DETAILED CONTENTS

Preface xiii

About the Authors xix

CHAPTER ONE

Abnormal Psychology: An Overview

What Do We Mean by Abnormal Behavior?

- Dilemmas of Definition 4
- The DSM-IV Definition of Mental Disorder 4
- Cultural Influences in Abnormality 5
- Mental Disorder as Maladaptive Behavior 5

Classifying Abnormal Behavior

- Reliability and Validity 6
- Differing Models of Classification 7
- DSM Classification of Mental Disorders 8
- Assessment and Diagnosis 13
- The Mental Health "Team" 14

The Extent of Abnormal Behavior

Research in Abnormal Psychology

- Observation of Behavior 19
- Forming Hypothesis About Behavior 19
- Sampling and Generalization 20
- The Difference Between Correlation and Causation 21
- Experimental Strategies in Abnormal Psychology 23
- Clinical Case Studies 25
- Retrospective Versus Prospective Strategies 25

The Orientation of this Book

Unresolved Issues: The DSM

Summary

Key Terms

CHAPTER TWO

Historical Views of Abnormal Behavior

Abnormal Behavior in Ancient Times

- Demonology, Gods, and Magic 32
- Hippocrates' Early Medical Concepts 33
- Early Philosophical Conceptions of Consciousness and Mental Discovery 34
- Later Greek and Roman Thought 34

Views of Abnormality During the Middle Ages

Toward Humanitarian Approaches

- The Resurgence of Scientific Questioning in Europe 40
- The Establishment of Early Asylums and Shrines 41
- Humanitarian Reform 42
- Nineteenth-Century Views of the Causes and Treatment of Mental Disorders 47
- Changing Attitudes Toward Mental Health in the Early Twentieth Century 47

The Beginning of the Modern Era

- Establishing the Link Between the Brain and Mental Disorder 49
- Establishing the Psychological Basis of Mental Disorder 51
- The Evolution of the Psychological Research Tradition 55

Unresolved Issues: Interpreting Historical Events

Summary

Key Terms

CHAPTER THREE

Causal Factors and Viewpoints in Abnormal Psychology

Causes and Risk Factors for Abnormal Behavior

- Necessary, Sufficient, and Contributory Causes 63
- Feedback and Circularity in Abnormal Behavior 64
- Diathesis-Stress Models 65

Models or Viewpoints for Understanding Abnormal Behavior

- The Value of Viewpoints 67
- Multidimensional, Eclectic, and Integrative Approaches 67

The Biological Viewpoints

Biological Causal Factors

- Neurotransmitter and Hormonal Imbalances 68
- Genetic Vulnerabilities 71
- Constitutional Liabilities 75

Brain Dysfunction and Neural Plasticity	78		
Physical Deprivation or Disruption	78		
The Impact of the Biological Viewpoint	80		
The Psychosocial Viewpoints		81	
The Psychodynamic Perspectives	81		
The Behavioral Perspective	91		
The Cognitive-Behavioral Perspective	94		
What the Adoption of a Perspective Does and Does Not Do	97		
Psychosocial Causal Factors		97	
Our Views of the World and of Ourselves: Schemas and Self-Schemas	98		
Early Deprivation or Trauma	100		
Inadequate Parenting Styles	103		
Marital Discord and Divorce	105		
Maladaptive Peer Relationships	107		
The Sociocultural Viewpoint		108	
Uncovering Sociocultural Factors Through Cross-Cultural Studies	109		
Sociocultural Influences in Our Own Society	112		
Sociocultural Causal Factors		112	
The Sociocultural Environment	112		
Pathogenic Societal Influences	113		
<i>Unresolved Issues: Theoretical Viewpoints and the Causes of Abnormal Behavior</i>		116	
Summary		117	
Key Terms		118	
CHAPTER FOUR			
Stress and Adjustment Disorders		119	
What Is Stress?		120	
Categories of Stressors	121		
Factors Predisposing a Person to Stress	122		
Coping with Stress	127		
The Effects of Severe Stress		128	
Biological Effects of Stress	129		
Psychological Effects of Long-Term Stress	132		
Adjustment Disorder: Reactions to Common Life Stressors		133	
Stress from Unemployment	133		
Stress for Bereavement	135		
Stress from Divorce or Separation	136		
Post-Traumatic Stress Disorder: Reactions to Catastrophic Events		136	
Causal Factors in Post-Traumatic Stress	141		
The Trauma of Rape	141		
The Trauma of Military Combat	143		
Severe Threats to Personal Safety and Security	148		
Treatment and Prevention of Stress Disorders		151	
Stress Prevention or Reduction	153		
Treatment of Post-Traumatic Stress Symptoms	153		
<i>Unresolved Issues: The Abuse of PTSD Diagnosis and Other Stress Diagnoses</i>		155	
Summary		156	
Key Terms		157	
CHAPTER FIVE			
Panic, Anxiety, and Their Disorders		158	
The Fear and Anxiety Response Patterns		159	
Overview of the Anxiety Disorders		161	
Phobic Disorders		161	
Specific Phobias	162		
Social Phobia	169		
Panic Disorder with and without Agoraphobia		172	
Distinguishing Features Between Panic and Anxiety	173		
Agoraphobia	173		
Prevalence and Age of Onset of Panic Disorder with and without Agoraphobia	175		
Comorbidity with Other Disorders	175		
The Timing of a First Panic Attack	176		
Biological Causal Factors	176		
Cognitive and Behavioral Causal Factors	178		
Treating Panic Disorder and Agoraphobia	182		
Generalized Anxiety Disorder		183	
General Characteristics	184		
Prevalence and Age of Onset	186		
Comorbidity with Other Disorders	187		
Psychosocial Causal Factors	188		
Biological Causal Factors	191		
Treating Generalized Anxiety Disorder	192		
Obsessive-Compulsive Disorder		192	
Prevalence and Age of Onset	193		
Characteristics of OCD	194		
Psychosocial Causal Factors	198		
Biological Causal Factors	199		
Treating Obsessive-Compulsive Behavior	203		
General Sociocultural Causal Factors for All Anxiety Disorders		204	
Cultural Differences in Sources of Worry	204		
Taijin Kyofusho	204		
General Issues Regarding Treatments and Outcomes		205	
<i>Unresolved Issues: Interdisciplinary Research on the Anxiety Disorders</i>		206	
Summary		206	
Key Terms		208	

CHAPTER SIX

Mood Disorders and Suicide 209

What Are Mood Disorders? 210

The Prevalence of Mood Disorders 212
 Depression Throughout the Life Cycle 212

Unipolar Mood Disorders 212

Depressions That Are Not Mood Disorders 213
 Mild to Moderate Depressive Disorders 214
 Major Depressive Disorder 216

Bipolar Disorders 219

Cyclothymia 219
 Bipolar Disorders 220
 Schizoaffective Disorder 224

Causal Factors in Unipolar Mood Disorders 224

Biological Causal Factors 224
 Psychosocial Causal Factors 229

Causal Factors in Bipolar Disorder 243

Biological Causal Factors 243
 Psychosocial Causal Factors
 in Bipolar Disorder 247

**Sociocultural Factors Affecting Unipolar
 and Bipolar Disorders 248**

Cross-Cultural Differences in
 Depressive Symptoms 248
 A Belief in Self-Sufficiency 249
 Relieving Losses 250
 Demographic Differences in the United
 States 250

Treatments and Outcomes 251

Pharmacotherapy and Electroconvulsive Therapy 251
 Psychotherapy 253

Suicide 255

The Clinical Picture and the Causal Pattern 256
 Suicidal Ambivalence 261
 Suicide Prevention and Intervention 262

**Unresolved Issues: Mood Disorders
 and Suicide 264**

Summary 265

Key Terms 266

CHAPTER SEVEN

**Somatoform and Dissociative
 Disorders 267**

Somatoform Disorders 268

Somatization Disorder 268
 Hypochondriasis 269
 Pain Disorder 271

Conversion Disorder 273
 Distinguishing Conversion from
 Malingering/Factitious Disorder 276
 Precipitating Circumstances 278
 Causal Factors in Somatoform Disorders 278
 Treatment and Outcomes in
 Somatoform Disorders 279

Dissociative Disorders 280

Dissociative Amnesia and Fugue 280
 Dissociative Identity Disorder 282
 Depersonalization Disorder 285
 Causal Factors in Dissociative Disorders 286
 Treatment and Outcomes in
 Dissociative Disorders 289

Unresolved Issues: DID and Childhood Trauma 290

Summary 292

Key Terms 292

CHAPTER EIGHT

**Eating Disorders and Other
 Psychological Compromises
 of Physical Health 293**

Eating Disorders 295

Definitions and Gender Differences 296
 Clinical Picture and Diagnostic Criteria
 in Anorexia 296
 Clinical Picture and Diagnostic Criteria
 in Bulimia 297
 Distinguishing Among Diagnoses 298
 Prevalence of Eating Disorders 299
 Generalized Risk and Causal Factors
 in Eating Disorders 301
 Specific Risk and Causal Factors
 in Anorexia and Bulimia Nervosa 305
 Treatment of Eating Disorders 307

**General Psychological Factors in Health
 and Disease 308**

Health, Attitudes, and Coping Resources 308
 Psychosocial Factors and the Immune System 311
 Lifestyle as a Factor in Health Endangerment 314

**Psychological Factors and
 Cardiovascular Disease 314**

Essential Hypertension 315
 Coronary Heart Disease and the Type A
 Behavior Pattern 316

General Causal Factors in Physical Disease 321

Biological Factors 322
 Psychosocial Factors 325
 Sociocultural Factors 327

Treatments and Outcomes	327	CHAPTER TEN	
Biological Measures	327	Substance-Related and Other	
Psychosocial Measures	328	Addictive Disorders	373
Sociocultural Measures	329	Alcohol Abuse and Dependence	374
Unresolved Issues: Medical Education	330	The Prevalence, Comorbidity, and	
and Practice	330	Demographics of Alcoholism	376
Summary	331	The Clinical Picture of Alcohol Abuse	
Key Terms		and Dependence	377
		Biological Factors in the Abuse of and Dependence	
CHAPTER NINE		on Alcohol and Other Substances	383
Personality Disorders	332	Psychosocial Causal Factors in Alcohol Abuse	
Clinical Features of Personality Disorders	334	and Dependence	385
DSM-IV's Five Criteria	334	Sociocultural Factors	390
Difficulties in Diagnosing Personality Disorders	335	Treatment of Alcoholism	390
Categories of Personality Disorders	336	Drug Abuse and Dependence	397
Paranoid Personality Disorder	336	Opium and Its Derivatives (Narcotics)	398
Schizoid Personality Disorder	338	Cocaine and Amphetamines (Stimulants)	403
Schizotypal Personality Disorder	339	Barbiturates (Sedatives)	406
Histrionic Personality Disorder	340	LSD and Related Drugs (Hallucinogens)	406
Narcissistic Personality Disorder	340	Marijuana	408
Antisocial Personality Disorder	342	Other Addictive Disorders: Hyperobesity	
Borderline Personality Disorder	343	and Pathological Gambling	409
Avoidant Personality Disorder	344	Extreme Obesity	409
Dependent Personality Disorder	346	Pathological Gambling	413
Obsessive-Compulsive Personality Disorder	347	Unresolved Issues: The Genetics	
Provisional Categories of Personality Disorder		of Alcoholism	416
in DSM-IV	348	Summary	417
Overview of Personality Disorders	349	Key Terms	418
Causal Factors in Personality Disorders	350		
Biological Causal Factors	350	CHAPTER ELEVEN	
Psychological Causal Factors	351	Sexual Variants, Abuse,	
Sociocultural Causal Factors	352	and Dysfunctions	419
Treatments and Outcomes	353	Sociocultural Influences on Sexual	
Adapting Therapeutic Techniques		Practices and Standards	421
to Specific Personality Disorders	354	Case 1: Degeneracy and Abstinence Theory	421
Treating Borderline Personality Disorder	354	Case 2: Ritualized Homosexuality	
Treating Other Personality Disorders	355	in Melanesia	422
Antisocial Personality and Psychopathy	356	Case 3: Homosexuality and American Psychiatry	423
Psychopathy and ASPD	356	Sexual and Gender Variants	425
The Clinical Picture in Antisocial		The Paraphilias	425
Personality and Psychopathy	357	Causal Factors and Treatments for Paraphilias	433
Causal Factors in Psychopathy and Antisocial		Gender Identity Disorders	434
Personality	362	Sexual Abuse	438
Treatments and Outcomes in Psychopathic		Childhood Sexual Abuse	438
and Antisocial Personality	366	Pedophilia	442
Unresolved Issues: Axis II of DSM-IV	370	Incest	443
Summary	371	Rape	445
Key Terms	372	Treatment and Recidivism of Sex Offenders	448

Sexual Dysfunctions	452	Summary	501
Dysfunctions of Sexual Desire	453	Key Terms	502
Dysfunctions of Sexual Arousal	454		
Orgasmic Disorders	456		
Dysfunctions Involving Sexual Pain	458		
Unresolved Issues: Long-Term Consequences of Childhood Sexual Abuse	458		
Summary	460		
Key Terms	461		
CHAPTER TWELVE			
The Schizophrenias and Delusional Disorder	462	CHAPTER THIRTEEN	
The Schizophrenias	464	Brain Disorders and Other Cognitive Impairments	503
Origins of the Schizophrenia Concept	464	Brain Impairment and Adult Disorder	504
Prevalence and Onset	464	Neuropsychological Disorders and Brain Damage	504
The Clinical Picture in Schizophrenia	465	Neuropsychological Symptom Syndromes	508
Disturbance of Associative Linking	466	Neuropsychological Disorder with HIV-1 Infection	511
Disturbance of Thought Content	467	Dementia of the Alzheimer's Type	512
Disruption of Perception	467	Vascular Dementia	519
Emotional Dysfunction	468	Disorders Involving Head Injury	520
Confused Sense of Self	469	Mental Retardation	523
Disrupted Volition	469	Levels of Mental Retardation	524
Retreat to an Inner World	469	Brain Defects in Mental Retardation	526
Disturbed Motor Behavior	469	Organic Retardation Syndromes	528
Continuing Problems in Defining Schizophrenia	469	Cultural-Familial Mental Retardation	531
The Classic Subtypes of Schizophrenia	470	The Problem of Assessment	533
Undifferentiated Type	470	Treatments, Outcomes, and Prevention	533
Catatonic Type	471	Learning Disorders	535
Disorganized Type	473	The Clinical Picture in Learning Disorders	536
Paranoid Type	474	Causal Factors in Learning Disorders	537
Other Schizophrenic Patterns	476	Treatments and Outcomes	538
Causal Factors in Schizophrenia	476	Unresolved Issues: On Cultural-Familial Retardation	539
Biological Factors in Schizophrenia	476	Summary	540
Psychosocial Factors in Schizophrenia	489	Key Terms	541
Sociocultural Factors in Schizophrenia	492		
Treatments and Outcomes	493	CHAPTER FOURTEEN	
The Effects of Antipsychotic Medication	493	Disorders of Childhood and Adolescence	542
Psychosocial Approaches in Treating Schizophrenia	494	Maladaptive Behavior in Different Life Periods	543
Delusional Disorder (Paranoia)	496	Varying Clinical Pictures	544
Diagnosis of Delusional Disorder	496	Special Vulnerabilities of Young Children	544
The Clinical Picture in Delusional Disorder	497	The Classification of Childhood and Adolescent Disorders	544
Causal Factors in Delusional Disorder	498	The Categorical Strategy	546
Treatments and Outcomes in Delusional Disorder	500	The Dimensional Strategy	546
		Contrasting Categorical and Dimensional Strategies	546
		Disorders of Childhood	547
		Attention-Deficit Hyperactivity Disorder	547
		Conduct Disorder and Oppositional Defiant Disorder	551
Unresolved Issues: The Overlooked Value of Psychosocial Intervention in the Schizophrenias	500		

Anxiety Disorders of Childhood and Adolescence 557
 Childhood Depression 559
 Symptom Disorders: Enuresis, Encopresis, Sleepwalking, and Tics 562

Pervasive Developmental Disorder: Autism 565
 The Clinical Picture in Autism Disorder 566
 Causal Factors in Autism 568
 Treatments and Outcomes 569

Planning Better Programs to Help Children and Adolescents 570
 Special Factors Associated with Treatment for Children and Adolescents 570
 Child Abuse 574
 Child Advocacy Programs 577

Unresolved Issues: Can Society Deal with Delinquent Behavior? 578
 Summary 581
 Key Terms 582

CHAPTER FIFTEEN
Clinical Assessment 583

The Basic Elements in Assessment 585
 The Relationship Between Diagnosis and Assessment 585
 Taking a Social History 585
 The Influence of Professional Orientation 586
 Trust and Rapport Between the Clinician and the Client 587

Assessment of the Physical Organism 587
 The General Physical Examination 587
 The Neurological Examination 587
 The Neuropsychological Examination 590

Psychosocial Assessment 590
 Assessment Interviews 590
 The Clinical Observation of Behavior 593
 Psychological Tests 596
 Psychological Assessment in Forensic or Legal Cases 608
 A Psychological Case Study: Esteban 609

The Integration of Assessment Data 614
 Ethical Issues in Assessment 614

Unresolved Issues: Incorporating Psychological Test Data into Therapy—An Unfulfilled Relationship 615
 Summary 616
 Key Terms 617

CHAPTER SIXTEEN
Biologically Based Therapies 618

Early Attempts at Biological Intervention 619
 Coma and Convulsive Therapies 619
 Neurosurgery 622

Psychopharmacological Methods of Treatment 625
 Antipsychotic Drugs 625
 Antidepressant Drugs 629
 Antianxiety Drugs 634
 Lithium and Other Mood-Stabilizing Drugs for the Bipolar Mood Disorders 636
 Drug Therapy for Children 639

Unresolved Issues: Medication and/or Psychotherapy? 640
 Summary 642
 Key Terms 642

CHAPTER SEVENTEEN
Psychologically Based Therapies 643

An Overview of Psychological Treatment 644
 Why Do People Seek Therapy? 644
 Who Provides Psychotherapeutic Services? 646
 The Therapeutic Relationship 646

Psychodynamic Therapies 648
 Freudian Psychoanalysis 648
 Psychodynamic Therapy Since Freud 650
 Evaluating Psychodynamic Therapy 651

Behavior Therapy 654
 Guided Exposure 654
 Aversion Therapy 657
 Modeling 658
 Systematic Use of Reinforcement 658
 Evaluating Behavior Therapy 662

Cognitive and Cognitive-Behavioral Therapy 662
 Rational Emotive Behavior Therapy 663
 Stress-Inoculation Therapy 664
 Beck's Cognitive Therapies 665
 Evaluating Cognitive-Behavior Therapies 667

Humanistic-Experiential Therapies 668
 Client-Centered Therapy 668
 Existential Therapy 670
 Gestalt Therapy 671
 Evaluating the Humanistic-Experiential Therapies 672

Therapy for Interpersonal Relationships 672
