

## FEEDBACK 2022-23

Feedback mechanism's strength determines improvement and growth of an organisation. The college takes almost care to maintain various formal sources to obtain feedback from various stakeholders. The stakeholders are encouraged to give/share their ideas and their views are always welcomed by the principal via official emails, in the public domain. Feedback forms are designed for students to get their view regarding various aspects such as teaching programme, college infrastructure, coverage and clarity of topics in syllabus, grievance handling, unit tests and evaluation programmes for students, cultural events and sports events etc.

The college has arranged suggestion boxes in different departments and common rooms. These boxes are periodically opened by IQAC under the supervision of the principal. Any complaints received is addressed by principal and various committee in-charges/teacher bodies. The IQAC also collects regular information through SSS form. Teachers feedback on curriculum, infrastructure is also received with in staff council frame work. The principal at the end of the academic session (Convenes various meetings with different departments) to discuss, device and revise pedagogical strategies according to teachers experience and suggestions. These suggestions are recapitulated for implementation of new pedagogic strategies and programmes in the staff councils meeting on the opening day of the new session.

The college has opportunity give feedback directing to parent departments in the university through staff members when invited in UG BOS meetings to develop and revise curriculum. The college not only works on regular Feedback from present students but also has a wide network with its alumni. These students are well settled in India and Abroad and provide regular information for the betterment of the college. Parents of the students are equally important. The IQAC also receives feedback from them through question regarding infrastructure/Classes and students' response towards various aspects discussed above.
