

CHAP.	PAGE
15. Development: A Never-ending Process ..	140
Development of Developed Countries 140	
Development Necessitates Further Development 141	
Race between Supply and Demand of Income 142	
Unemployment Necessitates Further Development 143	
Distortion of Distribution-Pattern Necessitates Further Development 145	
International Riskily 146	148
16. Time Horizon: Present vs. Future ..	148
The Ultimate Aim 148	
Conflict of Macro and Micro Objectives 150	
Growth and Stability of the Price Level 151	
Does Instability of Prices Help Economic Development? 152	
Relationship between Unemployment and Development 155	
Is Long Period a Summation of Short Periods? 157	
17. A Blind Pursuit of Economic Development ..	158
Welfare and Development 158	
What is Value Judgment? 159	
Equitable Distribution 160	
Development Creates More Wants than it Satisfies 161	
Development for Survival 162	
18. Classical Theory of Development ..	164
Adam Smith's Theory 164	
Laissez-faire Essential 166	
The Cycle 167	
David Ricardo's Theory 168	
How Development Takes Place 170	
Changes in Relative Shares 171	
Place of International Trade 172	
Malthus's Theory 173	
What Retards Economic Development? 175	
Development through Industrialization 177	
Main Points of the Classical Theory 178	
19. Joseph Schumpeter's Theory of Development ..	181
Optimism versus Pessimism 181	
Schumpeter's Pessimistic Optimism 182	
Schumpeter's Broken Dynamism 183	
Relationship between Profit and Saving 185	

CHAP.	PAGE
Voluntary versus Forced Saving 186	
Voluntary Saving a Check on Fluctuations and Development 188	
The Cycle 188	
From Long to a Very Long Period 190	
20. Karl Marx's Theory of Development ..	193
Marx's Emphasis on Matter 195	
Development Leads to Class Struggle 194	
Demand for Capital Lags behind Supply 196	
Lag through Surplus Value 196	
Marx's Surplus Value 199	
Development and Decline 202	
From Decline to a Crisis 204	
A Label to Marx's Theory 205	
The Last Attempt to keep the Head above Water 206	
Where Marx has gone Wrong 207	
21. More Recent Theories of Development : Harrod's Model ..	209
The Problem of Excess Capacity 209	
R. F. Harrod's Theory 212	
Growth Rates 213	
Harrod's Dynamic Equilibrium 216	
Instability of Growth 218	
Checks to Cumulative Processes 220	
Quantitative Aspect of Warranted Rate 222	
Saving and Investment Coefficients 225	
22. E. Domar's Model ..	227
Productive Capacity and Income both Increase 227	
Domar's and Harrod's Models Compared 228	
Dynamic Equilibrium of Domar Compared with that of Harrod 231	
Parameters and Variables in the Model 232
