of the students.

With love written

Divya Gupta

Member, Governing Society

*"Only as high as I reach can I grow,
Only as far as I seek can I go,
Only as deep as I look can I see,
Only as much as I dream can I be."*

In LDC Public School we train our students to aim for great goal and reach higher, we teach them to dream and reach out for those dreams.

With a commitment to an integrated curriculum approach through activity based learning. We acknowledge, in still and cater different rates and style of learning. Keeping in mind the comprehensive development of child we focus high order thinking skills, social skills and emotional skills through adaptability and effective sound communication techniques. The curriculum is complimented with specially designed programmes like Public Speaking, Reading, Storytelling, Yoga and Self Discipline. LDC Public School with its experienced and well trained faculty run these engaging programmes along with various extracurricular activities like music, dance, art, craft, sports, drama, debate etc. for holistic growth of each child. The ongoing development of the child with strong abilities is actively managed within and outside the classroom parallel to providing them the opportunities for challenge and extension. For Vivekananda, education is a process of "Life building, man and woman making and character building." Parents and guardian concern in their child's learning and activities at school by reinforcing the following: that students come regularly to school every day, as late, as full rest and clean (school uniform) and have all of the equipment required for a successful school day (including healthy lunch).

We encourage all parents and guardians to take an active role in the education and integral development of their child.

HEAD BOY Speaks

"It is always hard work that gives you results; talent and interest are just stars that take you towards the start of your journey of success."

School is not a building or a place to visit for a few hours for fun and enjoyment; instead it's a factory where perfection is created with great zeal and zest. L.D.C. Public School is surely playing a very active and positive role in it. It's been a great pleasure for me to study here and be a part of it. Discipline, sincerity and kindness are the pillars on which my ideals are based. And as the head boy I do my best to show it and inspire others with it. It is said, "Great leaders set example in front of others and inspire them." As students it is necessary for you to share your ideas and views so that we can do better in future, keeping in mind that discipline is a must in life as it develops our character.

As the cabinet head, I would like to see that we are not here to boss over you but to be your friend and solve your problems. All of us are building blocks of this institution and it is our duty to create a fresh, friendly and disciplined atmosphere. We are here to prove ourselves and to show the world our talents and abilities, so don't be shy of it. Special thanks to the management and teachers for cooperating with us and showing us the light to the pathway.

And at last, I express my gratitude towards the enlightening and guiding vision of our school heads, our Principal Mrs. Seelkha Mishra, the mentoring teachers, the kind staff and the student aspirants who put trust in my ability to lead and produce results.

Assure you that I will leave no stone unturned to make our school reach unscalable heights by trying to keep the child intact within us all.

Thank You
Ravi Prakash Gupta

HEAD GIRL Speaks

It was a nice Monday morning and the sun rose in the east and was definitely going to set in the west. Everything was normal about this morning -except the fact

that I Swati Dubey was going to be vested with the responsibilities of being the 'head girl' of this privileged institution. I had the proud win when I was appointed as the head girl of LDC Public School on 11th of August, 2016. The appointment gave me an opportunity to develop my leadership and communication skills while acting as an effective interface between administration and the students. The constant encouragement and guidance from my principal and teachers and love from my fellow classmates was quite inspiring. Being the head girl was the time to live the real. Initially I felt that while caring out my duties I was losing on my friends since they never liked to be pointed out on their flaws. But closely with the guidance of my teachers and with the cooperation and guidance of my teachers and the team I could carry out the assigned task fairly and honestly.

As a head girl I've learnt to handle tough situations affably. Learning time-management was another milestone synchronizing studies with administration as well as under the post obtained my communication and confidence. This post really uplifts me and gives me a nice grin on my face when I walk through the corridors of justice standstill and hearing the protectors whisper 'head girl is to arrive soon, keep quiet all of you or else you'll be taken to father'. Now that's what's called 'sense of power' -what joy this does to me is the same as drinking water after remaining thirsty for long. I feel like a mini principal on the go. This is bound to be my most cherished period since it was my first taste of power. But mind you with power comes with non-anchored responsibilities and keeping them in sync with each other makes a spiderman out of you. So may or may not be that I've been able to perfect my job as superwoman but I did try my level best and that's what is important.

Swati Dubey

OUR ACHIEVERS 2016-17

Topper of the 2nd Batch of LDC-10th Standard

Vishu Yadav

Prishanshu Yadav

Brijendra Pratap Singh

India is in state of transition, from manual to digital. Students of India are the torch bearers for the future. They are the strong pillars for the social structure of tomorrow & this is being nurtured in school, in the values of caring & togetherness.

UDC is trying to reach out to the poorest of the poor & make them strong pillars of the society. With 4 floors all well equipped class rooms to the well lit, green and well flowered lawns it was found to be the best place for the children of the poor. The school is well equipped with all the facilities for the children of the poor. The school is well equipped with all the facilities for the children of the poor. The school is well equipped with all the facilities for the children of the poor.

I request you to continue your loving support. The very first activity of 2016-2017 session was to take the hidden talent of the students to the limelight through a singing competition, for the parents followed by Hindi essay writing competition. For the session,

On 22nd August 2016 English rally was taken out to spread the awareness about the problems to control Global warming & make this earth a beautiful planet for us.

On 1st May 2016 students celebrated the labour day by spreading the message that no work is small or big & it was followed by choosing the surrounding & classrooms by the students themselves.

On 8th May 2016 mothers of boys who were invited and the students of P.G to U.S.G showed love & affection towards their mothers by performing songs & dances. It was really an admirable work.

From 18th May 2016 - 20th May 2016 summer Camp was organized in which students show their talents & were also helped by teachers to work in their fields. Various events like Mehendi designing, football, basketball, karate were taken up.

On 2nd July 2016 teachers orientation was taken up by Mrs. Bange Shankar & Mrs. Samita Nayak to make the teachers multi-tasking, evaluation orientated etc.

On 8th & 9th July 2016 holiday fit in exhibition was exhibited to make the parents understand the quality & val. of teaching done in the school which resulted in the work done by the students.

On 23rd July 2016 Maths Quiz for juniors & on 21st July Drawing Competition for juniors was taken up.

On 28th July 2016 G.E. Competition Quarterfinals took place which made the student aware of day happenings in the world, not only of today but also of the past.

On 4th August 2016 Invention creativity took place in which the students went up to share the responsibility & duties right from the budding stage.

On 30th August 2016 Mr. Ved Prakash our Music teacher was selected for National Young Competition & then the performance to NCOCC & Ashwini Krishna in Class VIII A was also selected in audition for Golden Veer of India. No doubt they have brought great laurels to the school.

Various activities on the birthday of Independence day celebrations were taken up in guidelines given by CBSE in which Mass Tree Plantation, Patriotic Song Competitions, Slogan Writing, Jigsaw Writing was conducted.

The creative art by the students of primary wing was shown when Bindi Making Competition took place.

On 19th August 2016 speech Competition was held up for seniors so that the location can be renewed & they can open their wings in the vast sky.

26 September 2016 was celebrated as Teacher's day by the students.

30 September 2016 Intra School Cricket Match for boys was conducted.

10th September 2016 Hindi Recitation Competition for junior group.

On 12th September 2016 "First International Japan Karate De Association", JJP Cup 2016 was held in Krishna Garden Sportsperson & our teachers as well as students participated in various age groups & bagged Gold, silver & Bronze Medal. It was indeed a proud moment for UDC.

On 14th September 2016 Hindi Divas Celebration followed by Hindi debate on 17th September 2017 conducted by whistlers' book club.

18th September 2016 Table Competition was taken up by students of V-B-K in which they came up with flyers etc.

On 1st October 2016 IOC joined hands in making our country free from pollution in South Bihar Mission. On the same day Table competition for Class VI was conducted.

On 26 October 2016 the students participated in Cardia Painting Contest.

On 7th October 2016 the students also participated in Madhava Matha Olympiad.

Our students not only showed their talents in speeches, debates, but also in creative and literature related making Competitions on 21st October 2016.

On 22nd October 2016 Karagid reading for book for juniors & seniors was held in which students showed their talents. Indeed it was a fun time & time of excitement.

All these activities help them to grow together in harmony, the value of staying, leadership, mutual understanding, creativity on diversity side by side.

On 28th October 2016 eight students participated in CBSE sports Cluster which was held at 800 Yashwantrao. They took part in various events & were qualified for the final in long jump securing 4th position. This was another great moment for the school.

From 11th November to 18th November 2016 Blood group & vision test was taken up by the doctors invited in it a great help for the parents because age is advanced at 10th, 11th & 12th grade of age is not at all good as it is of the child it is in 10th grade.

With all these activities there was a time of celebration for students and teachers by organizing the "Nehru" on 19th November 2016.

Adding to that writing for classes PG-12th was organized on 26, 28 & 29 November 2016 making the minds alert, so that they can start academics with great zeal and enthusiasm.

On 12th November 2016, Inter-house dodge ball match for seniors was conducted from 28-30 November 2016. Book fair was organized which helped students & parents to check the book of their interest & to calculate the reading habit.

From 17-20 December 2016 science exhibition was conducted by CBSE at Lucknow & two of our students with their guide teacher attended it.

Also from 21st to 28th December 2016 two of our students along with guide teacher attended the winter workshop organized by NISE.

It was a good exposure & to interact with counsellors of the schools.

Time of celebration was galloped by various programmes & houses at the time of Christmas.

Certain developmental activities & programmes for the teachers & school also took place.

Orientation for teachers

Teachers attended orientation in Gurgaon, Gurgaon to keep themselves updated for their respective subjects.

Computer teachers attended the workshop taken up by KPS Publications.

The art & craft teachers also attended the workshop on creativity in Patanjali School.

English teachers attended the workshop organized by "Oxford Press" at Patanjali School, Gurgaon.

Career counselling was also conducted for classes 11-12 while talking about school development.

CCV Campus are covering a wider area involving better discipline in the campus.

Various Life Skills Boards have been added already existing in our Board.

Chemistry, Physics, Biology labs have been upgraded for conducting practicals classes especially in Class 10.

Library has been upgraded by adding number of English & Hindi books along with sample Question Papers which help the students to prepare themselves for Board Exams.

Examination cell has been computerized & this teachers have more time to focus on the growth of the school.

New Campus has been started in the Campus in which results with rich material values are available.

Dr. Anshu Chaudhary with her team of Doctors from M.L.N Medical College spoke on Cervical Cancer prevention & HPV Vaccine awareness program in Additions.

Speakers in various classes have been invited. Music instruments have been added up as per requirements.

CBSE had also conducted for Mission statement of the school & LDC opted for removing absenteeism from the students. Partially, this has been achieved but still this has to be worked on.

2nd time it was an attempt to agree with the school on the age of 11 to 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

All the above activities throw light on the development & achievement of both students & teachers & LDC is working hard to fund for the development of students & teachers.

Last but not the least I thank for the staff coming up from the school.

It was an honor to be with all these staff of the school.

Principal

NURSERY SECTION

Parents

You gave me life,
To walk on this earth, you held my hand from the first day,
And took me out of the dark path now,
You are both special in every way,
Encouraging me more and more each passing day,
You have loving heart,
From which I can not part,
You both are the reason why I'm so strong,
With you two in the helm not a thing could go wrong,
You read my stories, but never read my name,
You always encouraged me when I was small,
Thank you both for always being there,
And showing me that you truly care,
Words could never explain how I feel about you,
But I hope you know that I truly love you too!

Activity Room

I like my activity room
I like it a lot
It is my favourite place
Believe it or not
I love building blocks
I have all the toys
I have the cars & buses
and I love the rope
I love painting with vegetables
and playing with clay,
Reading good books
and dancing on floor.

Aakriti Singh

We care

A seminar/educational workshop was organized in LDC Public School on 22nd of December 2016 in which awareness towards "Adolescence in Women" was discussed by the honourable Chief Guest Dr. Anita Chatterjee, B.O.D Gynaecologist of MNHII Allahabad. The students were made aware of various facts & figures regarding the topic discussed.

LDC Public School recently organized an Eye/Medical Test for students as well as the staff in the school premises by Dr. S.P. Dwivedi (MD) Medical and his team members. The workshop was conducted successfully by Dr. Dwivedi in which Eye test and other medical test like Blood group check up of the students was done in the school campus.

LDC Public School is concerned and devoted towards the health & hygiene of the students and would be organizing such useful & beneficial workshop in future for the betterment of the students.

Kavish Jha

MEDICAL CAMP

ADOLESCENT PROGRAMME

Empowerment of Woman can Reduce Atrocities on Them

It has been well said by Swami Vivekanand :
There is no chance for the welfare of nation until the
condition of woman is improved. It is not possible for
a land to fly on only one wing.

Every now and then we come across news
related to atrocities on women. At that moment we
feel pity for the victim. But in the very next moment,
we forget what had happened. We treat it the same
mistake of ignoring those incidents. Are we waiting
for our turn to come?

It is crystal clear that empowering the girl child
to lot of extent can reduce atrocities on them. Today
in this 21st age where man has reached moon and is
sending rockets and satellites in space doctors are
experimenting on operating distant patients through
internet. We are still facing problems related to
women. It is said by society that girls are no way
inferior to boys. But are they getting from their
society? A whole range of discriminatory factors
including female foeticide, female infanticide, early
marriage, dowry death, acid attacks, domestic
violence, Nithyanandan and many more.

There is no doubt that women have played very
important role in nation building but still some people
are not in favour of giving them due powers. The
example is that women reservation bill for 33%
reservation for women in State Assemblies and
Parliament has not been made law yet.

In ancient civilisation girls education had a
significant place in the society. Ganga and Matripi
played very important role in spreading women
education among the masses. The story of Sakhya
Yousufi, the Islamic girl is also a very inspiring story
for women. Despite the fact that she does not have
access to education, she has proved that every cloud
has a silver lining.

Women Empowerment is not a thing to be
brought about by enforcement of any law, it has to
come from within. Simply doing hunger strike and
candle marches will not change the face. If we really
want to contribute something to our society, to
women we will have to upgrade the mentality of
entire generation so that they can learn to respect

women. On the other hand, women also should be
very much confident about their position in the
society. Please! Don't sit with a begging bowl for the
men folk to throw some crumbs of attention. Your
greatest self has been waiting for you whole life!
Don't make it wait any longer. Be the first one to raise
voice against the atrocities on you. Men who see
women as inferior must not forget, "A hand that rocks
the cradle can rule the world as well" Wake up!

Winners versus Losers

The winner is always a part of the answer.
The loser is always a part of the problem.
The winner always has a programme.
The loser always has an excuse.
The winner says, "let me do it for you".
The loser was a problem for every answer.
A winner makes commitments.
A loser makes promises.
Winners have dreams.
Losers have schemes.
Winners say, "I'm into something".
Loser say, "something must be done".
Winners are a part of team.
Losers are apart from the team.
Winners see possibilities.
Losers see problems.
Winners see the gain.
Losers see the pain.

Colourful India

Our's is a land of ages,
 Known for bravery for ages.
 None can with it compete,
 Its culture none can beat.
 Whatever caste or religion,
 All live here in union,
 With rivers, sweet fountains,
 It's a land of high mountains.
 Its green forests are pretty,
 And are source of prosperity,
 Let's for it work hard,
 For its safety, be on guard.

Nidhi Shukla

Did You Know

1. Algebra, Trigonometry and Calculus are sciences which originated in India.
2. Chess was invented in India.
3. Besides USA & Japan, India is the only other country in the world to have indigenously built a super computer.
4. The 2nd largest number of engineers and scientists in the world are in India.
5. India exports softwares to 90 nations.
6. May 26 is observed as the 'Science Day' in Switzerland in honour of former President Dr. APJ Abdul Kalam visiting Switzerland on this day.
7. June 21 is declared as the 'International Day of Yoga' by the United Nations - a practice prevalent in India since time immemorial.

Ayushi Mishra

VI-C

What makes our Country Unique...

1. India is the largest democracy in the world with 1.25 billion people spread over 29 states, 7 union territories and 707 districts.
2. India has never invaded any country in the last 10000 years of its existence.
3. India is the second largest English speaking country in the world.
4. India has the largest number of post offices in the world.
5. The exact number of movies in the world are made in India giving employment directly or indirectly to 7.2 million people.
6. India is unique in terms of its diversity in art, culture, dance forms, festivals, food, jewelry, topography. Yet we practice peace and harmony.

Jarshi Kumarwari

Science

- Nerve impulses travel at over 300km/h.
- Our blood is on a 40,000 mile journey a day.
- Our lungs inhale over two million litres of air every day.
- We excrete at least 36 muscles when we smile.
- We give birth to over 200 billion red cells every day.
- The average human brain weighs about 3 pounds.
- There is enough DNA in an average person's body to stretch 10 billion miles, from earth to pluto and back.
- The average human body carries ten times more bacterial cells than human cells.
- It can take a photon 40,000 years to travel from the core of the sun to its surface, but only 8 minutes to travel the rest of the way to Earth.
- The average person walks the equivalent of five times around the world in a lifetime.
- When Helium is cooled to almost absolute zero the lowest temperature possible, it becomes a liquid with surprising properties: it flows against gravity and will start running up and over the lip of a glass container.
- The average human produces 25,000 quarts of urine in a lifetime, enough to fill two swimming pools.
- The largest bone in the human body is the femur. It can support 30 times the weight of a person's body. Chances for success, that's stronger than steel.

Treat Diseases related to specialists

1. Infants and children - Pediatrician
2. Heart and circulatory system - Cardiologist
3. Brain and nervous system - Neurologist
4. Eyes - Ophthalmologist
5. Skin problems - Dermatologist
6. Skeletal system - Orthopedic
7. Ear, nose and throat - ENT specialist
8. Mental disorder - Psychiatrist
9. Teeth - Dentist
10. Diet - Dietician

Amazing facts about the Human Body

- We are about 1cm taller in the morning than in the evenings.
- In full sprint a human body can generate up to 2000 watts or 2.5 horsepower of energy.
- After eating too much, your hearing becomes less sharp.
- Women's heart beats run faster than men's.
- Nature cures the pupils of your eyes to dilate. Even very small noses can do this.
- Your eyes remain the same size after birth but your nose and ears never stop growing.
- The strongest muscle in the body is the human tongue.
- Everyone has a unique smell, unique finger print and unique tongue print.
- Women are born better swimmers than men and remain better swimmers over life.
- Men burn fat faster than women by a rate of about 50 calories a day.

Amazing facts about the 'Science'

- Ocean waves can travel as fast as a jet plane.
- At over 2000 kilometers long, The Great Barrier Reef is the largest living structure on Earth.
- Nitrous oxide can make you laugh. That is why it is called laughing gas.
- A typical hurricane produces the energy equivalent of 8000 one megaton bombs.
- The average person accidentally eats 430 bugs each year of the life.
- The highest speed ever achieved on a bicycle is 166.34 mph, by Fred Rompelberg.

Some Mind Blowing Computer Facts

1. The first electronic computer ENIAC, weighed more than 37 tons and took up 18000 square feet.
2. Only about 10% of the world's currency is physical money, the rest only exist on computers.
3. Doug Engelbart invented the first computer mouse in around 1964 which was made of wood.
4. If there was a computer as powerful as the human brain, it would be able to do 38 thousand trillion operation per second and hold more than 1380 terabytes of memory.
5. An average person normally blinks 20 times a minute, but when using a computer he/she blinks only 7 times a minute.
6. The browser where Bill Gates lives, was designed using a Macintosh Computer.
7. The first ever hard disk drive was made in 1973, and could hold only 5MB of data.
8. The first 1GB hard disk drive was announced in 1980 which weighed about 150 pounds and had a price tag of \$40000.
9. The first Mac processor created by Intel was the 4004. It was designed for a calculator and in that time nobody imagined where it would lead.
10. IBM 5120 from 1980 was the heaviest desktop computer ever made. It weighed about 100 pounds, not including the 130 pounds external floppy drive.
11. Mosaic was the first popular web browser, released in the year 1993.
12. Electronic Brains? That's what computers were called in the 1950s.

Sapna Pandey
Computer teacher.

Time

- To realize the value of One Year, ask a student who failed an exam.
- To realize the value of one month, ask a mother who gave birth to a premature baby.
- To realize the value of one Week, ask the editor of a weekly newspaper.
- To realize the value of one Hour, ask the lovers who are waiting to meet.
- To realize the value of one Minute, ask a person who missed the train.
- To realize the value of one second, ask a person who just avoided an accident.
- A Minute now is better than a minute later!
(Treadan every moment)

Maths

Magic with 17

$$3 \times 17 = 51$$

$$6 \times 17 = 102$$

$$9 \times 17 = 153$$

$$12 \times 17 = 204$$

$$15 \times 17 = 255$$

$$18 \times 17 = 306$$

$$21 \times 17 = 357$$

$$24 \times 17 = 408$$

$$27 \times 17 = 459$$

Kavitha Johari

If you think

If you think you are beaten, you are!
 If you think you dare not, you don't!
 If you like to win, but think you can't,
 It's almost as sure you won't!
 If you think you'll lose, you're lost!
 For, out in the world we find,
 Success begins with a fellow's will,
 It's all in the state of mind!
 If you think you are out-braved, you are,
 You've got to think high to rise,
 You've got to be sure of yourself
 Before you can ever win a prize!
 Life's a battle doesn't always go
 To the stronger and faster man,
 But sooner or later the man who wins,
 IS THE MAN WHO THINKS HE CAN!

Interesting Facts

- Queen ants can live to be 30 years old.
- As fast as dragon flies can flap their wings, bees are even faster they can flap their wings 435 times per second!
- A hippopotamus can run faster than a man.
- The smallest bird in the world is the Hummingbird, it weighs 1oz.
- The Highest Kangaroo leap recorded is 10' and the longest is 42 ft.

LAW OF SUCCESS

There is no more dangerous person dangerous to himself and to others than the person who passes judgment pretending to know facts.

To love praise, but not worship it, and fear condemnation but not go down under it, is evidence of a well balanced personality.

The person who sows a single beautiful thought in the mind of another, renders the world a greater service than that rendered by all the faultfinders combined. There is no lazy man. What may appear to be a lazy man is only an unfortunate person who has not found the work for which he is best suited.

Congratulate yourself when you reach that degree of wisdom which prompts you to see less of the weakness of others and more of your own, for you will then be walking into the future of really great.

CLEANLINESS

Cleanliness, Cleanliness, Cleanliness

Cleanliness brings health.

And health brings wealth.

Wealth is money.

But it is very funny.

That people chase wealth

And forget about health

'So keep your body healthy'

Keep your environment

'Clean and green'

Cleanliness is next to godliness.

My Favourite Teachers

You are my favourite teacher

This is very clear,

You encourage me,

To learn and create.

Your teaching style

Is a wonderful trait.

You're my favourite teacher!

This is very close,

I hope and I pray

You'll be my teacher.

Next Year.

Oh God

Oh God, Oh God

You are my father

I am your little child

Give me your heart

Show me your light

That's I may

Follow the way

Two things good

And two things right

Interesting Facts

- In order to go deeper into a lake, Crocodiles swallow pebbles.
- Honey is the one and only substance that never decays.
- The frogs of Thailand produce a sound just like that of a flute.
- The names of all continents end with the same letter they start with.
- Leonardo Da Vinci invented the scissors.

Festivals

Festivals are occasion for feasting and celebrating a day or period of significance. There are numerous types of festivals celebrated across the world. Though many have religious origin, there are others which involve seasonal change and cultural relevance too often related to the glorious heritage, tradition and culture of a country. Festival's aim is to bring people and community closer together. They give us a feeling of unity, harmony, joy and peace.

Interesting English

Did you know

The shortest complete sentence in English is 'I am'.

The only word in English language with five consecutive vowels is 'Quaivering' which means making a quiver.

The longest word in English language without repetition of any letter is 'Uncopyrightable'.

If we write down the name of every English number i.e. one, two, three etc., we wouldn't use the single letter 'B' until we reach 'One-Billion'.

The most commonly used letter in English Language is 'E'. It is one in eight of all the letters written in English.

Kavish Jekar

The Other Way Round

- Quicksand works slowly.
- There is no-egg in eggplant.
- No hair in hamburger.
- Neighbor Apple use pine in pineapple.
- Boxing rings are square.
- There are roses that run and hot that smell.

Ashit Vishwakarma
8th-8

The 15th Century Persian Sufi poet Jalaluddin Rumi Said

I will fly and fly
I am born with potential,
I am born with goodness and trust,
I am born with ideas and dreams,
I am born with greatness,
I am born with Confidence,
I am born with wings.

So, I am not meant for crawling,
These wings, I will fly
I will fly and fly.

Love & Affection

Always do your best,
Your deeds are your test.
Give affection to youngsters,
You shall be loved by elders.
Do not ever hate anyone,
You shall win heart of everyone.
Extend your help at all times,
You shall shine as sun shines.
Smile and laugh come what may,
No sorrow will touch you anyone.
