SECTION 1 : COSTING FUNDAMENTALS

Chapter	Pages
1. General Principles	1—44
Origin and Growth	1
Meaning and Scope of Cost Accountancy	1
Objectives of Cost Accounting	3
Cost Accounting <i>Versus</i> Financial Accounting	4
Importance of Cost Accounting	6
Objections to Cost Accounting	9
Cost	9
Elements of Cost	10
Components of Cost	14
Classification of Costs	21
Cost Ascertainment	28
Installation of Costing System	31
Methods of Costing	33
Techniques of Costing	35
Systems of Costing	36
Test Questions	37
Practical Problems	40
2. Materials	45—125
Materials Control	45
Purchasing of Materials	45
Receiving of Materials	47
Inspection of Materials	50
Storage of Materials	50
Issuing of Materials	59
Maintenance of Inventory Records	62
Incoming Materials	70
Outgoing Materials	72
An Appraisal of Pricing Methods	100
Stock Valuation	104
Stock Audit	104
Techniques of Material Control	107
Turnover Ratios	108
Material Losses	110
Inventory Control	113
Test Questions	116
Practical Problems	118
3. Direct Labour and Direct Expenses	126—191
Direct and Indirect Labour	126
Control over Labour Costs	126
Personnel Department	127

Engineering and Works Study Department	
Time-keeping Department	128
Pay-master's Department	132
Cost Accounting Department	143
Treatment of Holiday Pay, Idle Time, Overtime etc. in Cost Accounts	148
Labour Turnover	149
Methods of Wage Payment	153
Incentive Plans	157
Accounting for Labour	163
Direct Expenses	175
Test Questions	184
Practical Problems	185
	186
4. Overheads-General	192—216
Classification of Overheads	192
Factory Overheads	197
Comments on certain items of Factory Overheads	197
Office and Administrative Overheads	210
Selling and Distribution Overheads	211
Comments on certain items of Selling and Distribution Overheads	212
Test Questions	213
5. Overheads-Distribution	217—282
Overheads Distribution—Stages	217
Distribution of Factory Overheads	221
Inter-department Service	227
Distribution of Office and Administration Overheads	248
Distribution of Selling and Distribution Overheads	253
Actual Versus Pre-determined Rates	260
Over and Under-absorption of Overheads	261
Test Questions	267
Practical Problems	268

SECTION 2 : COSTING FOR SPECIFIC INDUSTRIES

6. Single or Output Costing	285—327
Components of Cost for Output Costing	285
Cost Sheet	286
Production Account	288
Treatment of Stock and Scrap	288
Test Questions	317
Practical Problems	318
7. Job, Batch and Contract Costing	328—381
Job Costing	328
Objectives	328
Procedure	329

Batch Costing	335
Nature and Use of Batch Costing	335
Determination of Economic Batch Quantity	336
Contract Costing	338
Specific aspects of Contract Costing	338
Profit on Incomplete Contracts	344
Test Questions	370
Practical Problems	370
8. Process Costing	382—451
General Principles	382
Process Losses and Wastage	387
Work-in-progress	401
By-products and Joint-products	417
Inter-process Profits	428
Test Questions	438
Practical Problems	438
9. Operating Costing	452—476
Determination of Unit of Cost	452
Transport Costing	454
Power House Costing	466
Canteen Costing	468
Test Questions	469
Practical Problems	470

SECTION 3 : ACCOUNTING METHODS

10. Cost Control Accounts	479—504
Ledgers Required	479
Journal Entries	481
Test Questions	501
Practical Problems	501
11. Reconciliation of Cost and Financial Accounts	505—538
Causes of Difference	505
Preparation of Reconciliation Statement and Memorandum Reconciliation Account	507
Test Questions	531
Practical Problems	531
12. Integrated Accounts	539—559
Meaning and Advantages	539
Basic Requirements	540
Journal Entries	542
Third Entry Method	542
Distinction between Interlocking and Integration of Cost and Financial Accounts	545
Test Questions	554
Practical Problems	554

SECTION 4 : COSTING FOR CONTROL

13. Budgetary Control

Meaning of Budget	563—611
Meaning of Budgetary Control	563
Advantages of Budgetary Control	563
Limitations to Budgetary Control	564
Steps in Budgetary Control	565
Types of Budgets	566
Fixed and Flexible Budgeting	568
Implementation of Budgets	584
Control Ratios	589
Responsibility Accounting	590
Performance Budgeting	592
Zero Base Budgeting	597
Test Questions	598
Practical Problems	601

14. Standard Costing

Definition of Standard Costing	612—708
Budgetary Control and Standard Costing	612
Standard Costing Vs. Historical Costing Vs. Estimated Costing	613
Application of the technique of Standard Costing	613
Advantages of Standard Costing	614
Limitations of Standard Costing	615
Meaning and Determination of Standard Costs	616
Analysis of Variances	617
Direct Material Variances	624
Direct Labour Variances	627
Revision Variance	644
Overhead Variances	651
Sales Variances	651
Control of Variances	671
Accounting Procedure	681
Test Questions	691
Practical Problems	691

15. Marginal Costing and Cost Volume Profit Analysis

Marginal Costing	709—79
Marginal Costing and Differential Costing	70
Marginal Costing and Absorption Costing	71
Segregation of semi-variable Overheads	71
Contribution	71
Profit/Volume Ratio (P/V Ratio)	71
Key-Factor	71
Break-even Analysis	71
Break-even Chart	71
Margin of Safety	71
Angle of Incidence	71
Advantages of Marginal Costing	71

Limitations of Marginal Costing	754
Application of Marginal Costing Technique	754
Test Questions	779
Practical Problems	780
16. Uniform Costing and Inter-firm Comparison	796—809
Reasons for differences in Costs and Costing Practices	796
Application of Uniform Costing	797
Objectives of Uniform Costing	798
Advantages of Uniform Costing	799
Limitations of Uniform Costing	800
Fields of Uniformity	801
Uniform Cost Manual	802
Uniform Cost Accounting	803
Inter-firm Comparison	805
Test Questions	808
17. Presentation of Cost Information (I)	810—816
Meaning of Report	810
Requisites of a Good Report	810
Steps for Effective Reporting	812
Types of Cost Reports	813
Review of Reports	815
Test Questions	815
Practical Problems	816
18. Presentation of Cost Information (II)	817—844
Advantages of Diagrammatic Presentation	817
Limitations of Diagrammatic Presentation	818
Types of Diagrams	818
Graphic Presentation	834
Test Questions	841
Practical Problems	842
19. Mechanised Accounting and Control	845—856
Types of Accounting Machines	845
Relevant Factors for Mechanised Accounting	845
Preliminaries to the Mechanised Accounting System	846
Integrated Data Processing	846
Accounting with Adding and Calculating Machines	847
Accounting with Book-Keeping and Accounting Machines	847
Accounting under Punched Card System	848
Accounting with Electronic Computers	851
Hardware and Software	852
Hiring the Computer Services	855
Test Questions	856

20. Cost Audit

- Functions of Cost Audit
- Scope of Cost Audit
- Financial Audit and Cost Audit
- Cost Audit and Management Audit
- Implementing Authorities of Cost Audit
- Advantages of Cost Audit
- Cost Audit Techniques
- Cost Audit Programmes
- Cost Records under the Companies Act, 1956
- Cost Audit under the Companies Act, 1956
- Cost Audit Report
- Test Questions

857—874
 857
 857
 858
 858
 859
 860
 861
 863
 865
 867
 874

SECTION 5 : REVISIONARY PROBLEMS

- Direct Materials
- Direct Labour
- Overheads-General
- Single or Output Costing
- Job and Contract Costing
- Process Costing
- Operating Costing
- Cost Control Accounts
- Reconciliation of Cost and Financial Accounts
- Integrated Accounts
- Budgetary Control
- Standard Costing
- Marginal Costing and Cost Volume Profit Analysis
