Essay on Corruption

"Fighting Corruption is not just good governance, its self-defense."

Corruption refers to an act performed by an individual or a group, which seriously comprises the rights and privileges of someone else. It is a challenge that every citizen faces everyday. Joe Biden, America's 47th Vice President quoted - "corruption is just another form of tyranny."

Though India's ranking in Global Corruption Index has been improved, it's still far from becoming a corruption free nation. It had been prevalent even under the British Empire and now, even after the 75 years of Independence, much has not changed in front of the Indian people. On the contrary, corruption has grown in dimension and today, it seriously hampers the economical, social and infrastructure progress of the nation as never before. It devoids the people of India of their basic rights of equality, right to equal opportunity, freedom etc.
