

Cost Accounting

Textbook

V.K. Saxena
C.D. Vashist

SULTAN CHAND & SONS

Contents

<i>Chapter</i>	<i>Page Nos.</i> <i>(vii) to (xxviii)</i>
	Preface, Contents, Trend Analysis, Syllabuses etc.
T-1	Overview of Cost Accounting Concepts and Practices T 1.1 - T 1.21 Learning Objectives T 1.1 Cost Accountancy T 1.1 Cost Accounting T 1.1 Throughput Accounting T 1.2 Cost Accounting and Financial Accounting T 1.2 Cost Accounting and Management Accounting T 1.3 Different Types of Cost T 1.4 Cost, Expense and Loss T 1.6 Cost Centre T 1.7 Cost Unit T 1.8 Historical Costing T 1.9 Standard Costing T 1.9 Marginal Costing T 1.9 Direct Costing T 1.9 Absorption Costing T 1.9 Uniform Costing T 1.9 Advantages and Limitations of Cost Accounting T 1.10 Objectives for measurement of Direct and Indirect Cost T 1.11 Basic Cost Concepts T 1.12 Standards for General Cost Accounting Practices T 1.12 Cost Classification T 1.12 Methods of Calculating Unit Cost of Production T 1.12 Job Costing T 1.13 Process Costing T 1.13 Composite or Multiple Costing T 1.14 Cost Control T 1.14 Installation of Costing System T 1.15 Key Examination Points/Authors' Comments T 1.16 Exercises T 1.16 T 2.1-T2.71 T-2 Materials Learning Objectives T 2.1 Direct and Indirect Materials T 2.1 Classification and Codification of Materials T 2.2 <i>Section-I-Purchase Procedure</i> T 2.2-T2.7 Functions of Purchase Department T 2.2 Centralized vs. Decentralized Purchasing T 2.2 Purchase Procedures T 2.4 Purchase Requisitions T 2.4 Bill of Materials T 2.4 Selection of Possible Source of Supply T 2.5 Placing the Purchase Order and its follow-up T 2.6 Receiving and Inspecting Materials T 2.7 Processing Discrepancies and Rejections T 2.7 <i>Section II-Stores Routines</i> T 2.8-T2.23 Objectives of Storekeeping T 2.8 Maximum Stock Level T 2.9 Minimum Stock Level T 2.9 Recorder Level T 2.9 Danger Level T 2.9 Economic Order Quantity T 2.10 Methods of Determining EOQ T 2.10 Just-in-time (JIT) T 2.12 Summary of Stock Levels and EOQ Formulae T 2.14 Receipt of Materials T 2.14

Issue of Materials	T 2.23
Periodical Checking	T 2.23
Stores Records	T 2.23
Bin Card	T 2.23
Stores Ledger	T 2.23
Deficiencies and Surpluses of Stock	T 2.23
Material Abstract or Material Issue Analysis Sheet	T 2.23
Goods Received Note	T 2.23
Material Issue Requisition	T 2.23
Material Return Note	T 2.23
Physical Inventory Verification	T 2.23
Perpetual Inventory System	T 2.23
Periodic Inventory	T 2.23
ABC Analysis	T 2.23
Pareto Analysis	T 2.23
Section III-Material Control and Inventory Control	
Material Control	T 2.23
Inventory Control	T 2.23
Techniques of Inventory Control	T 2.23
Establishing Optimum Size of Inventory	T 2.23
Valuation of Inventory	T 2.23
Principal Bases of Inventory Valuation	T 2.23
Valuation of Materials	T 2.23
Valuation of W.I.P.	T 2.23
Valuation of Finished Goods	T 2.23
Effect of Inventory Costing Method on Profit	T 2.23
Input-Output Ratio Analysis	T 2.30
Section IV-Material and Production Losses	
Waste	T 2.30
Scrap	T 2.30
Spoilage	T 2.30
Defective Work	T 2.30
Section V-Material Cost	
Valuation of Purchases	T 2.37
Returnable/Non-returnable Containers	T 2.37
Identifiable Cost Method	T 2.37
FIFO Method	T 2.37
LIFO Method	T 2.37
Base Stock Method	T 2.37
Simple Average Method	T 2.37
Periodic Weighted Average Price Method	T 2.37
Periodic Simple Average Method	T 2.37
Moving Simple Average Method	T 2.37
Moving Weighted Average Method	T 2.37
Standard Cost Method	T 2.37
Replacement Cost Method	T 2.37
Next-in-First-out Method	T 2.37
Highest-in-First-out Method	T 2.37
LCM Price Method	T 2.37
Inflated Price Method	T 2.37
Reuse Price Method	T 2.37
Pricing of Materials Returned to Store	T 2.37
Selection of Material Pricing Method	T 2.37
Pricing of Material Returned to Vendors	T 2.37
Typical Examples	T 2.51 to 2.70
Table showing break-up of Typical Examples	T 2.71
Key Examination Points/Authors' Comments	T 2.71
Exercises	T 2.71
T-3. Labour	T 3.1 to T 3.62
Section I-Classification, Time-keeping and Time-booking	T 3.1-T 3.7
Learning Objectives	T 3.1

Classification of Labour Cost	T 3.1
Direct Labour Cost	T 3.1
Indirect Labour Cost	T 3.1
Controllable and Uncontrollable Labour Cost	T 3.2
Time-keeping	T 3.2
Methods of Time-keeping	T 3.2
Time Booking	T 3.3
Work Study	T 3.5
Methods Study	T 3.5
Time Study	T 3.6
Job Evaluation	T 3.6
Merit Rating	T 3.7

Section II- Methods of Remuneration and Incentives T 3.7 to 3.26

Methods of Remuneration	T 3.8
Time Rate System	T 3.8
Incentive Wage Payment Plant	T 3.11
Piece Rate Scheme	T 3.12
Piece Work with Guarantee Minimum Wage	T 3.14
Taylor Differential Piece Rate System	T 3.14
Multiple Piece Rate System	T 3.15
Gantt Task and Bonus System	T 3.15
Emerson's Efficiency System	T 3.17
Bedaus System	T 3.18
Halsey Plan	T 3.19
Halsey-Weir Premium Plan	T 3.20
Rowan Plan	T 3.20
Barth Sharing Plan	T 3.21
Accelerated Premium Plan	T 3.21
Group Bonus System	T 3.22
Cost Efficiency Bonus or Scanlon Plan	T 3.23
Summary of Labour Payment Formulae	T 3.24
Profit Sharing Plan	T 3.25
Co-partnership	T 3.25
Non-Monetary Incentives	T 3.25
Incentive for Indirect Workers	T 3.26

Section III - Payroll Accounting and Labour Cost Control T 3.27 to T 3.52

Payroll or Wage Sheet	T 3.27
Internal Checks for Wages or Prevention of Fraud in Wage Payment	T 3.28
Payroll analysis or Labour Cost Distribution	T 3.28
Idle Time	T 3.30
Treatment of Idle Time Cost	T 3.31
Overtime	T 3.32
Treatment of Overtime Cost	T 3.33
Holiday and Vacation Pay	T 3.33
Fringe Benefits	T 3.34
Labour Turnover	T 3.34
Methods of Measuring Labour Turnover	T 3.35
Typical Examples	T 3.40 to T 3.54
Table showing break-up of Typical Examples	T 3.54
Key Examination Points/Authors' Comments	T 3.54
Exercises	T 3.55

T-4 Overheads **T 4.1 to T 4.103**

Learning Objectives	T 4.1
Elements of Overhead	T 4.2
<i>Section I Classification and Collection of Overhead</i>	<i>T 4.2 to T 4.8</i>
Manufacturing Overhead	T 4.3
Administration Overhead	T 4.3
Selling Overhead	T 4.3
Distribution Overhead	T 4.3
Fixed Overhead	T 4.4
Variable Overhead	T 4.4

Semi-Variable Overhead	
Segregation of Semi-Variable Overhead into Fixed and Variable Element	
Scattergraph Method	
Least Square Method	
Section II--Manufacturing Overhead	
Collection of Overhead	
Distribution of Overhead	
Allocation of Overhead	
Primary Distribution	
Secondary Distribution	
Methods of Redistribution	
Direct Redistribution	
Step Method	
Reciprocal Method	
Trial and Error Method	
Repeated Distribution Method	
Simultaneous Equation Method	
Overhead Absorption	
Capacity and Overhead Rates	
Theoretical Capacity	
Practical Capacity	
Normal capacity	
Capacity based on Sales Expectancy	
Idle Capacity or Excess Capacity	
Methods of Absorption	
Production Unit Method	
Percentage on Direct Wages	
Percentage on Direct Material Cost	
Percentage on Prime Cost	
Direct Labour Hour Method	
Machine Hour Rate	
Sales Price Method	
Choice of a Particular Method of Absorption	
Under/Over Absorption of Overheads	
Section III--Administration and Selling and Distribution Overheads	T 4.30 to
Administration Overhead	
Accounting of Administration Overheads	
Selling and Distribution Overhead	
Manufacturing vs. Selling and Distribution Overhead	
Collection, Absorption and Analysis of Selling and Distribution Overhead	
Treatment of Special Items of Selling Overhead	
Section IV-Activity Based Costing (ABC)	T 4.37 to
Reasons for Introduction of ABC	
Conceptual Framework	
Basics of ABC	
Advantages	
Section V-Miscellaneous	T 4.39 to
Treatment of specific items of Overhead	
Interest on Capital	
Interest on Borrowings for Working Capital	
Depreciation	
Methods of Calculating Depreciation	
Treatment of Depreciation in Cost Accounts	
Rate of Depreciation	
Depreciation of fully Depreciated Assets	
Typical Examples	T 4.50 to
Table showing break-up of Typical Examples	
Key Examination Points/Authors' Comments	
Exercises	

	Cost Book-Keeping	
	Learning Objectives	T 5.1 to 5.30
	Non-Integrated Accounting	T 5.1
	Principal Ledgers in Cost Department	T 5.1
	General Ledger Adjustment Account	T 5.1
	Accounting for Materials	T 5.2
	Accounting for Wages	T 5.3
	Accounting for Overhead	T 5.4
	Integral or Integrated Accounting	T 5.6
	Features of Integrated Accounting	T 5.12
	Journal Entries	T 5.12
	Typical Examples	T 5.13
	Table showing break-up of Typical Examples	T 5.18 to T 5.32
	Key Examination Points/Authors' Comments	T 5.26
	Exercises	T 5.26
		T 5.27
T-6	Reconciliation of Cost and Financial Accounts	T 6.1 to T 6.22
	Learning Objectives	T 6.1
	Reconciliation	T 6.1
	Items of Financial Accounts only	T 6.1
	Items of Cost Accounts only	T 6.1
	Under/Over Absorption of Overheads	T 6.1
	Adoption of different basis of Stock Valuation	T 6.2
	Procedure for Reconciliation	T 6.2
	Typical Examples	T 6.5 to 6.19
	Table showing break-up of Typical Examples	T 6.19
	Key Examination Points/Authors' Comments	T 6.19
	Exercises	T 6.20
T-7	Job Costing and Batch Costing	T 7.1 to T 7.19
	Learning Objectives	T 7.1
	Cost Accounting Methods and Techniques	T 7.1
	Types of Activities suitable for Job costing	T 7.1
	Routines under Job Costing	T 7.2
	Accounting for Elements of Costs	T 7.3
	Treatment of Defective Work in Job Costing	T 7.4
	Checking accuracy of costs under Job costing	T 7.4
	Valuation of Work-in-Progress	T 7.4
	Control of Tools	T 7.5
	Issue of Tools to workers	T 7.5
	Batch Costing	T 7.7
	Economic Batch Size	T 7.8
	Typical Examples	T 7.9 to T 7.18
	Table showing break-up of Typical Examples	T 7.18
	Key Examination Points/Authors' Comments	T 7.18
	Exercises	T 7.18
T-8	Single or Output Costing	T 8.1 to T 8.33
	Learning Objectives	T 8.1
	Cost Accumulation Procedure in Unit Costing	T 8.1
	Preparation of Cost Sheet	T 8.2
	Production Account	T 8.4
	Typical Examples	T 8.5 to T 8.26
	Table showing break-up of Typical Examples	T 8.26
	Key Examination Points/Authors' Comments	T 8.26
	Exercises	T 8.29
T-9	Contract Costing	T 9.1 to T 9.24
	Learning Objectives	T 9.1
	Features	T 9.2
	Sub-Contracting	T 9.2
	Surveyor's Certificate and Retention Money	T 9.3
	Escalation Clause	T 9.4
	Cost-plus Contract	T 9.4
	Profit on Incomplete Contracts	T 9.5

	Work Certified and Work Uncertified	
	Target Price Contract	
	Profit on Incomplete Contracts based on SSAP 9	T 9.8 to T 10
	Typical Examples	
	Table showing break up of Typical Examples	
	Key Examination Points/Authors' Comments	
	Exercises	
T-10	Process Costing	T 10.1 to T 10
	Learning Objectives	
	Job Costing and Process Costing	
	Process Cost Accounting Procedure	
	Basic Steps for Solution of Problems in Process Costing	
	Equivalent Production	
	Process Costing with Normal Loss	
	Process Costing with Abnormal Loss	
	Process Costing with Abnormal Gain	
	Adjustment of Scrap Value	
	Process Costing under Different Inventory Costing Methods	
	FIFO Method	
	Average Method	
	LIFO Method	
	Weighted Average Method	
	Introduction of Materials at Different Stages	
	Material Continuously Introduced	
	Material Introduced at the End	
	Inter-Plant Profits in Process Costing	
	Typical Examples	
	Table showing break-up of Typical Examples	T 10.35 to T 10
	Key Examination Points/Authors' Comments	
	Exercises	
T-11	Service Costing	T 11.1 to T 11
	Learning Objectives	
	Transport Costing	
	Representative Cost Sheet	
	Boiler House Costing	
	Power House Costing	
	Canteen Costing	
	Hospital Costing	
	Typical Examples	
	Table showing break-up of Typical Examples	T 11.10 to T 11
	Key Examination Points/Authors' Comments	
	Exercises	
T-12	Joint Products and By-Products	T 12.1 to T 12
	Learning Objectives	
	Joint Costs	
	Joint Products	
	By-Products	
	Common Costs	
	Co-Products	
	Major-Products and Minor Products	
	Distinction between Joint Products and By-Products	
	Accounting for Joint Products	
	Average Unit Method	
	Physical Unit Method	
	Survey Method	
	Contributory Margin Method	
	Market Value Method	
	Methods of By-Product Accounting	
	Other Income Method	
	Total Sales less Total Cost	
	Total Cost less Sales Value of By-Products	
	Total Cost less Net Yield of By-Products	

	Reverse Cost Method	T 12.16
	Replacement Cost Method	T 12.17
	Standard Cost Method	T 12.17
	Typical Examples	
	Table showing break-up of Typical Examples	T 12.18 to T 12.31
	Key Examination Points/Authors' Comments	T 12.31
	Exercises	T 12.31
		T 12.32
T-13	Marginal Costing and Cost-Volume Profit Analysis	T 13.1 to T 13.74
<i>Section I--Marginal Costing--General</i>		<i>T 13.1 to T 13.16</i>
	Learning Objectives	T 13.1
	Marginal Cost	T 13.2
	Marginal Costing	T 13.2
	Variable Cost	T 13.2
	Fixed Cost	T 13.3
	Break-even Point	T 13.3
	Contribution	T 13.3
	Key Factor	T 13.3
	Basic Marginal Cost Equation	T 13.3
	Profit Volume Ratio	T 13.4
	Margin of Safety	T 13.5
	Angle of Incidence	T 13.7
	Main Features of Marginal Costing	T 13.7
	Absorption Costing vs. Marginal Costing	T 13.8
	Reconciliation of Results of Marginal Costing and Absorption Costing	T 13.8
	Selling at or Below Marginal Cost	T 13.11
	Applications of Marginal Costing Technique	T 13.12
	Profit Planning	T 13.12
	Make or Buy Decision	T 13.14
	Optimising Product Mix	T 13.15
	Alternative Use of Production Facilities	T 13.15
	Evaluation of Performance	T 13.16
<i>Section--II--Cost-Volume Profit Relationship</i>		<i>T 13.16 to T 13.29</i>
	Simple Break-even Chart	T 13.19
	Elaborate Break-even Chart	T 13.21
	Cash Break-even Chart	T 13.22
	Control Break-even Chart	T 13.22
	Profit-Volume Chart	T 13.23
	Sequential Profit Graph	T 13.25
	Assumptions of CVP Analysis	T 13.29
	Typical Examples	
	Table showing break-up of Typical Examples	T 13.29 to T 13.62
	Key Examination Points/Authors' Comments	T 13.62
	Exercises	T 13.63
		T 13.65
14	Short-Term Decision Making	T 14.1 to T 14.59
	Learning Objectives	T 14.1
	Long-Term and Short-term Decisions	T 14.1
	Relevant Cost Concepts	T 14.1
	Differential Cost	T 14.1
	Differential Cost and Marginal Cost	T 14.2
	Differential Cost and Relevant Cost	T 14.2
	Unlike Cost Concept	T 14.2
	Fixed Cost/Sunk Cost and Decision Making	T 14.3
	Comparison of Total Costs and Total Revenue	T 14.3
	Opportunity Cost	T 14.4
	Price Indifference Point	T 14.5
	Cost Indifference Point	T 14.6
	Cost Indifference Point and Break-even Point	T 14.7
	Multiple Alternative Decisions	T 14.7
	Some Major Short Term Decisions	T 14.9
	Summary of Important Points for Decision Making	T 14.11
	Quantitative and Qualitative Factors	T 14.11
		T 14.12

Discontinue Sales to Certain Types of Customers
 Retain or Replace Decisions
 Make or Buy Decisions
 Pricing Decisions for Special Order
 Elimination of Unprofitable Segments
 Decision to Shutdown Facilities
 What Price to Pay for Raw Materials
 Expand or Contract
 Change vs. Status Quo
 Adding a New Product to the Line
 Decision Making and Limiting Factors
Typical Examples
 Table showing break-up of Typical Examples
 Key Examination Points/Authors' Comments
 Exercises

T 14.23 to

T 15.1 to T

T 15.1 to

T-15 Budgetary Control

Section I--General

Learning Objectives
 Budget
 Budgetary Control and Budgeting
 Budgets and Forecasts
 Requirement of Good Budgetary System
 Advantages of Budgetary Control
 Preliminaries for Operation of Budgetary Control
 Fixed Budget
 Flexible Budget
 Flexed Budget/Budget Cost Allowances
 Types of Budgets

Section II--Establishment of Functional Budget and Master Budget T 15.10 to T

Sales Budget
 Production Product
 Material Budget
 Purchase Budget
 Labour Budget
 Overhead Budget
 Administration Cost Budget
 Research and Development Budget
 Capital Expenditure Budget
 Selling and Distribution Cost Budget
 Cash Budget
 Advertisement Cost Budget
 Master Budget
 Report Writing

T 15.25 to T

Section III--Miscellaneous

Analysis of Budget Variations
 Revision of Budgets
 Budget Follow-up
 Recent Developments in Budgeting
 Zero-base Budgeting
 Responsibility Accounting
 Responsibility Centres (Cost, Revenue, Profit and Investment Centres etc.)
 Limitations of Responsibility Accounting

T 15.32 to T 15.

Typical Examples

Table showing break-up of Typical Examples
 Key Examination Points/Authors' Comments
 Exercises

T 16.1 to T 16.

T 16.1 to T 16.

T-16 Standard Costing

Section I--General

Learning Objectives
 Standard Cost
 Standard Costing

T 16
 T 16
 T 16

T-1

Standard Hour	T 16.2
Standard Cost and Estimated Cost	T 16.3
Standard Costing and Budgetary Control	T 16.3
Pre-requisites to Establishment of Standards	T 16.4
Types of Standards (current, basic, normal, ideal)	T 16.4
Setting of Standards	T 16.5
Standard Cost Sheet	T 16.7
Revision of Standards	T 16.10
Variance Analysis	T 16.11
Cost Variance	T 16.12 to T 16.42
Material Cost Variance	T 16.13
Material Price Variance	T 16.14
Material Usage or Volume Variance	T 16.14
Material Mix Variance	T 16.15
Material Yield Variance	T 16.15
Direct Wage Variance	T 16.19
Direct Wage Rate Variance	T 16.19
Direct Wage Efficiency Variance	T 16.19
Direct Wage Gang Variance	T 16.19
Labour Idle Time Variance	T 16.19
Labour Yield Variance	T 16.20
Variable Overhead Variance	T 16.21
V.O. Expenditure Variance	T 16.22
V.O. Efficiency Variance	T 16.22
Fixed Overhead Variance	T 16.23
F.O. Expenditure Variance	T 16.24
F.O. Volume Variance	T 16.24
F.O. Calender/Idle time Variance	T 16.25
F.O. Capacity Variance	T 16.26
F.O. Efficiency Variance	T 16.26
Sales Margin Variance	T 16.28
S.M. Price Variance	T 16.29
S.M. Mix Variance	T 16.29
S.M. Quantity Variance	T 16.29
Sales Value Variance	T 16.30
S.V. Price Variance	T 16.31
S.V. Volume Variance	T 16.31
S.V. Mix Variance	T 16.31
S.V. Quantity Variance	T 16.31
Summary of Model Steps for Variance Analysis	T 16.32
Two-Variance, Three-Variance and Four Variance	T 16.33
Causes of Variances	T 16.36
Disposition of Variances	T 16.37
Reporting of Variances	T 16.39
Ratio Analysis (Efficiency, Activity, Calender, Capacity, Usage)	T 16.39
Decision to Investigate Variances	T 16.41
Accounting Methods	T 16.42
Typical Examples	T 16.42 to T 16.66
Table showing break-up of Typical Examples	T 16.66
Key Examinations Points/Authors' Comments	T 16.66
Exercises	T 16.68
T-17 Uniform Costing and Inter-Firm Comparison	T 17.1 to 17.12
Learning Objectives	T 17.1
Applications of Uniform Costing System	T 17.1
Objectives of Uniform Costing	T 17.2
Advantages and Limitations	T 17.2
Pre-requisites of Uniform Costing System	T 17.2
Requirements of Good Uniform Costing System	T 17.3
Nature and Scope of Uniform Cost Plan	T 17.4
Uniform Cost Manual	T 17.4
Inter-Firm Comparison	T 17.5
Purpose and Problems of IFC	T 17.6

Requirements of IFC Scheme
 Rates and IFC
 IFC in the Printing Industry (UK)
 Advantages of IFC
 Limitations of IFC
 Key Examination Points/Authors' Comments
 Exercises

T-18 Miscellaneous Topics

I-Value Analysis
 Learning Objectives
 Important Considerations
 Value Analysis and Value Engineering
 Value Analysis and Cost Reduction
 Relevant Terms of Value
 Basic Steps in Value Analysis Project

II-Cost Reduction
 Cost Control and Cost Reduction
 Cost Reduction Programme
 Areas of Cost Reduction
 Techniques of Cost Reduction

III-Productivity
 Productivity and Production
 Productivity and Profitability
 Causes of Low Productivity
 Factoral Productivity

IV-Research and Development Costs
 Basic Research
 Applied Research
 Development Work
 Items to be included under R & D Costs
 Items to be excluded from R & D Costs
 Determining Amount to be Spent for R & D
 Cost Accounting of R & D Costs
 Treatment of Special Items of R & D Costs

V-Cost Audit
 Objectives of Cost Audit
 Propriety Audit
 Efficiency Audit
 Preliminaries to Cost Audit
 Cost Audit Programme
 Cost Audit and Companies Act
 Industries covered under Cost Audit

VI-Mechanisation of Accounts
 Various Devices used for Mechanisation
 Electronic Data Processing
 Special Features of a Computer
 Elements of Computer
 Input and Output Devices
 Advantages of EDP
 Limitations of EDP
 Key Examination Points/Authors' Comments
 Exercises
