

Library Automation and Networking

P. Balasubramanian

Contents

Acknowledgements	xix
1. INTRODUCTION	1
2. COMMUNICATION	6
Communication Media	8
Communication Theory	9
Communication Models	10
Levels of Problems in the Analysis of Communication	12
Weaknesses of the Transmission Model of Communication	12
Scientific Communication Channels	13
Formal Printed Channels	13
The Advantages of the Formal Printed Channels	13
Oral Channels	14
The Advantages of Oral Channels of Communication	14
The Disadvantages of Oral Channels of Communication	14
Electronic Mail and Electronic Conferences	14
Communication and Media	15

Terminals	15
Telecommunication Processors	16
Components of Communication Network	16
Telecommunication Channels and Media	16
Computer Networks	16
Telecommunication Software	17
Communication Processors	17
Modems	17
Message Switchers	18
Communication with and without Message Switchers	19
Multiplexers, Concentrators and Controllers	19
Components of Communication	19
Front-end Processors	19
Communication Needs	20
Communication Media	20
Coaxial Cable	21
Fiber Optic Cable	21
3. DATABASE MANAGEMENT SYSTEMS (DBMS)	22
Data to Information	23
Record	23
Record Length	23
What is a Database?	23
Database Management System	23
Data Hierarchy	24
Features of DBMS	25
Advantages/Need and Purposes of DBMS	25
1. Redundancy can be Reduced	25
2. Inconsistency can be Avoided	25
3. Data can be Shared	25

4. Standards can be Enforced	25
5. Security Restrictions can be Applied	25
6. Integrity can be Maintained	26
Characteristics of Data in a Database	26
Database Models	27
Creating a File in FoxPro	27
Entering Database Records	28
Sorting	28
Deleting	28
Updating	28
Searching	29
Structures of Database Management Packages	29
Relational Database Management Systems (RDBMS)	30
a. Entities	31
b. Attributes	31
c. Relation	31
d. Tuple	32
e. Domain	32
4. LIBRARY AUTOMATION	33
Definition of Automation	34
Understanding Library Automation	34
The Need for Automation	35
Productivity	35
Accessibility	35
Understanding Meaning of Monitoring	36
Library Automation Monitoring Involves	36
Factors Affecting Implementation of Library Automation	36
Library Automation Software Issues	37
Why Automate Library?	37

Library House Keeping Operation	39
Function of Library Automation in Serial Controls	39
Function of Library Automation in Circulation Section	40
Function of Library Automation in Cataloguing	41
Extension Services in Library	41
Library Automation Performances in the Context of Internet	42
Which Library Automation Software to Use?	43
Definition of Software	43
Types of Software	43
Application Software	44
Systems Software	44
Utility Software	44
Categories of Library Software	44
Library House Keeping Software	45
Strategy for Software Selection and Evaluation	46
Different Library Automation Management Software	47
Freeware	47
CDS/ISIS	47
User Programs (Menus)	48
System Programs (Menus)	48
Menus	48
Prompts	49
Worksheets	49
The CDS/ISIS Database	50
Master File	50
Inverted File	50
Definition of Data Structure	51
ISISDEF	51

Field Definition Table (FDT)	51
Worksheet Creation	52
Field Select Table (FST)	53
Field Identifier (ID)	53
Indexing Technique (IT)	54
Data Extraction Format	54
Definition of Display Format	54
ISISDEF	54
Field Select Parameter	55
Literals	55
Unconditional Literals	56
Conditional Literals	56
Repeatable Literals	57
Prefix-Literal	57
Suffix-Literal	58
Length of Literals	58
Spacing Parameters	58
Indention Command	59
Example	59
MFN Command	59
Mode Command	59
Data Entry	60
ISISNET	60
Filling Information for Sorting	61
Editing	62
Inverted File Generation	62
ISISINV	62
Information Retrieval Process	62
Search Expression	63
Commercial Software	63
A Sample of Request for Proposal	64

Library Automation Steps	64
Automation Costs	65
5. KOHA	67
Installation on LINUX	68
Prerequisites	69
Hardware	69
Network Interface Cards	70
Software	70
Features (Different Modules Supported)	70
Acquisition	71
Ordering	71
Catalogue Searching	72
Member Module	73
Adding an Adult Member	73
Member ID	73
Add Child	75
Report Module	76
Circulation Module	77
OPAC (Online Public Accessible Catalogue)	79
6. DIGITAL LIBRARY	81
Defining Digital Libraries	81
Types of Digital Libraries	82
Advantages	82
No Physical Boundary	83
Round the Clock Availability	83
Multiple Accesses	83
Structured Approach	83
Information Retrieval	83
Preservation and Conservation	83
Space	83

Networking	84
Cost	84
Problems	84
Academic Repositories	85
Electronic Resources in Digital Libraries	85
EBSCO	86
OCLC Collection	86
Proquest	87
MINITEX	87
MnLINK Gateway	87
Electronic Resources—Meta Data, Meta Data Standards	88
What is Metadata?	88
What Does Metadata Do?	90
Metadata Element Sets	90
Resource Discovery	90
Organizing Electronic Resources	91
Interoperability	91
Digital Identification	92
Archiving and Preservation	92
MARC 21 Concise Bibliographic: Introduction	93
Kinds of Bibliographic Records	94
Fill Character	95
Typographical Conventions	95
Dublin Core	96
Greenstone	97
Technical	98
Platforms	98
Interoperability	98
User Base	100
DSpace Based Digital Library	103

Why DSpace was Opted?	104
Working with DSpace	105
Architecture and System Requirements	106
Information Model and Collection Organization	107
DSpace Search System	107
Data Formats	108
Metadata	108
Descriptive Metadata	109
Administrative Metadata	109
Structural Metadata	109
Metadata Harvesting	109
Persistent Identifiers	109
7. COMPUTER NETWORKS	112
Network Topologies	112
Star Network	113
Star Topology	114
Ring Network	114
Bus Network	115
Bus Topology	115
Types of the Computer Networks	115
Local Area Networks (LAN)	116
Metropolitan Area Network (MAN)	116
Wide Area Network (WAN)	117
A Typical WAN Set-up	118
Internet	118
Internet—Concept	118
History of Internet	120
Internet Services	121
Standards	122
What are Specials about Internet?	123

Getting Information on the Internet	124
Providing Information on the Internet	124
Internet Access	125
Dial-up Connection	125
Direct Connection	125
General Service	125
Internet Protocols	126
Transmission Control Protocol/Internet Protocol (TCP/IP)	126
File Transfer Protocol (FTP)	127
The Basic Steps to Use FTP	128
Hypertext Transfer Protocol (HTTP)	129
Telnet	130
Gopher	130
WAIS	132
Internet Addressing	132
IP Address	132
Uniform Resource Locator (URL)	133
Web Browsers	133
Web Browsing	134
Searching the Web	134
Web Index	135
Search Engines	135
Meta-search Engines	136
Example	136
Internet Chat	136
Intranet	137
Characteristics of Intranet	138
Advantages of Intranets	138
Semantic Web	139
Blogs	139

Information	140
Content Management Systems	140
Web Content Management Systems	141
RSS Feeds	141
Deep Web or Invisible Web	142
Deep Resources	143
Accessing	144
Evaluation of Web Documents How to	
Interpret the Basics	144
Accuracy	144
Authority	145
Objectivity	145
Currency	145
Coverage	146
Web 2.0	146
Library 2.0	147
Web 2.0 in the Libraries	147
OPAC	148
Alert Services	148
Publishing	149
Notices	150
Portal	150
Development of Web portals	151
Regional Web Portals	152
Government Web Portals	153
Corporate Web Portals	153
Hosted Web Portals	154
Entertainment Portals	155
Environmental Portals	155
Investment Portals	155

Mini Portals	155
Voice Portals	155
Open Access Journal	156
ISDN : Integrated Services Digital Networks	157
Motivation of ISDN	158
Sociological or Societal Needs	158
Economic Necessities	159
Technological Development	159
B. LIBRARY AND INFORMATION NETWORKS	161
Definitions	161
Objectives	162
Network Development in India	162
Limitations in Network Development	163
OCLC (Online Computer Library Center)	163
Membership	164
Expanding beyond Ohio	164
Mission	164
Vision	164
Quality Policy	164
How it Works?	165
CALIBNET	166
BONET	167
DELNET	167
The Main Objectives of DELNET	169
ADINET	170
MYLIBNET	170
BALNET	170
MALIBNET	170
INFLIBNET	171

The Primary Objectives of INFLIBNET as Envisaged in Memorandum of Association		
Functions		172
Membership		172
1. Primary Membership		174
2. Associate Membership : [Under Consideration]		174
INFONET		174
		175
9. GENERAL NETWORKS IN INDIA		176
NICNET		176
Aims and Objectives		177
Architecture		177
Services		178
INDONET		178
I—NET (VIKRAM)		179
MYLIBNET		180
DESINET		180
ERNET		181
How it Began?		182
The Objectives of ERNET India		182
Achievements		183
Network Infrastructure and Services Set-up		183
Research and Development		183
SIRNET		183
VIDYANET		184
BTISNET (Biotechnology Information System Network)		185
Indian Railways RAILNET		186
